Colors & Shapes

Red

Color the heart red.

heart

Circle the things that are red.
Draw a red  on the street.

car

How many circles did you draw? 3 4 5

Blue

Color the  and the  blue.

bird berries

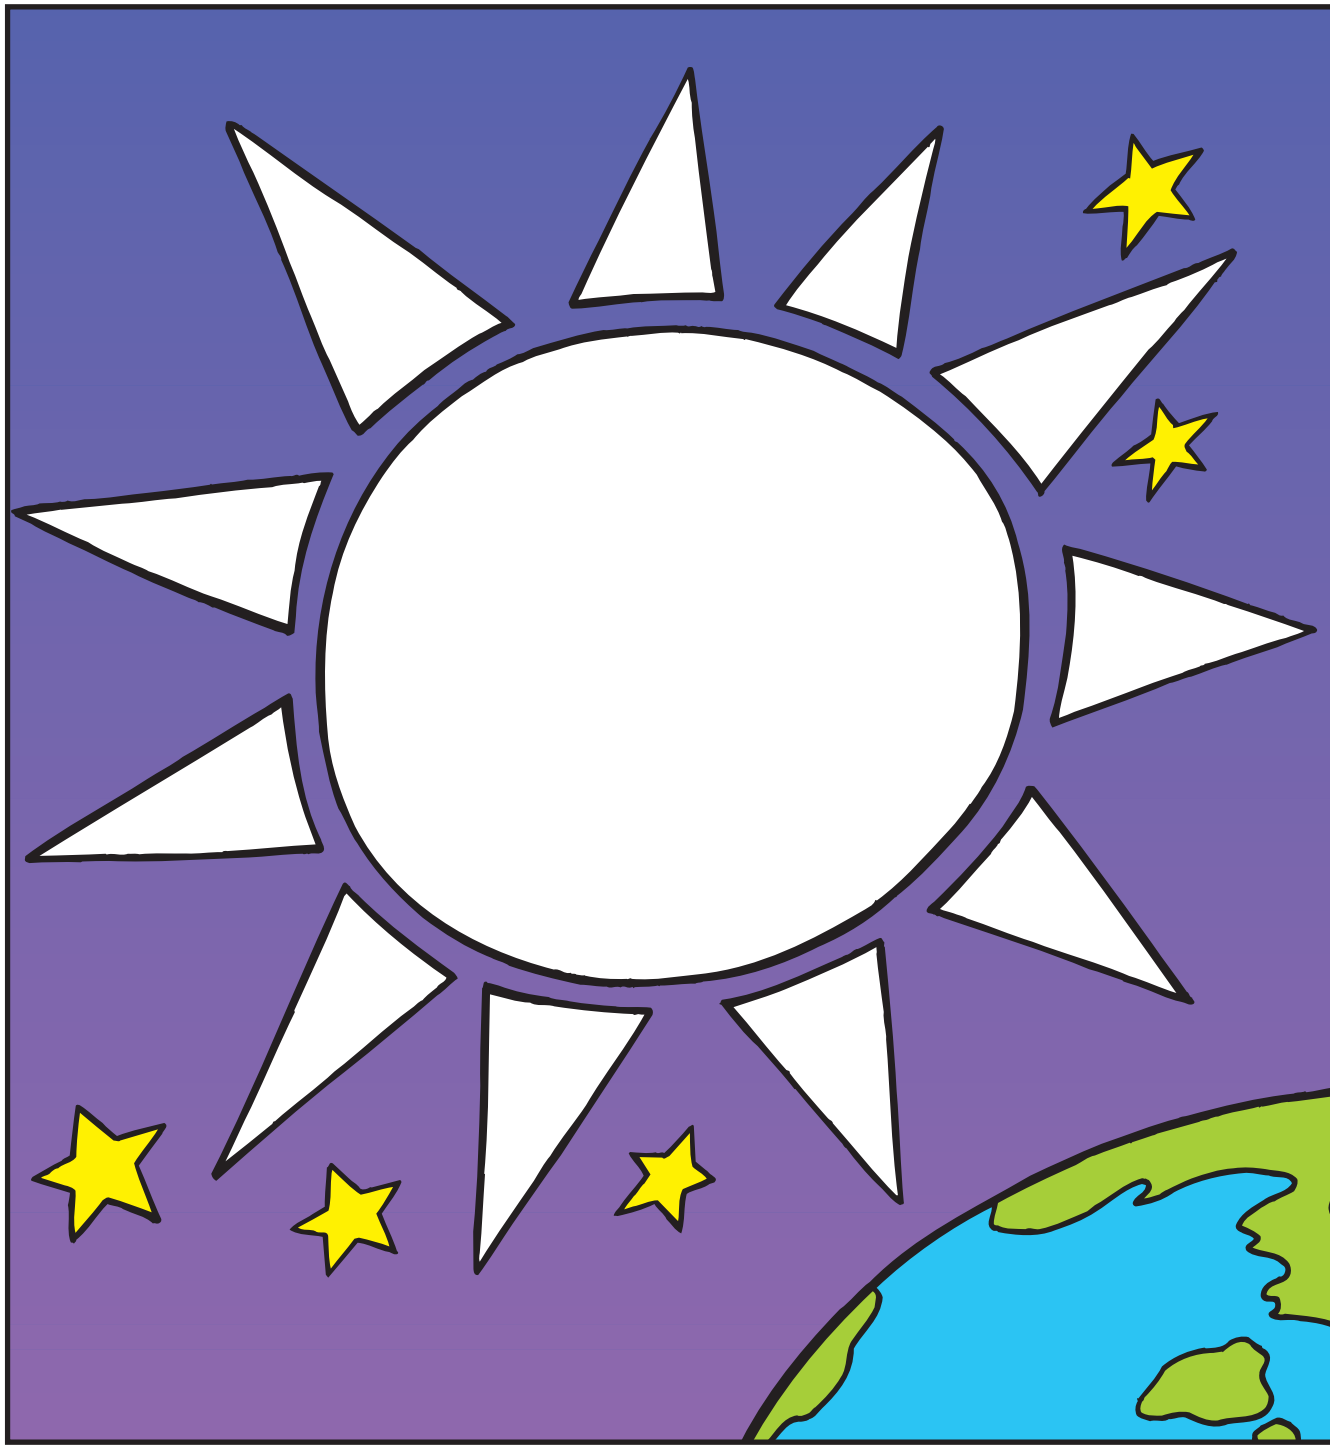

Circle the things that are blue.
Draw a blue  in the sky.

butterfly

How many circles did you draw? 5 6 7

Yellow

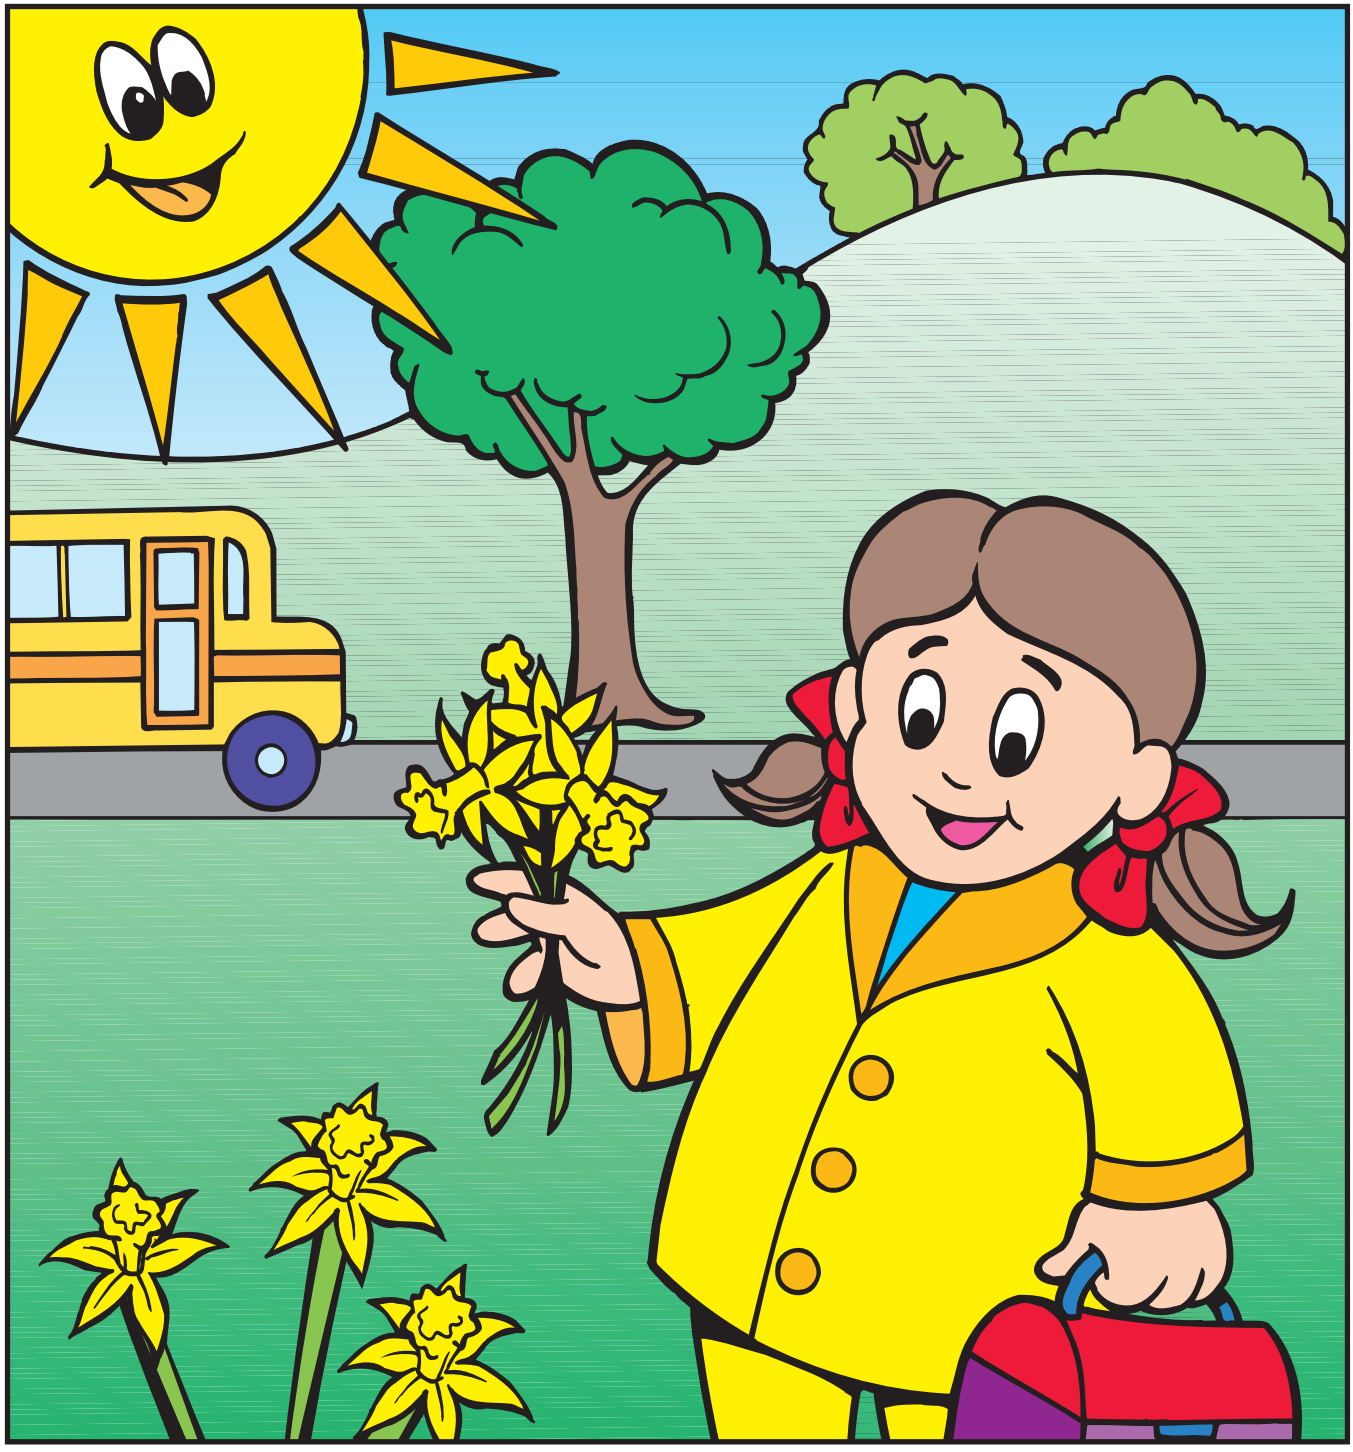

Draw a face on the  and color it yellow.

sun

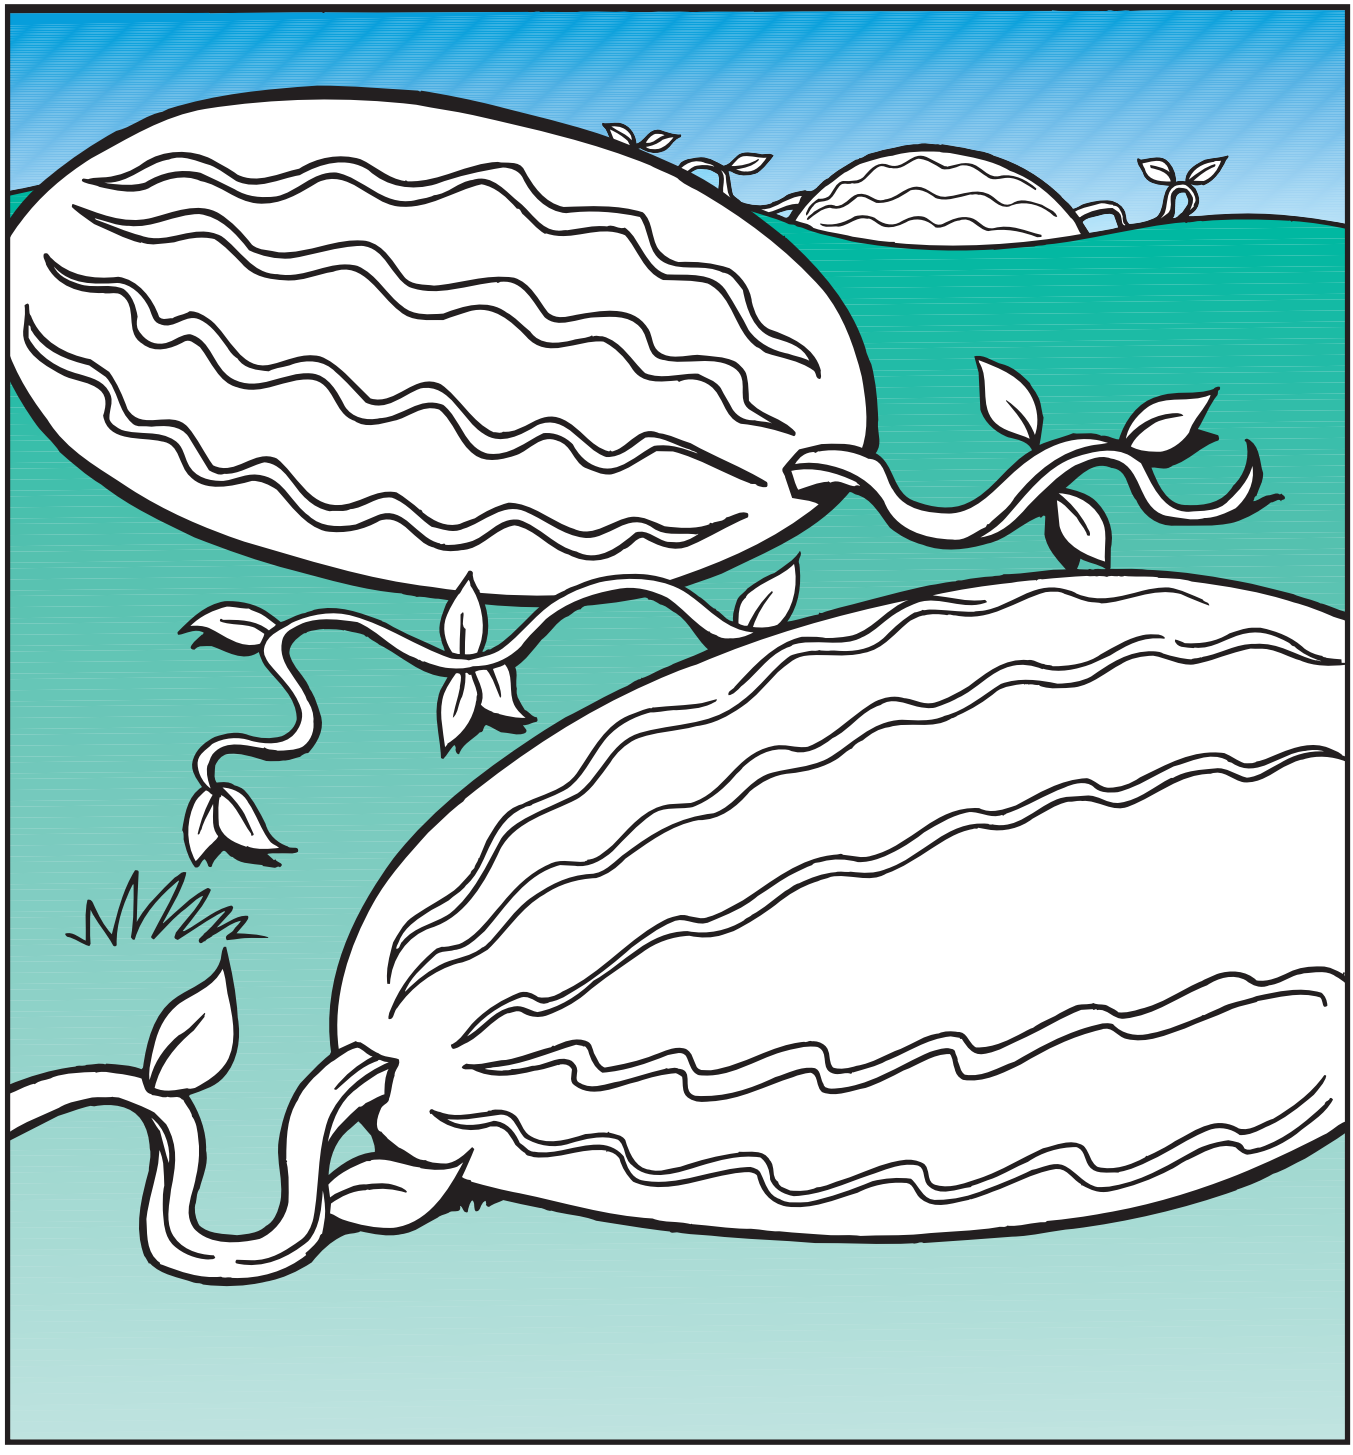

Circle the things that are yellow.
Draw a yellow  on the girl.

hat

How many circles did you draw? 7 8 9

Green

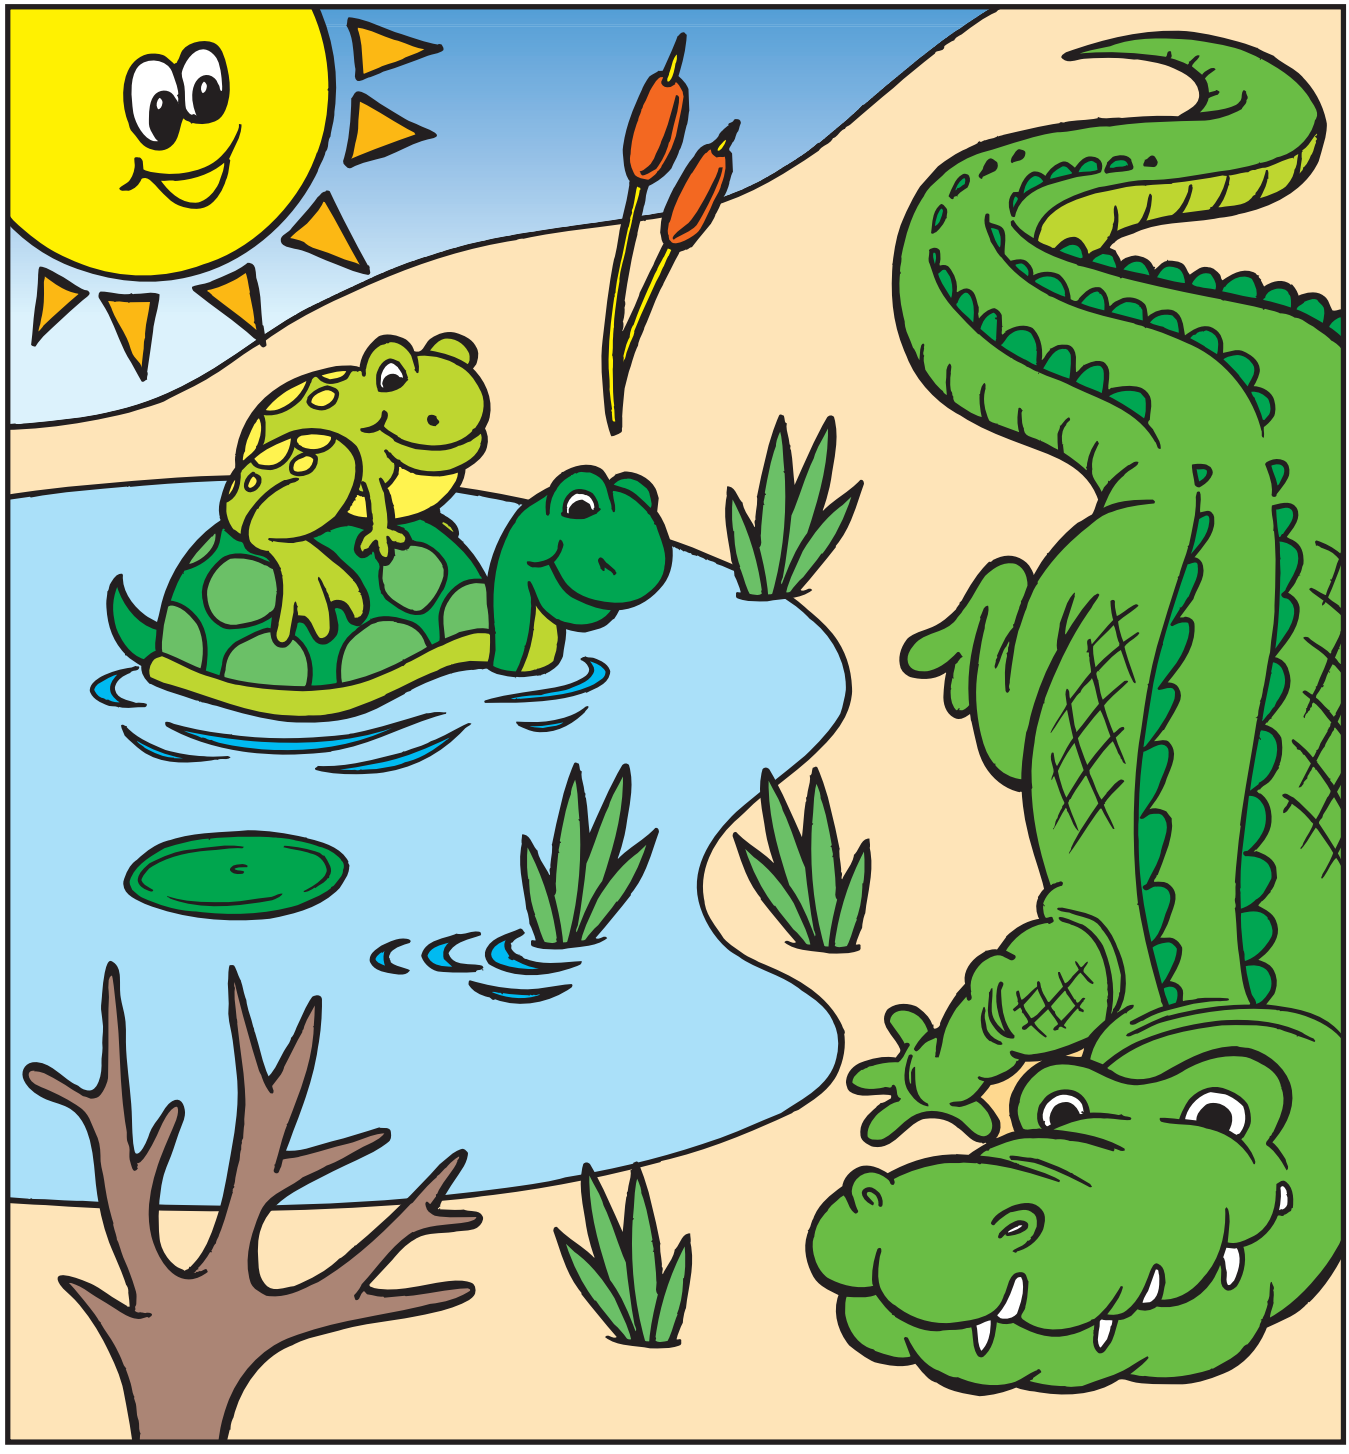

Color the  green.

watermelons

Circle the things that are green.
Draw green on the branches.

leaves

How many circles did you draw? 8 9 10

Orange

Color the  orange.

fish

Circle the things that are orange.
Draw more orange  in the bucket.

flowers

How many circles did you draw? 4 5 6

Purple

Color the  purple.

robe

Circle the things that are purple.
Draw a purple on the plate.

plum

How many circles did you draw? 8 9 10

Brown

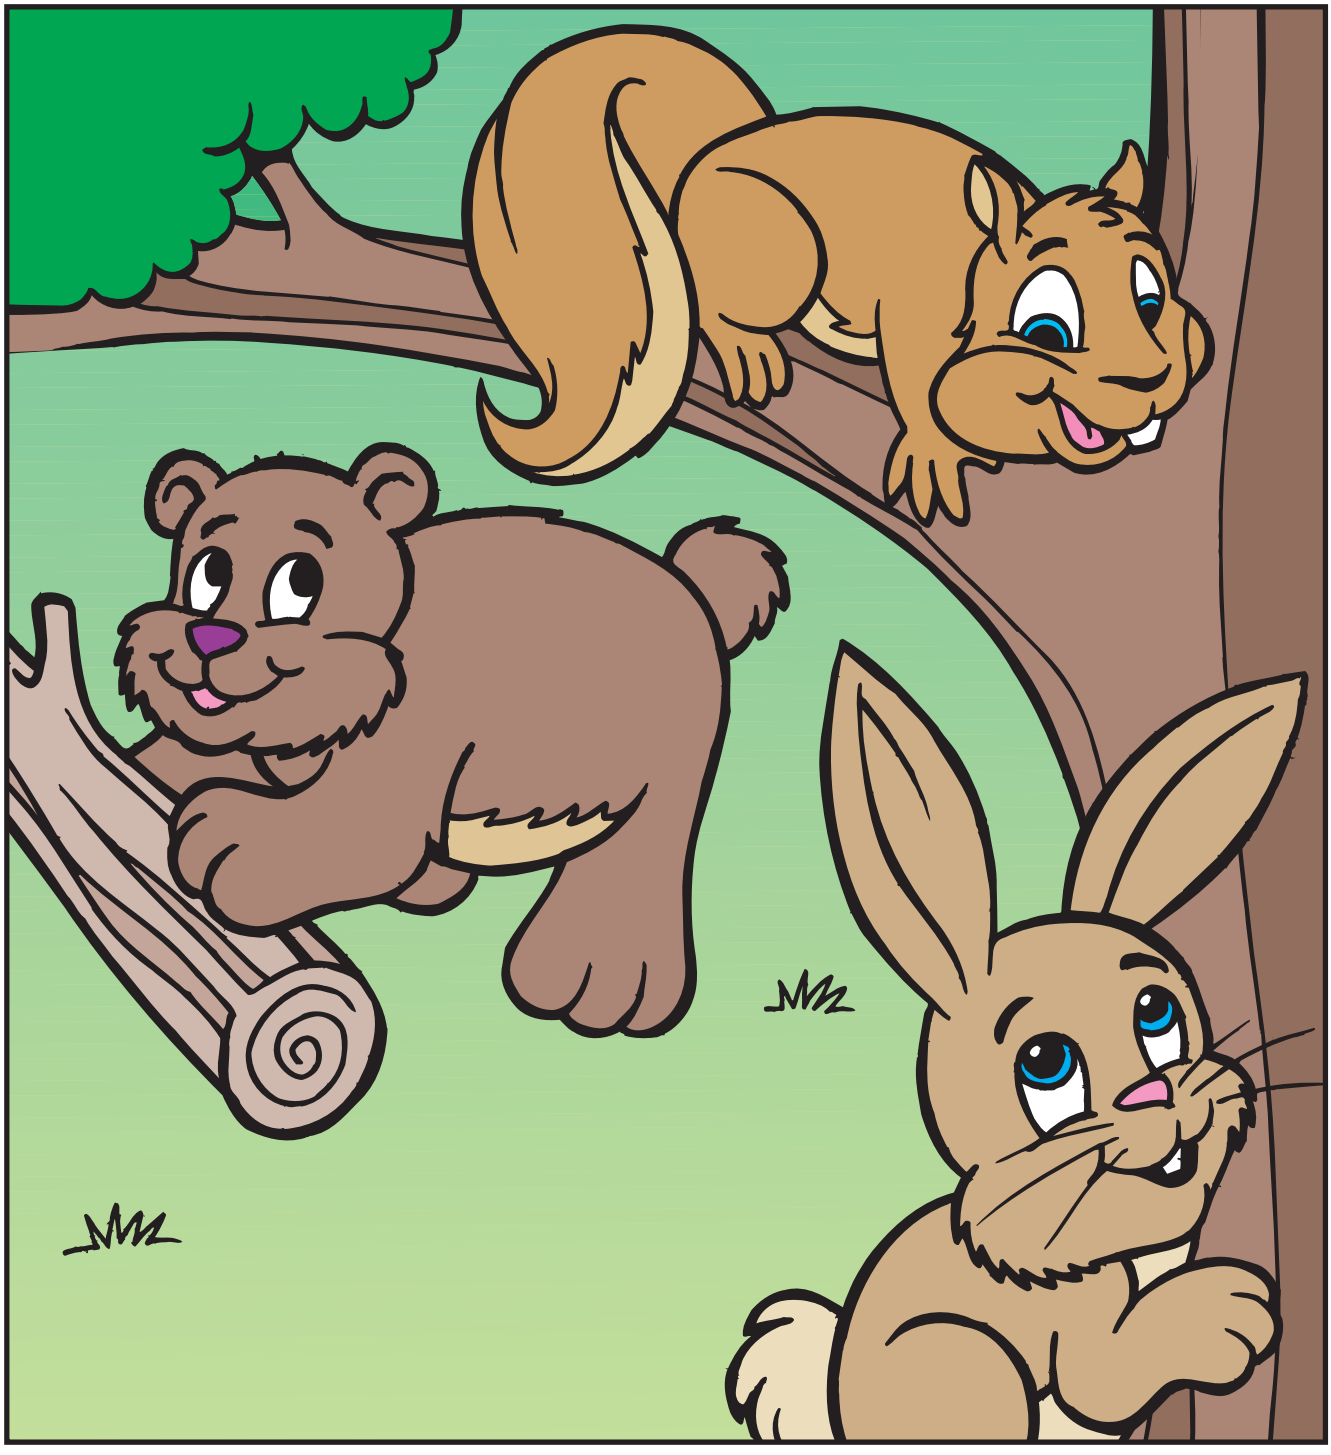

Color the  brown.

bear

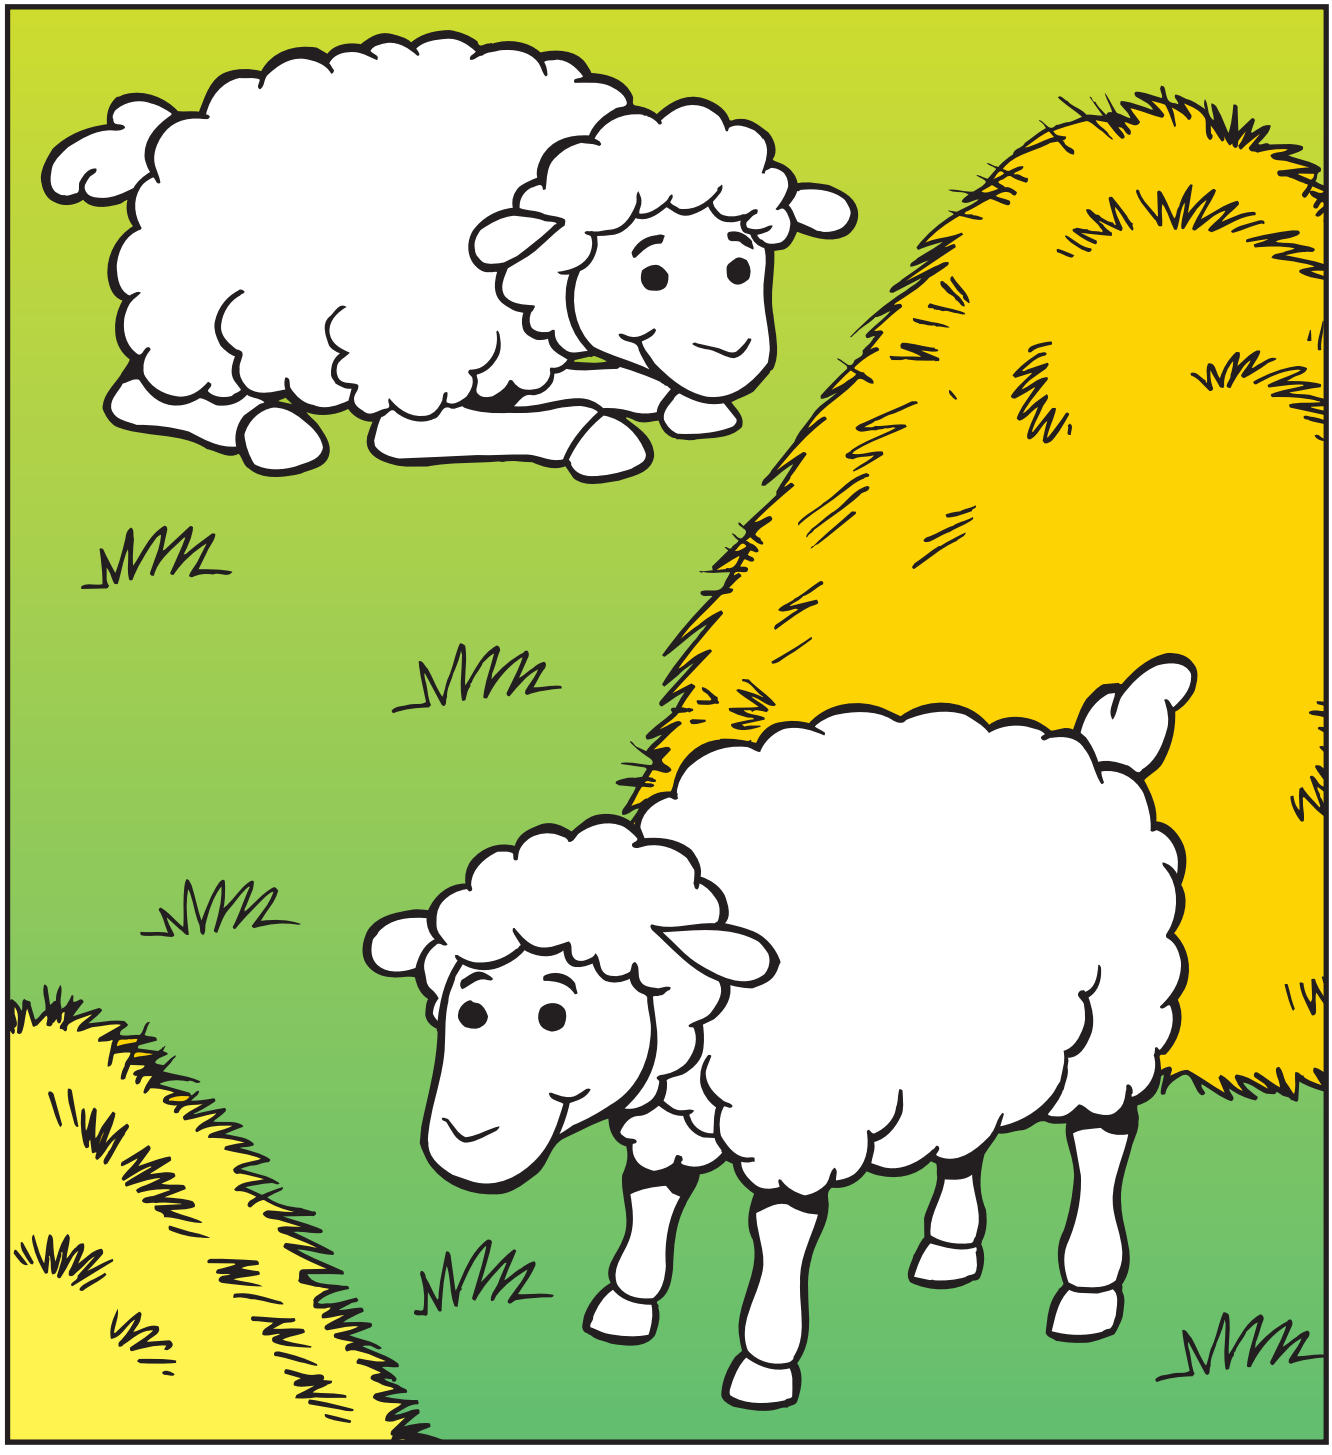

Circle the things that are brown.
Draw a brown  on the ground.

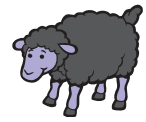

acorn

How many circles did you draw? 5 6 7

Black

Color the  black.

sheep

Circle the things that are black.
Draw a black  in the circus ring.

horse

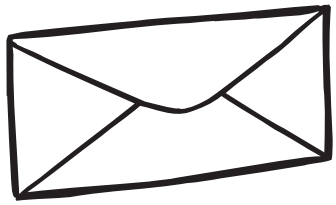

How many circles did you draw? 4 5 6

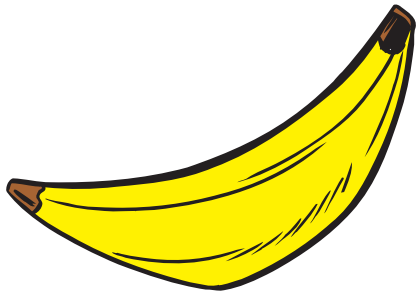

White

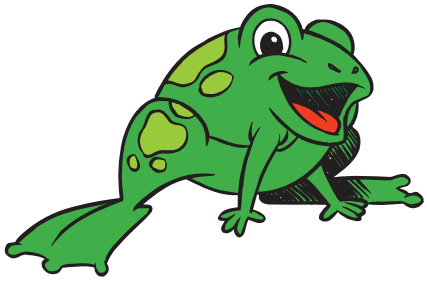

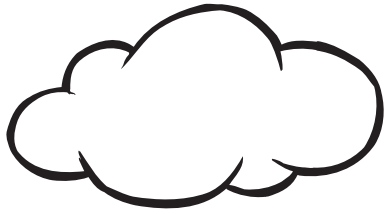

Color everything in the picture that is NOT white.

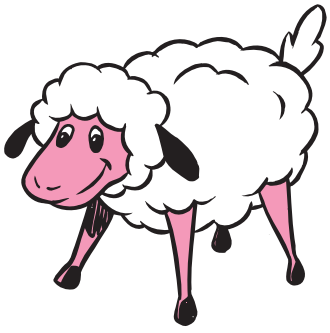

Circle the things that are white.

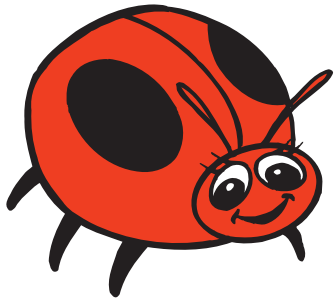

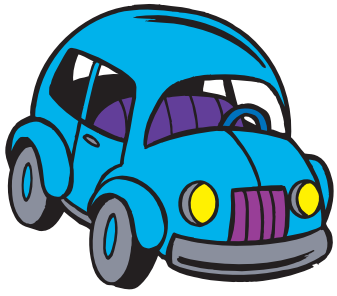

How many circles did you draw? 3 4 5

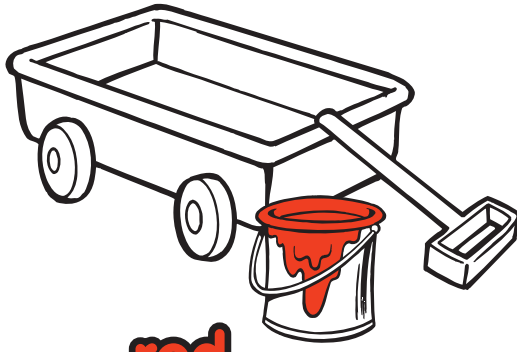

Color the picture the same as the paint beside each item

blue

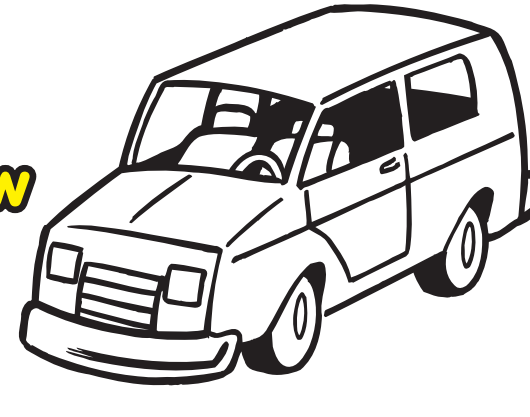

purple

red

yellow

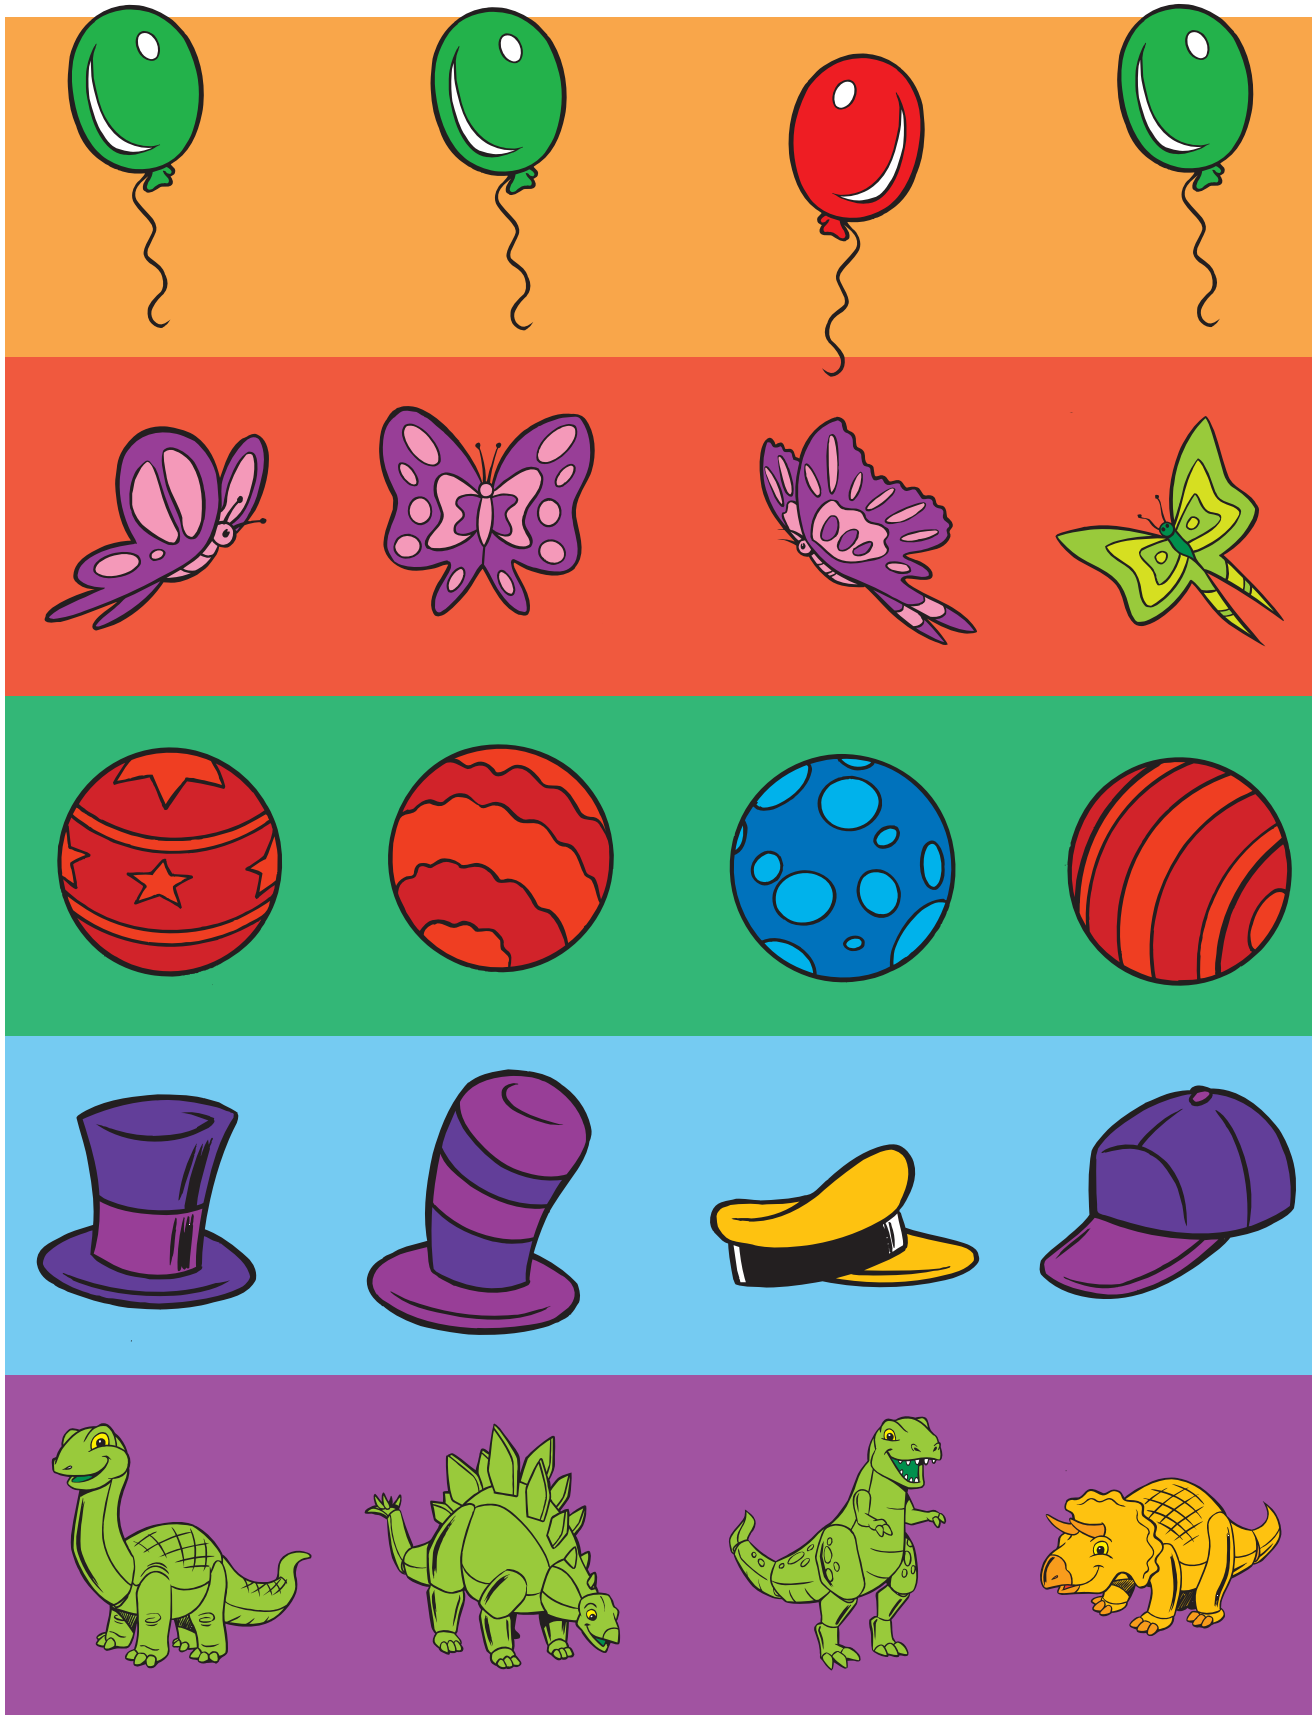

orange

green

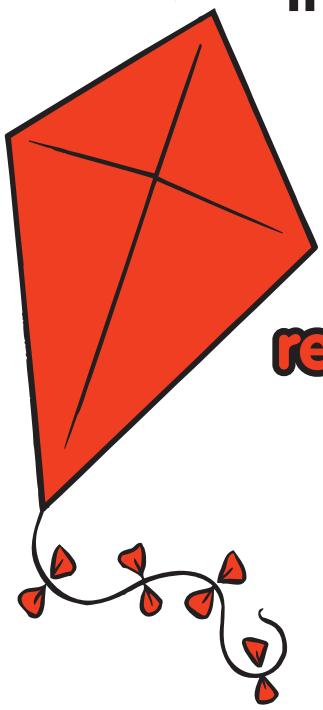

Circle the item in each row that is a different color.

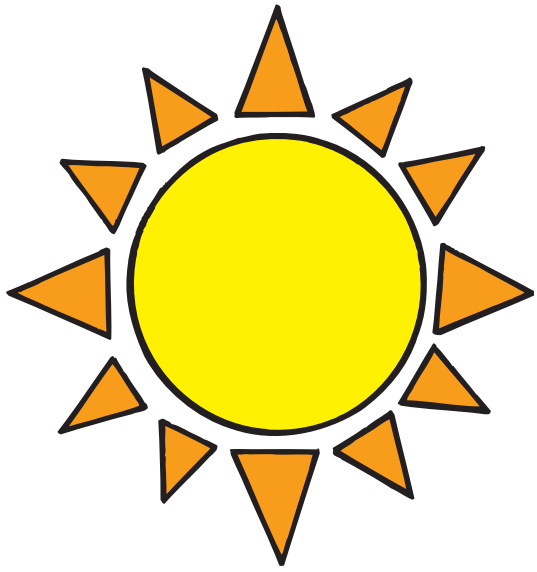

Follow the red string to help the kitten find the ball of yarn.

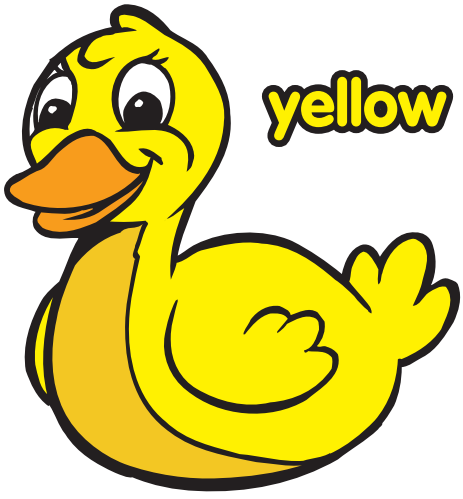

Draw a line to match the things that are the same color.

red

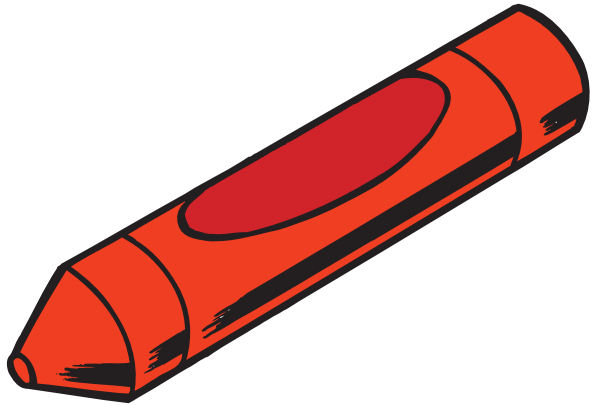

yellow

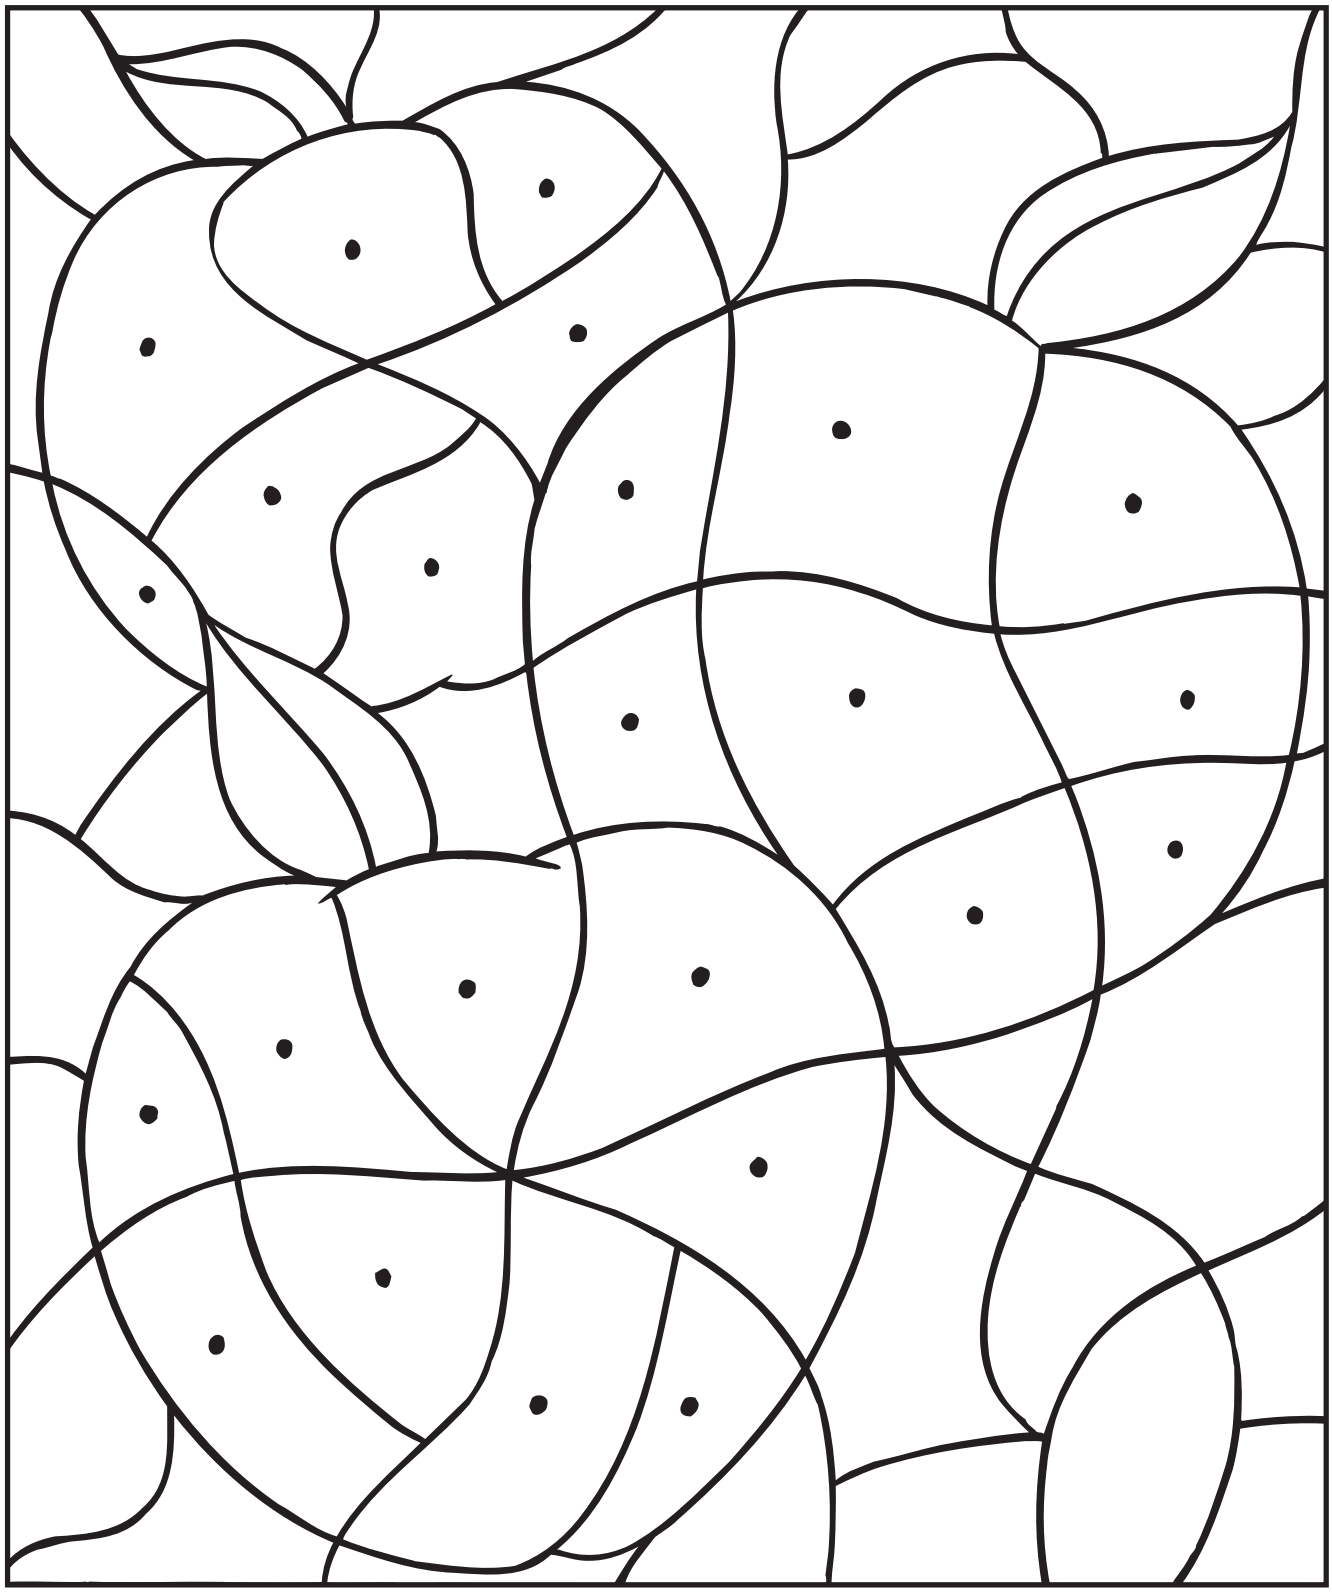

green

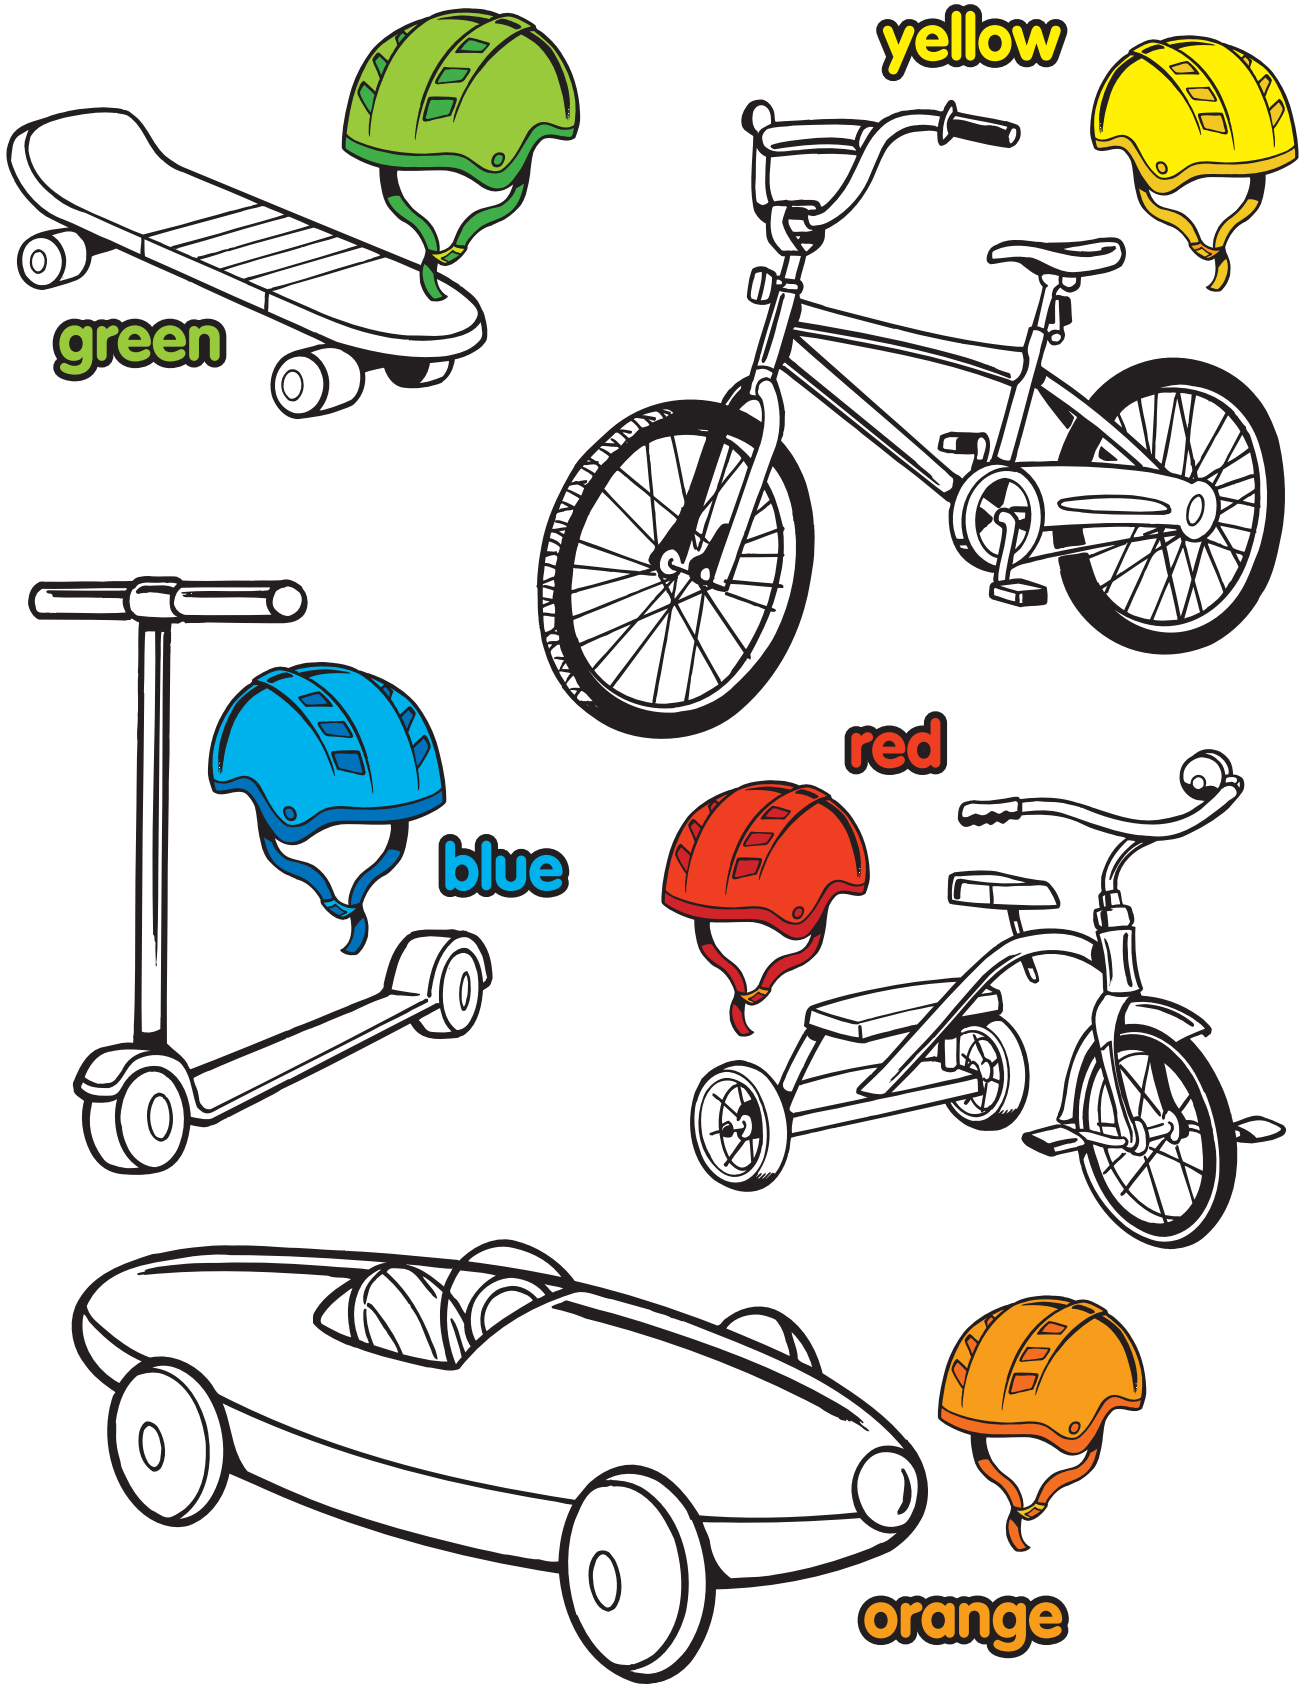

Color all the dotted areas red.

What do you see? _____

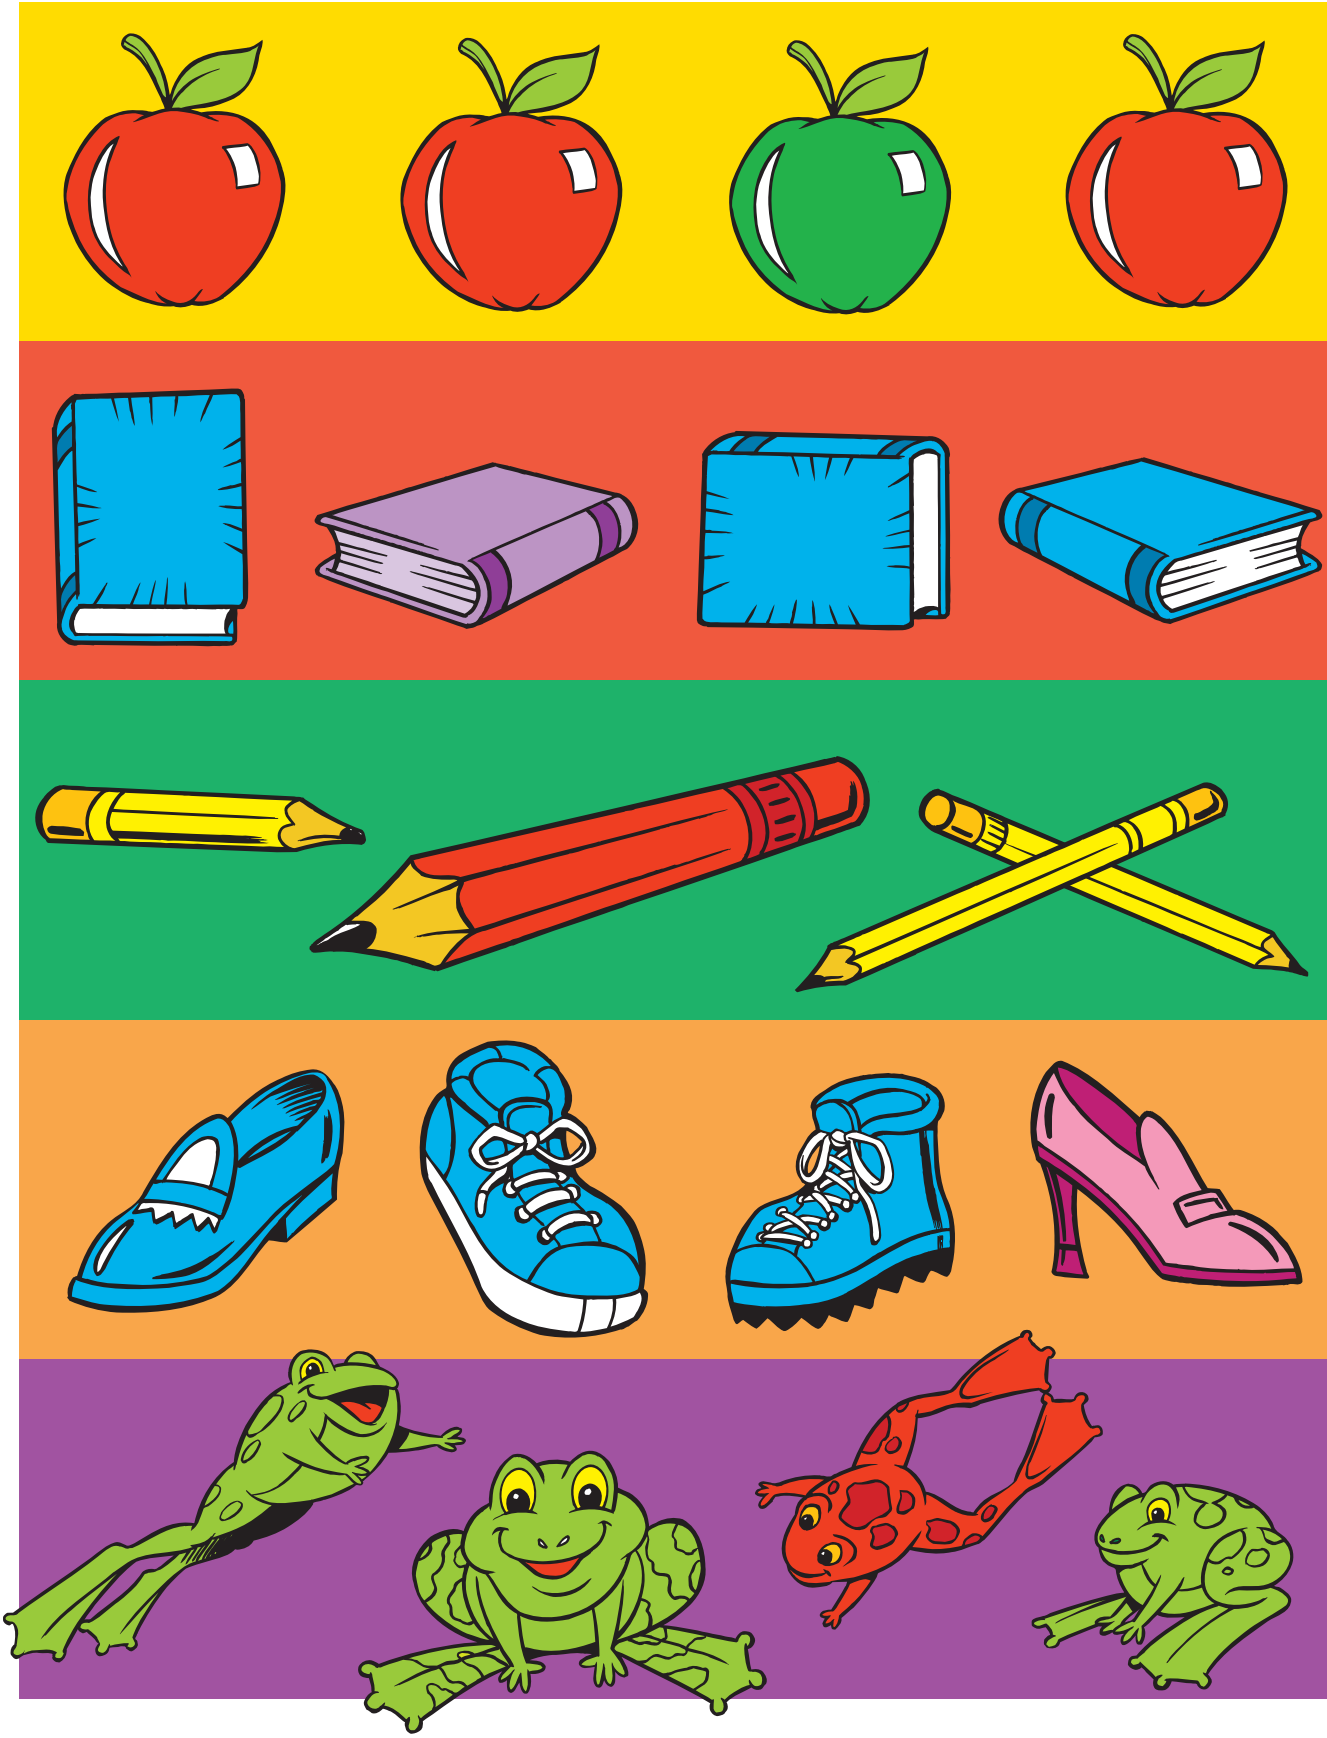

Make each picture the same color as its helmet.

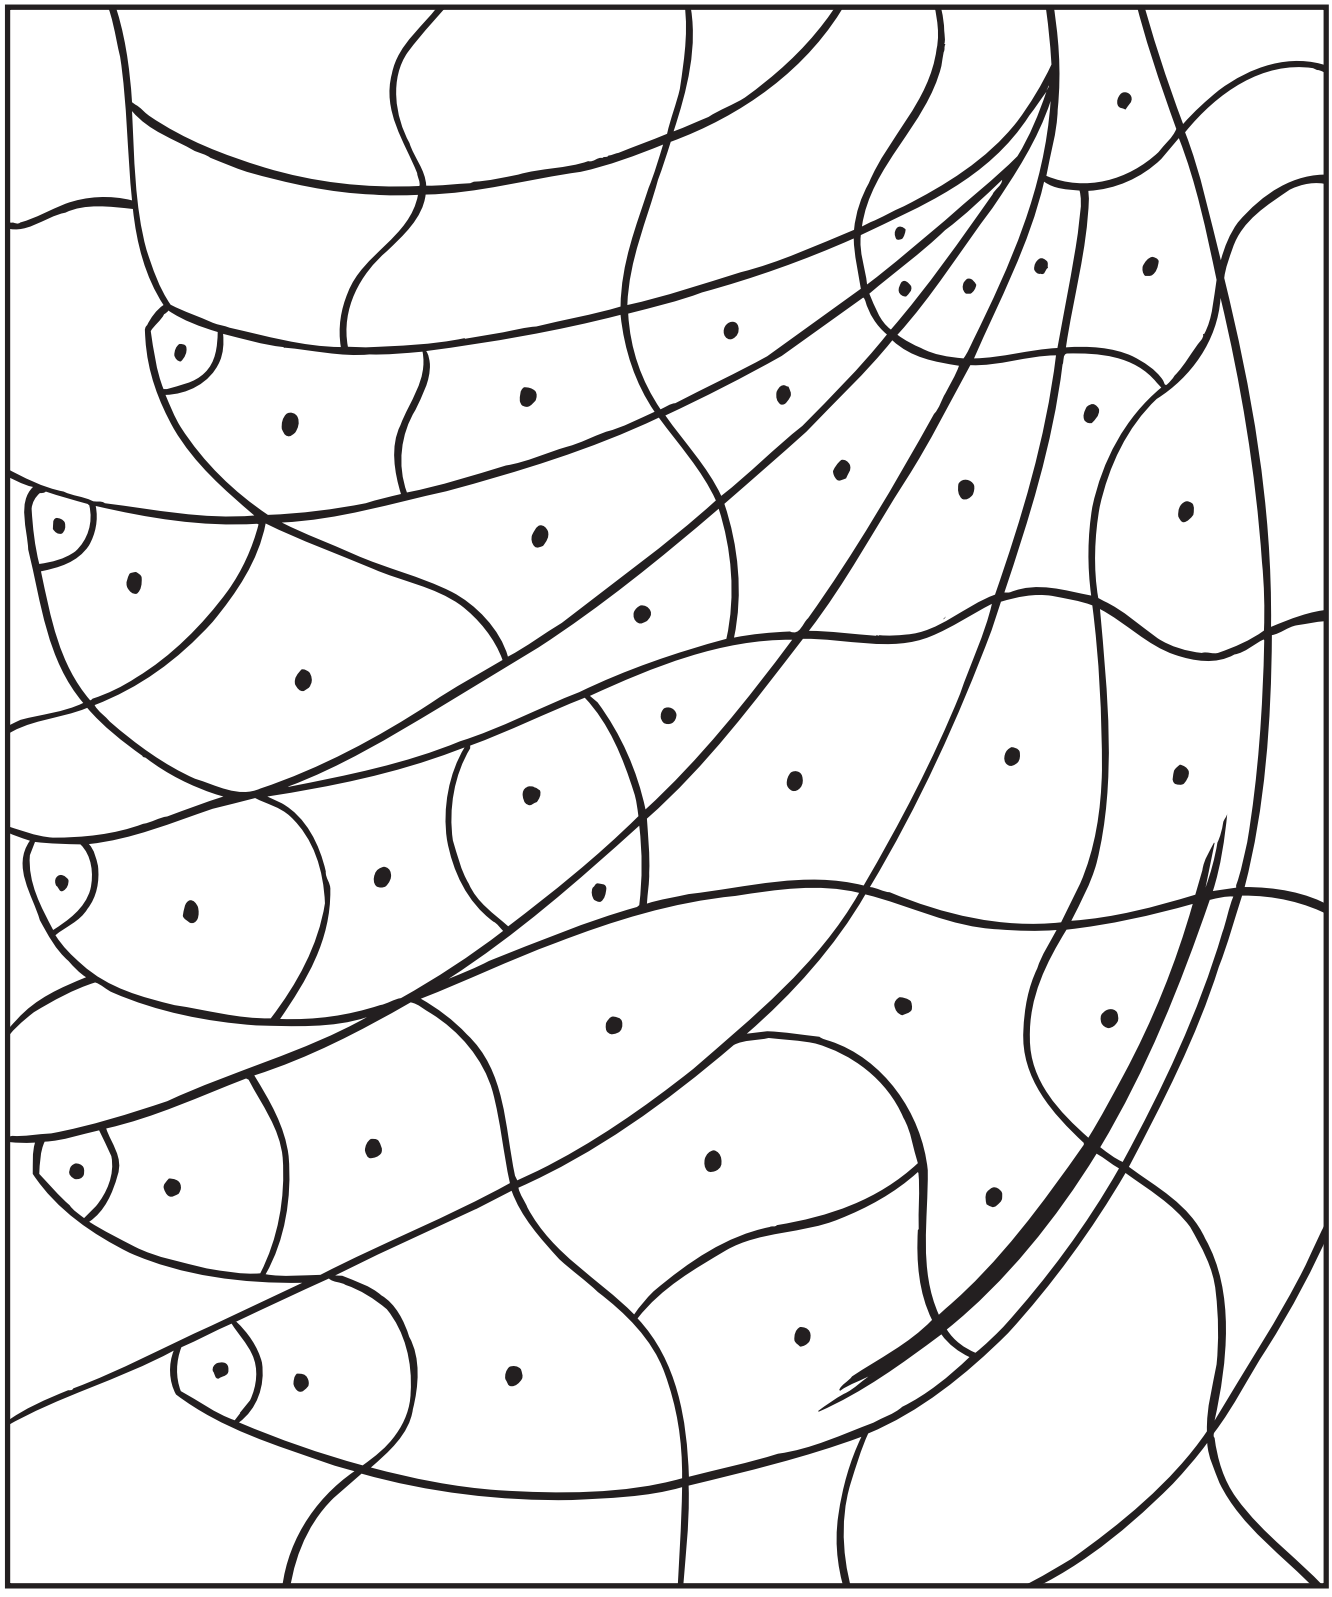

Follow the yellow road to get the bus to the school.

Circle the item in each row that is a different color.

Color all the dotted areas yellow.

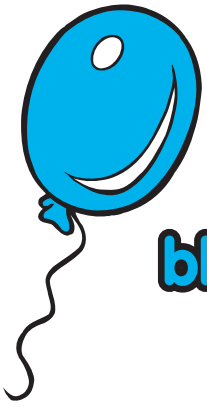

What do you see? _____

Draw a line to match the things that are the same color.

brown

blue

black

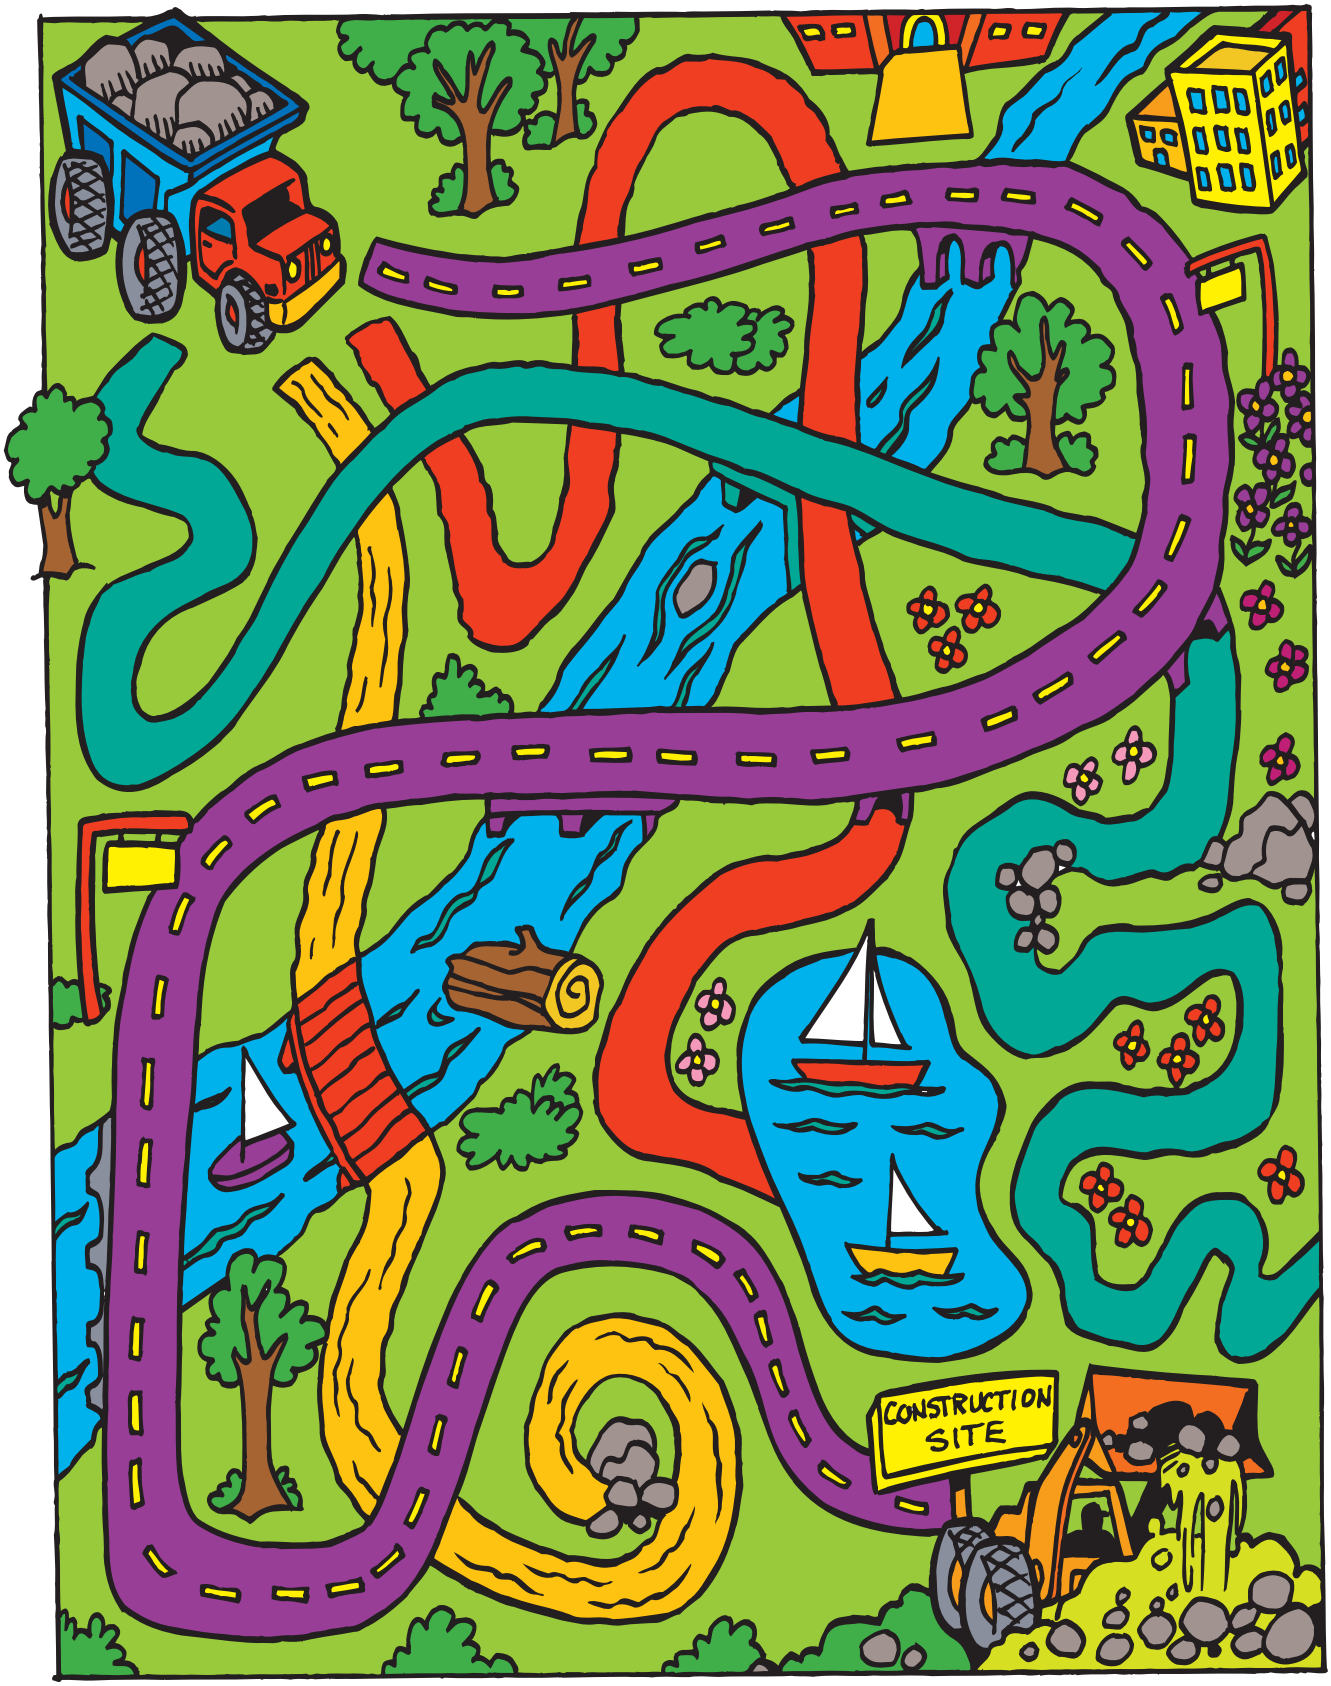

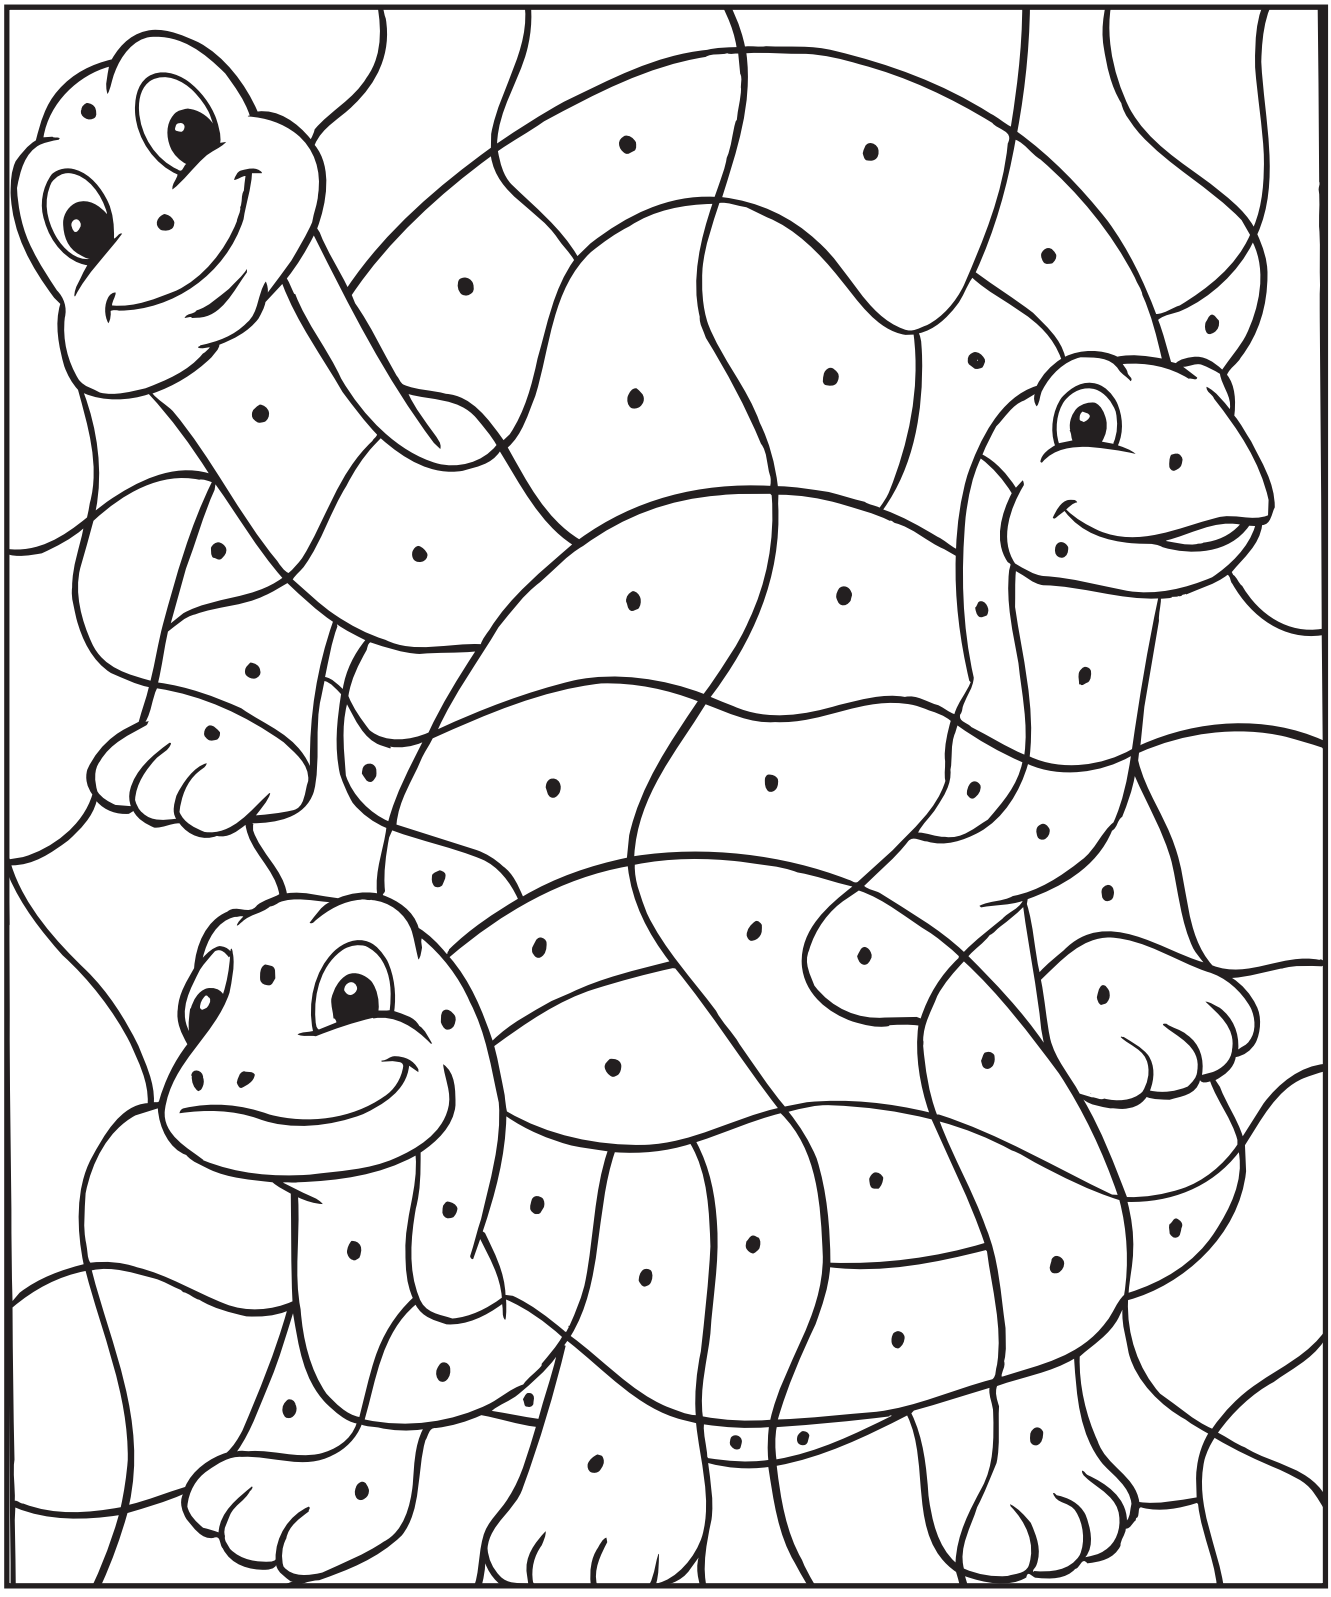

orange

Follow the purple highway to get the truck to the construction site.

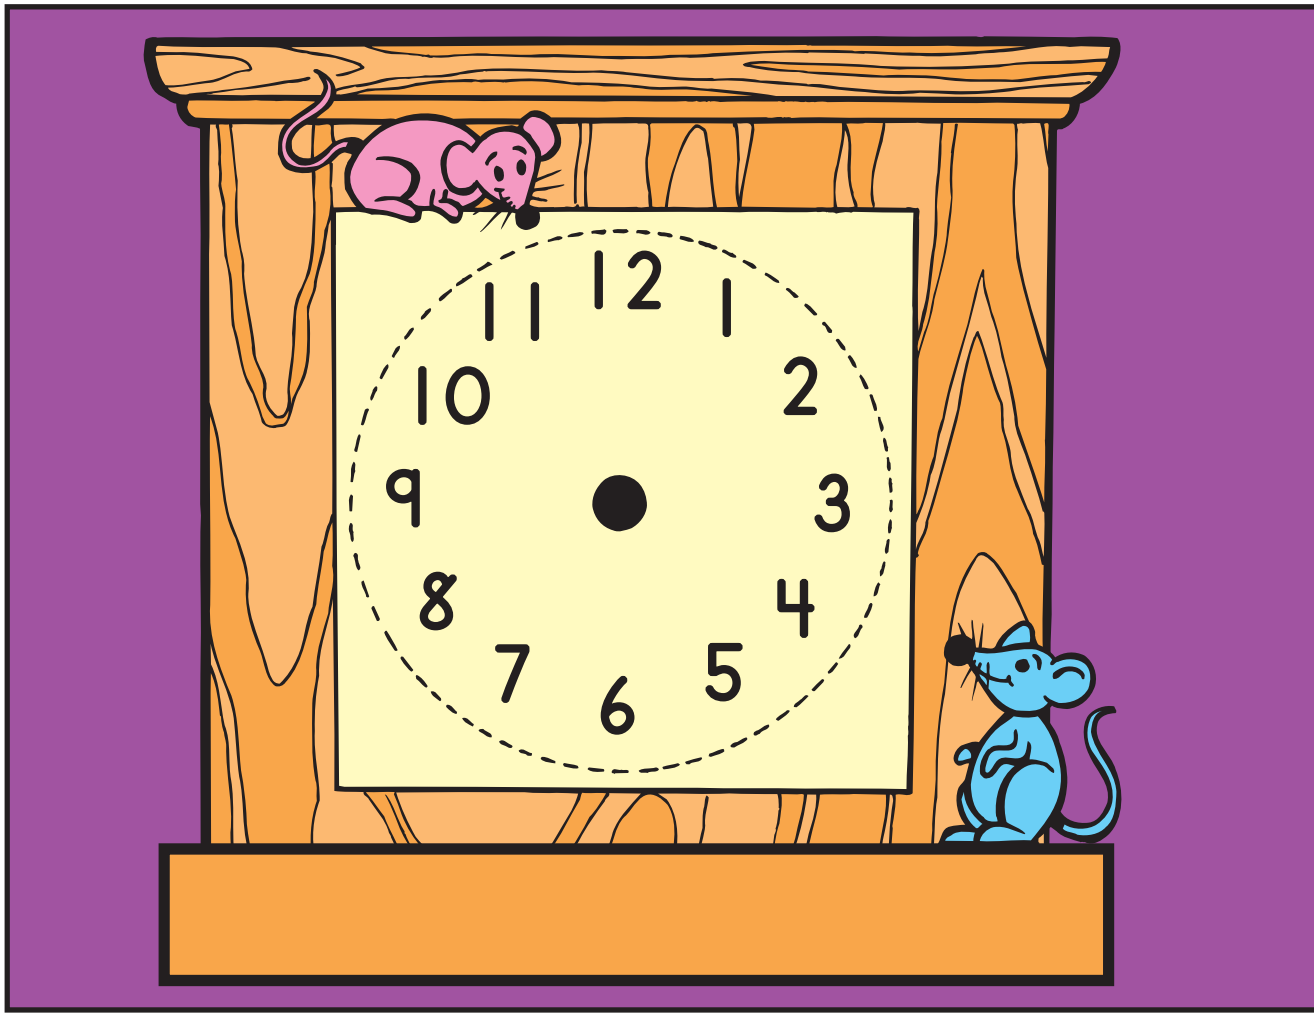

Color all the dotted areas green.

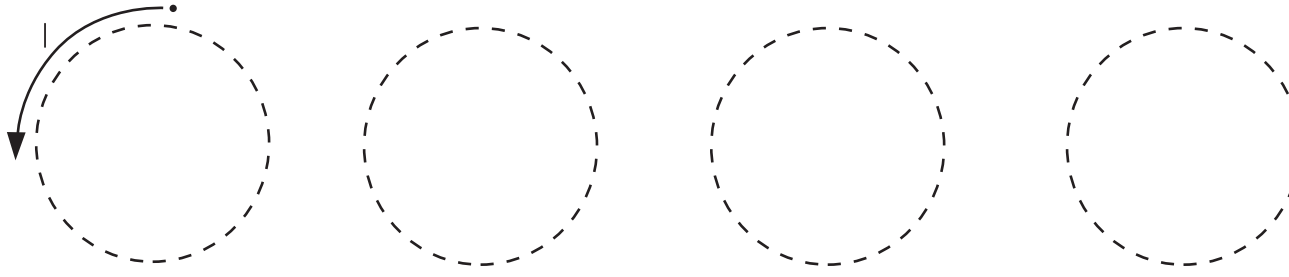

What do you see? _____

Circle

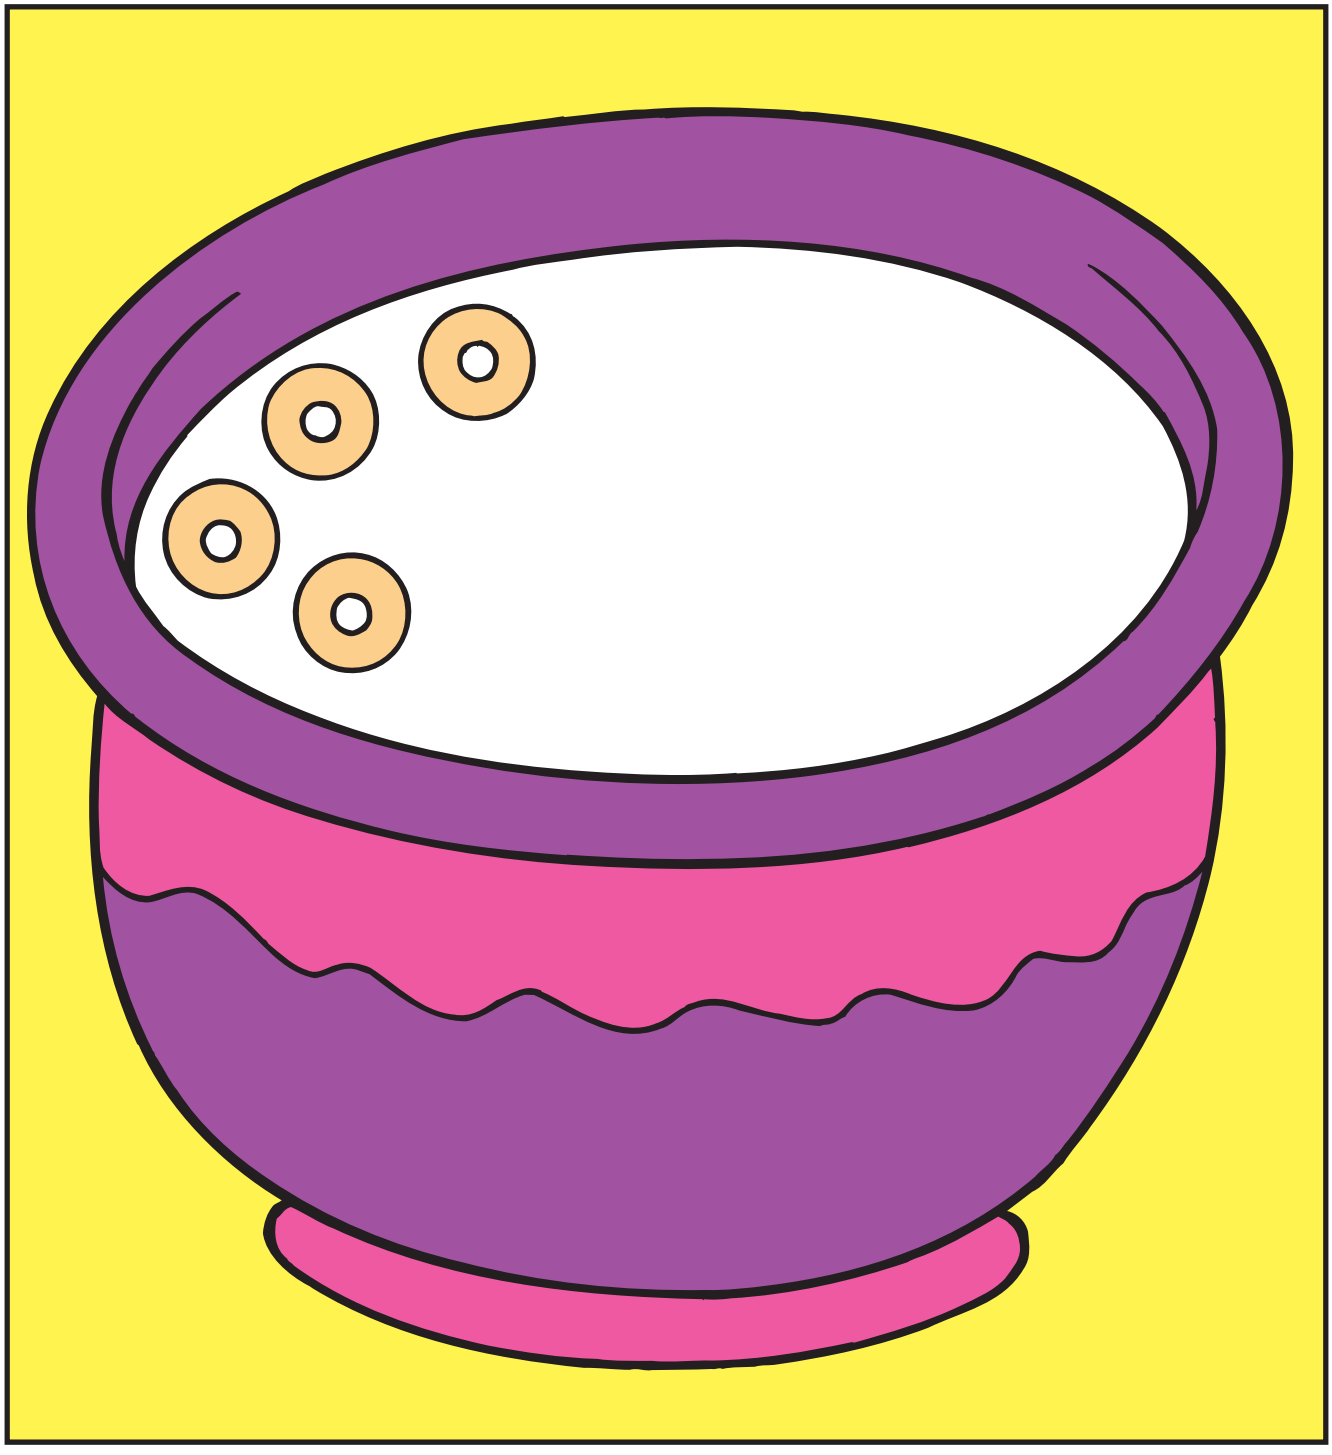

Trace the circle to make a clock.
Draw hands on the clock.

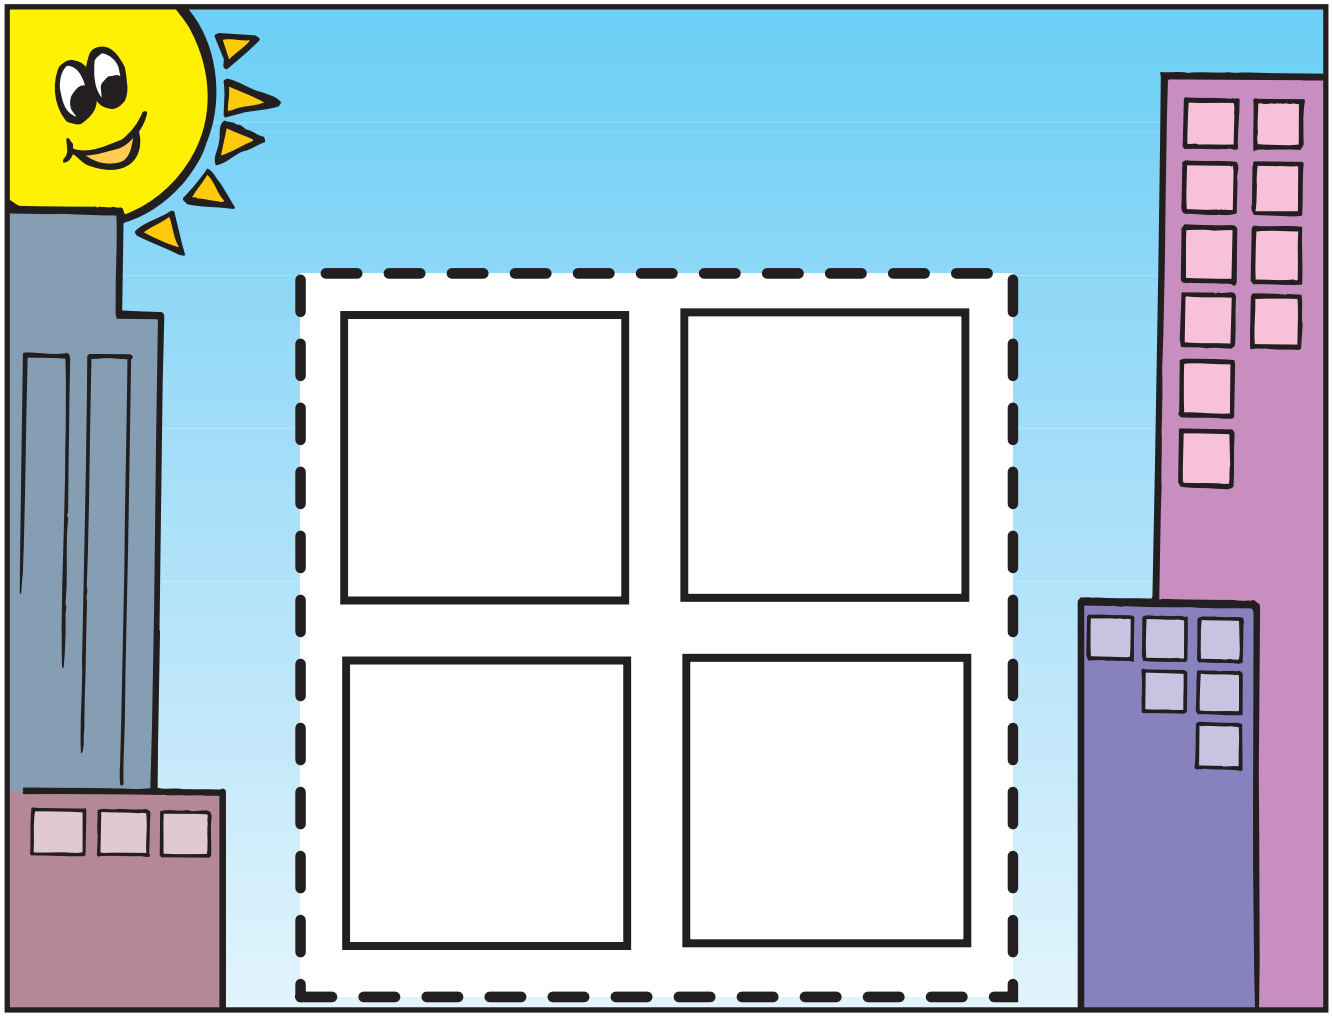

Trace the circles.

Draw circles to add cereal in the bowl. Color the circles brown.

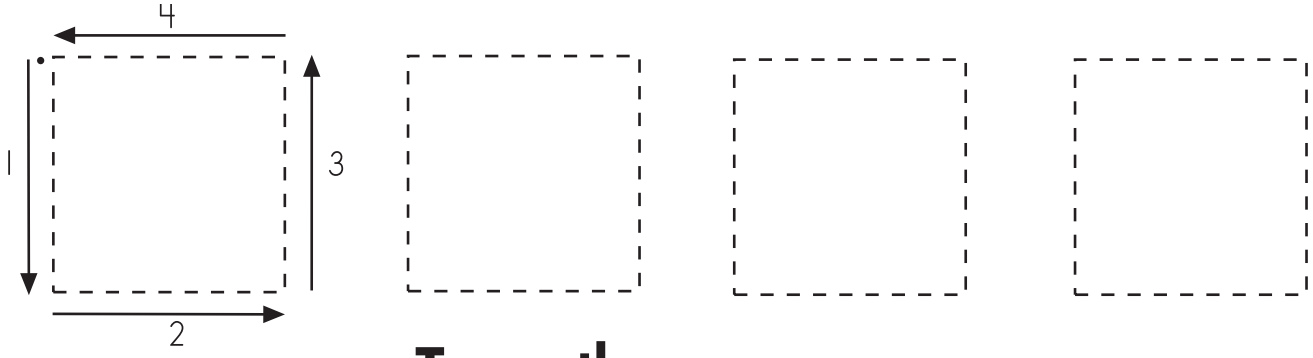

How many circles did you draw? _____

Square

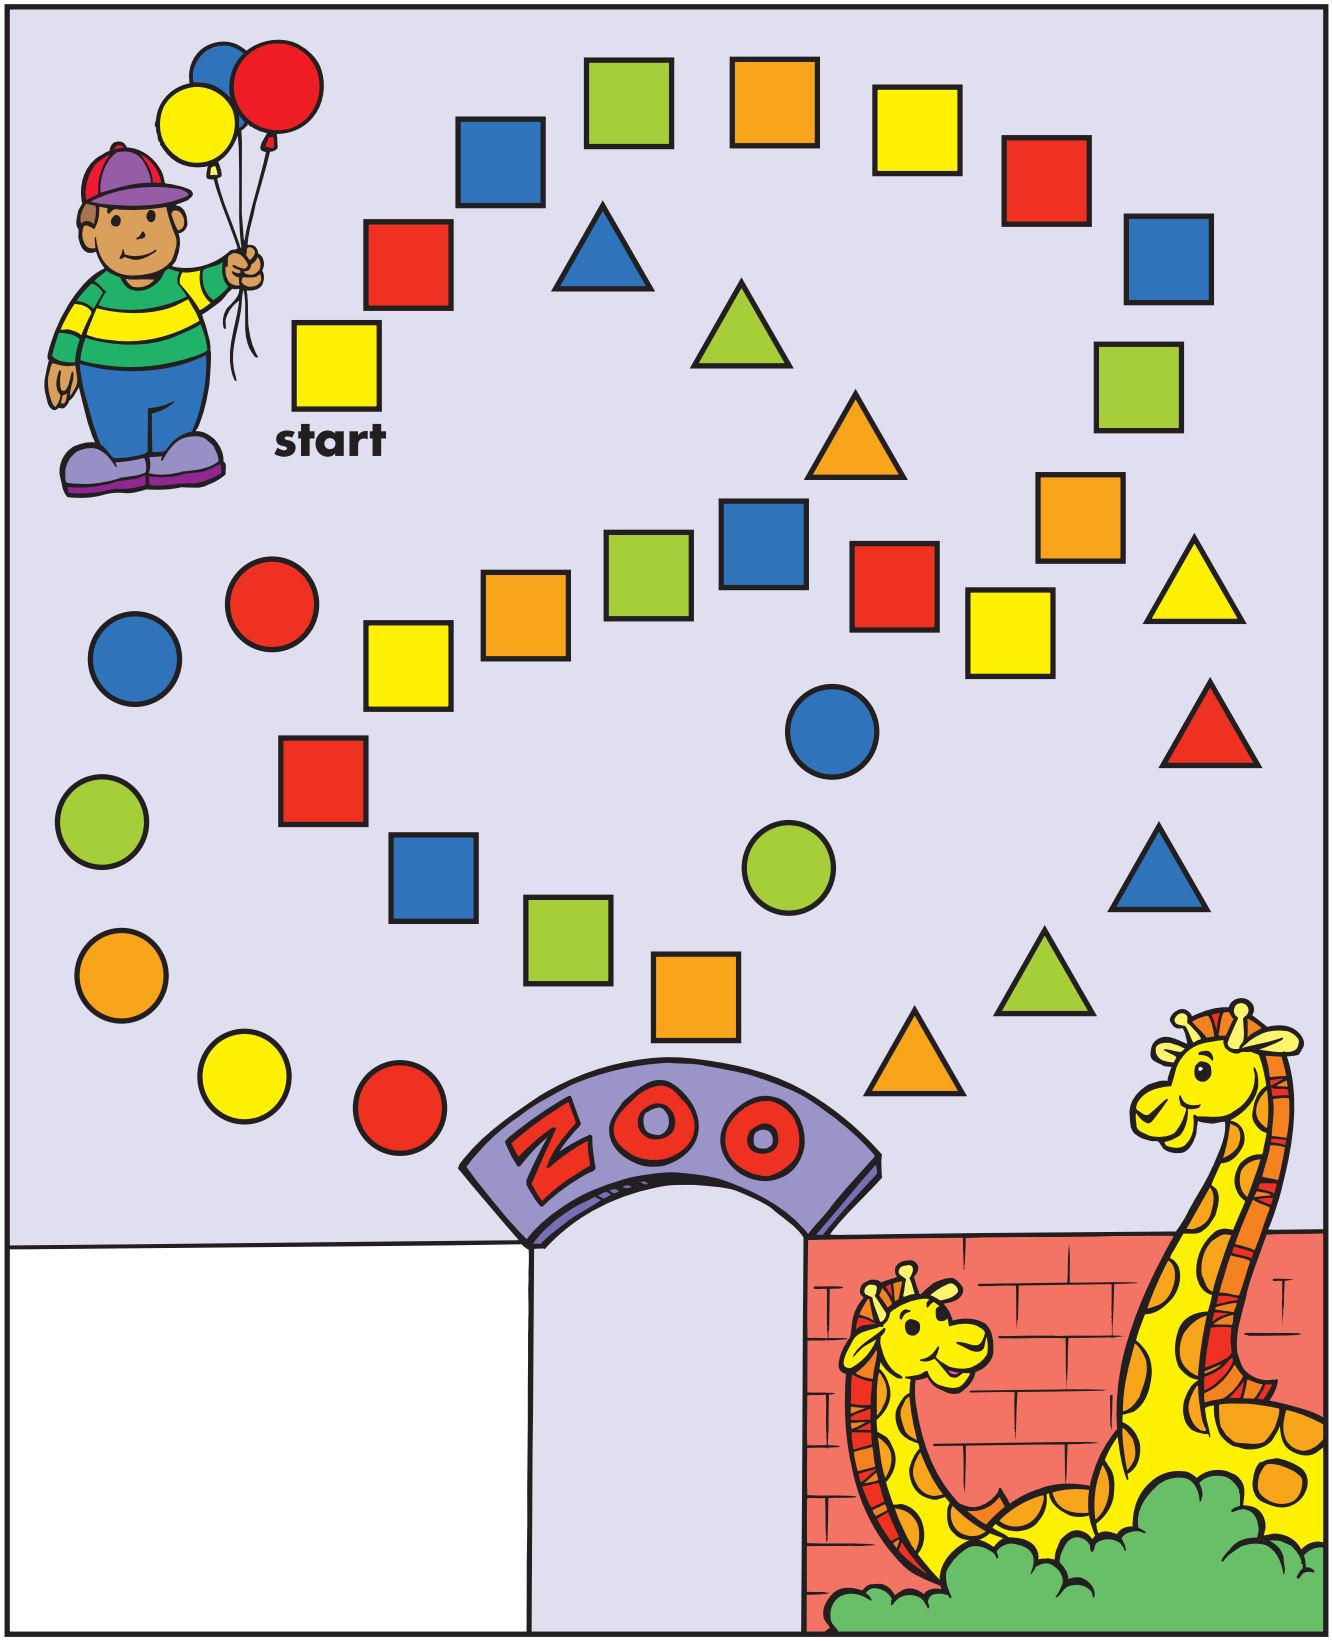

Trace the square to finish the building.
Color the building yellow.

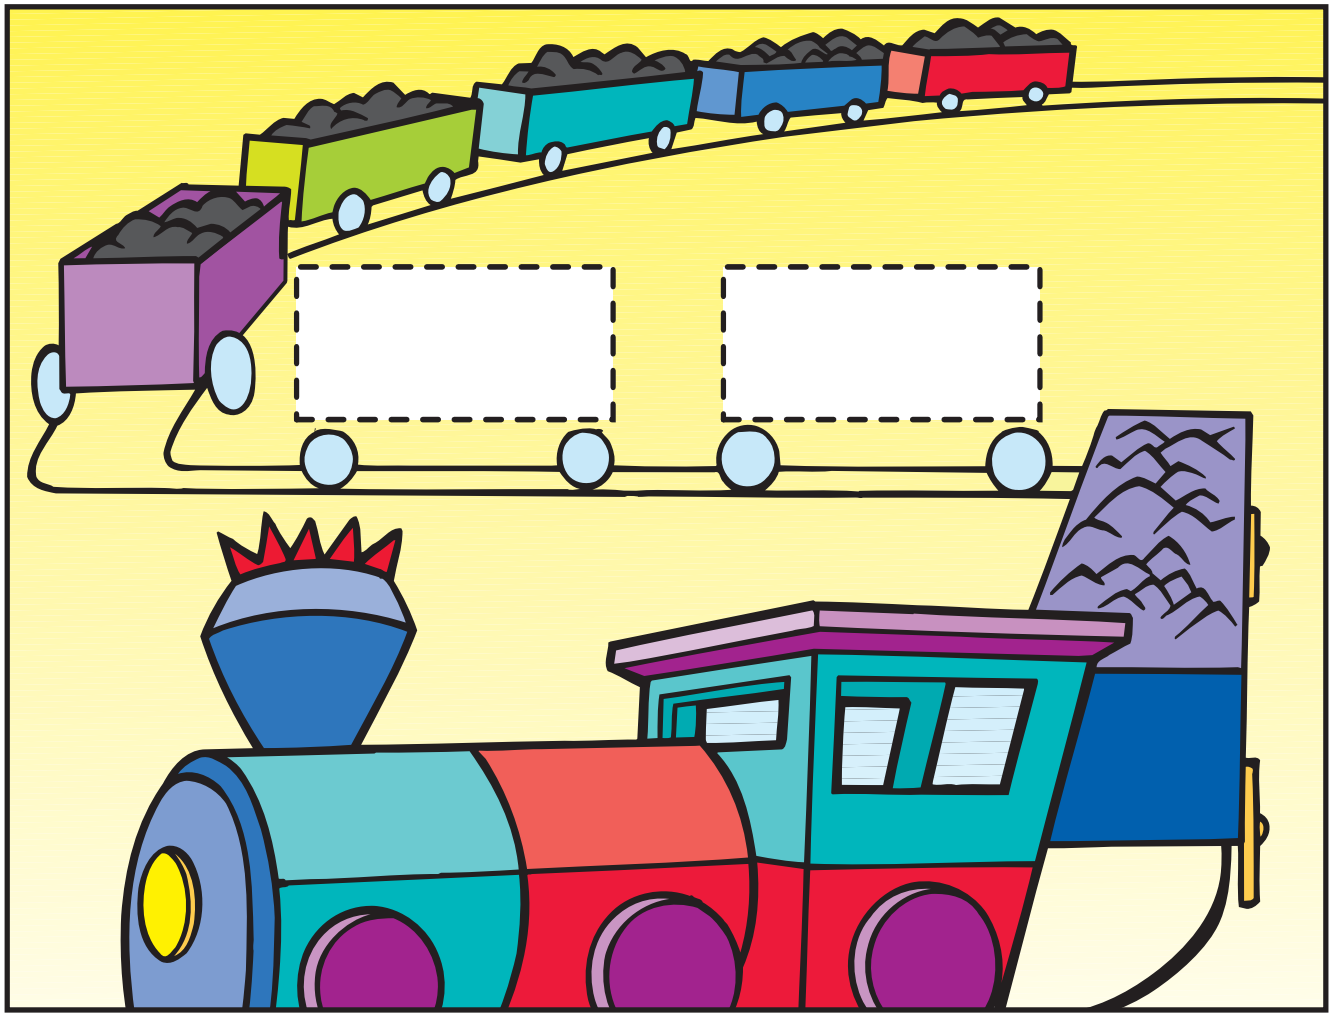

Trace the squares.

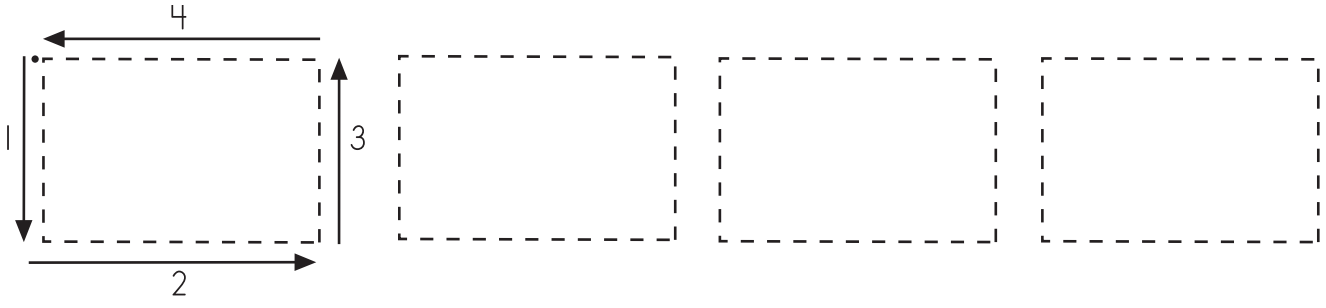

Follow the path of squares to get the child to the zoo. Draw a zoo animal.

Rectangle

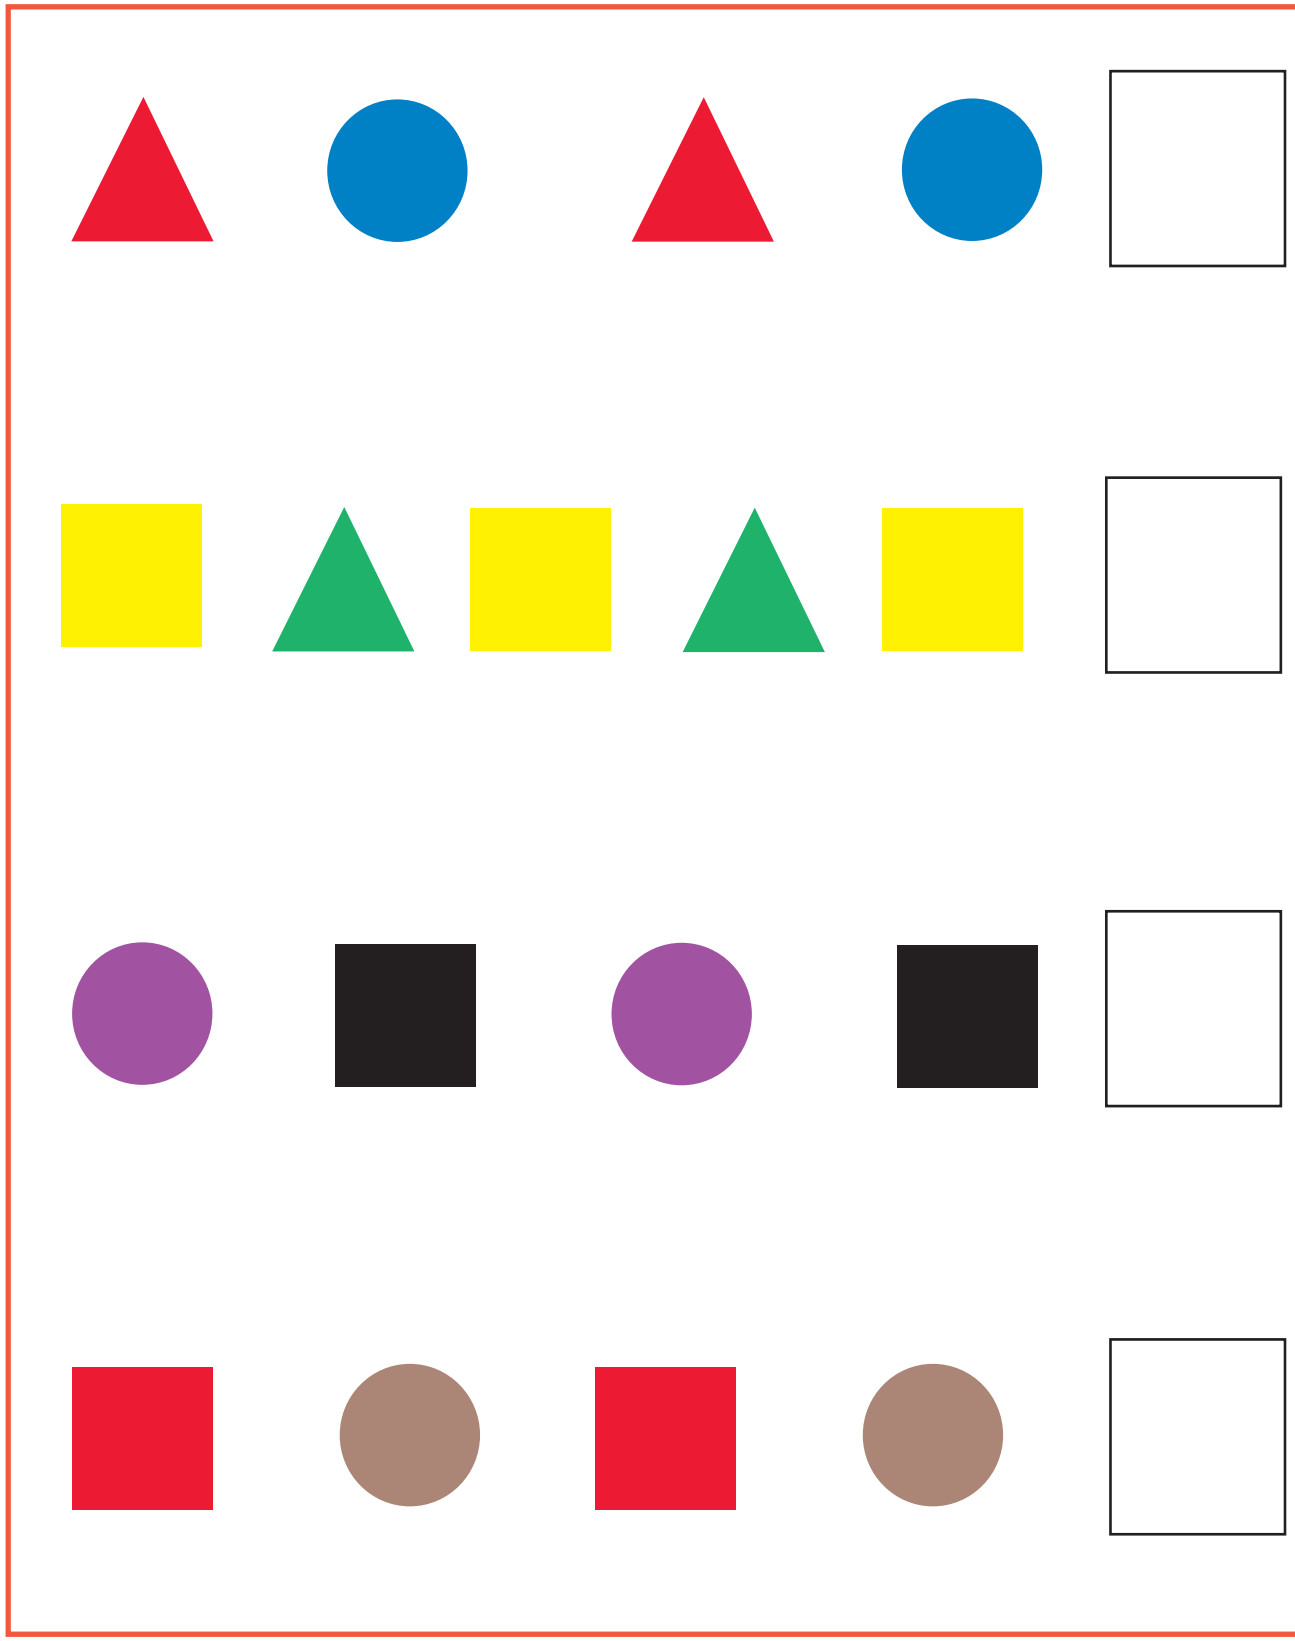

Trace the rectangles to make train cars.
Color the cars black.

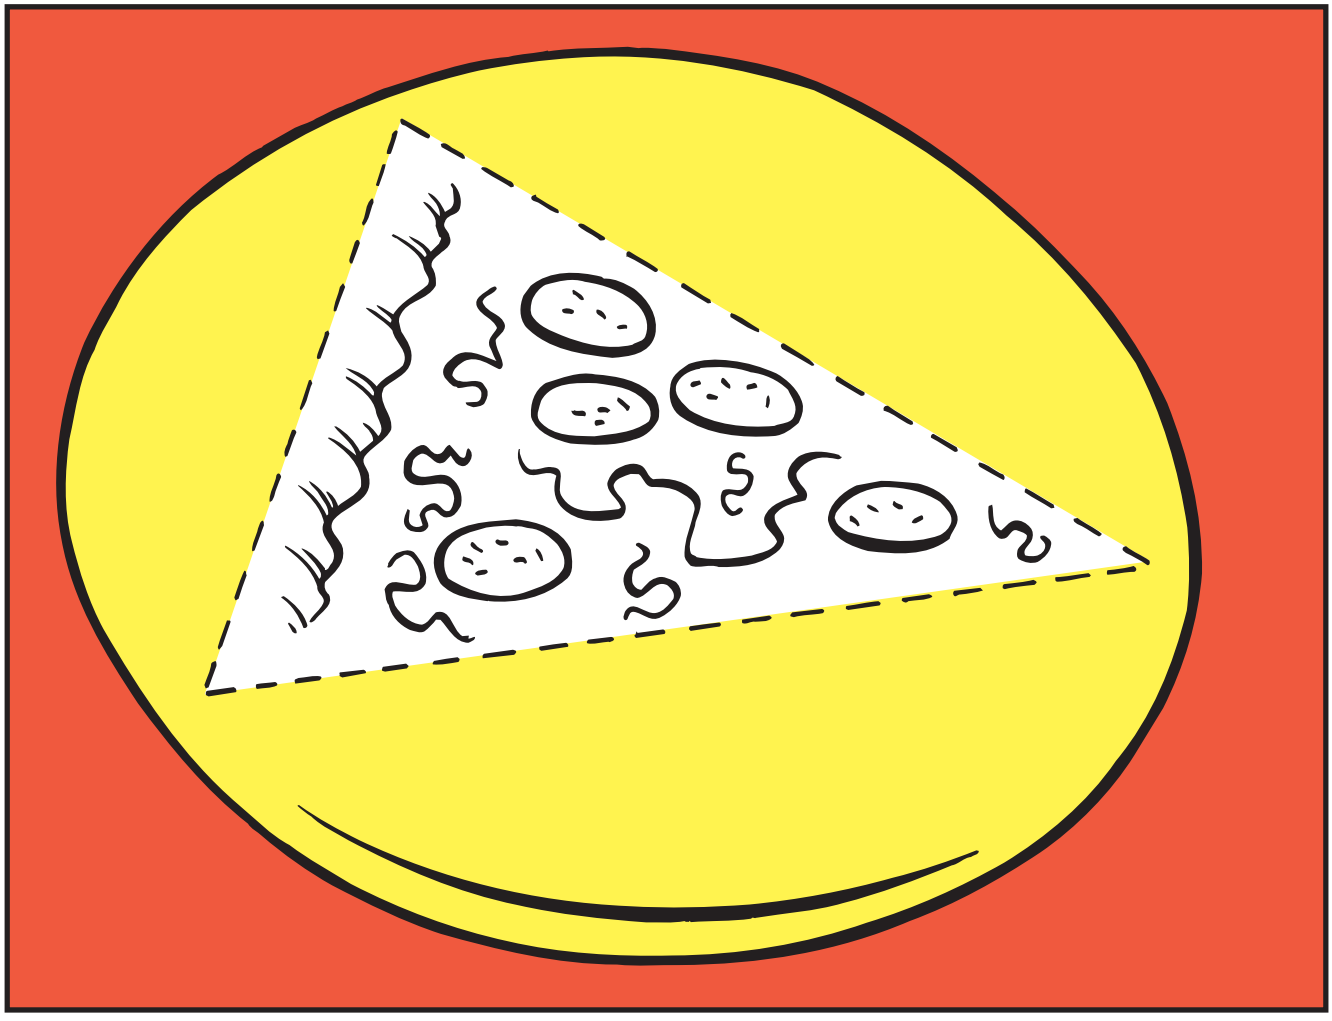

Trace the rectangles.

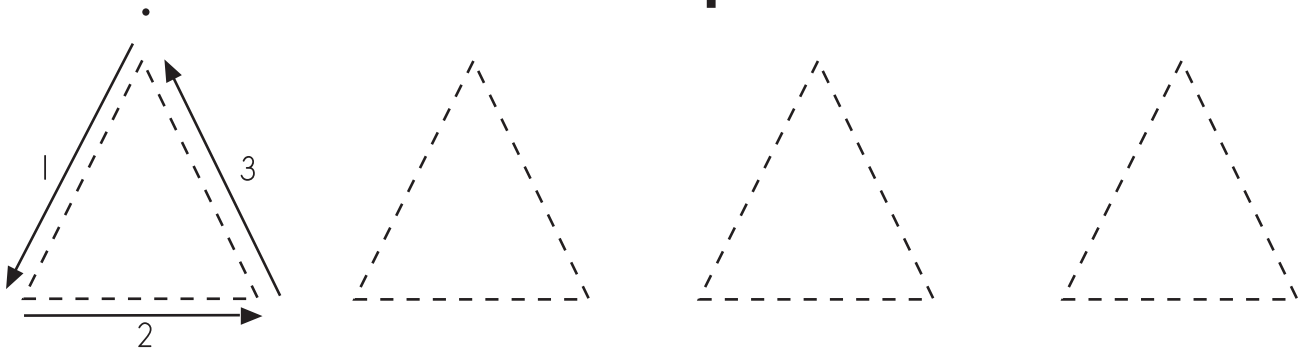

Draw and color the shape that comes next.

Triangle

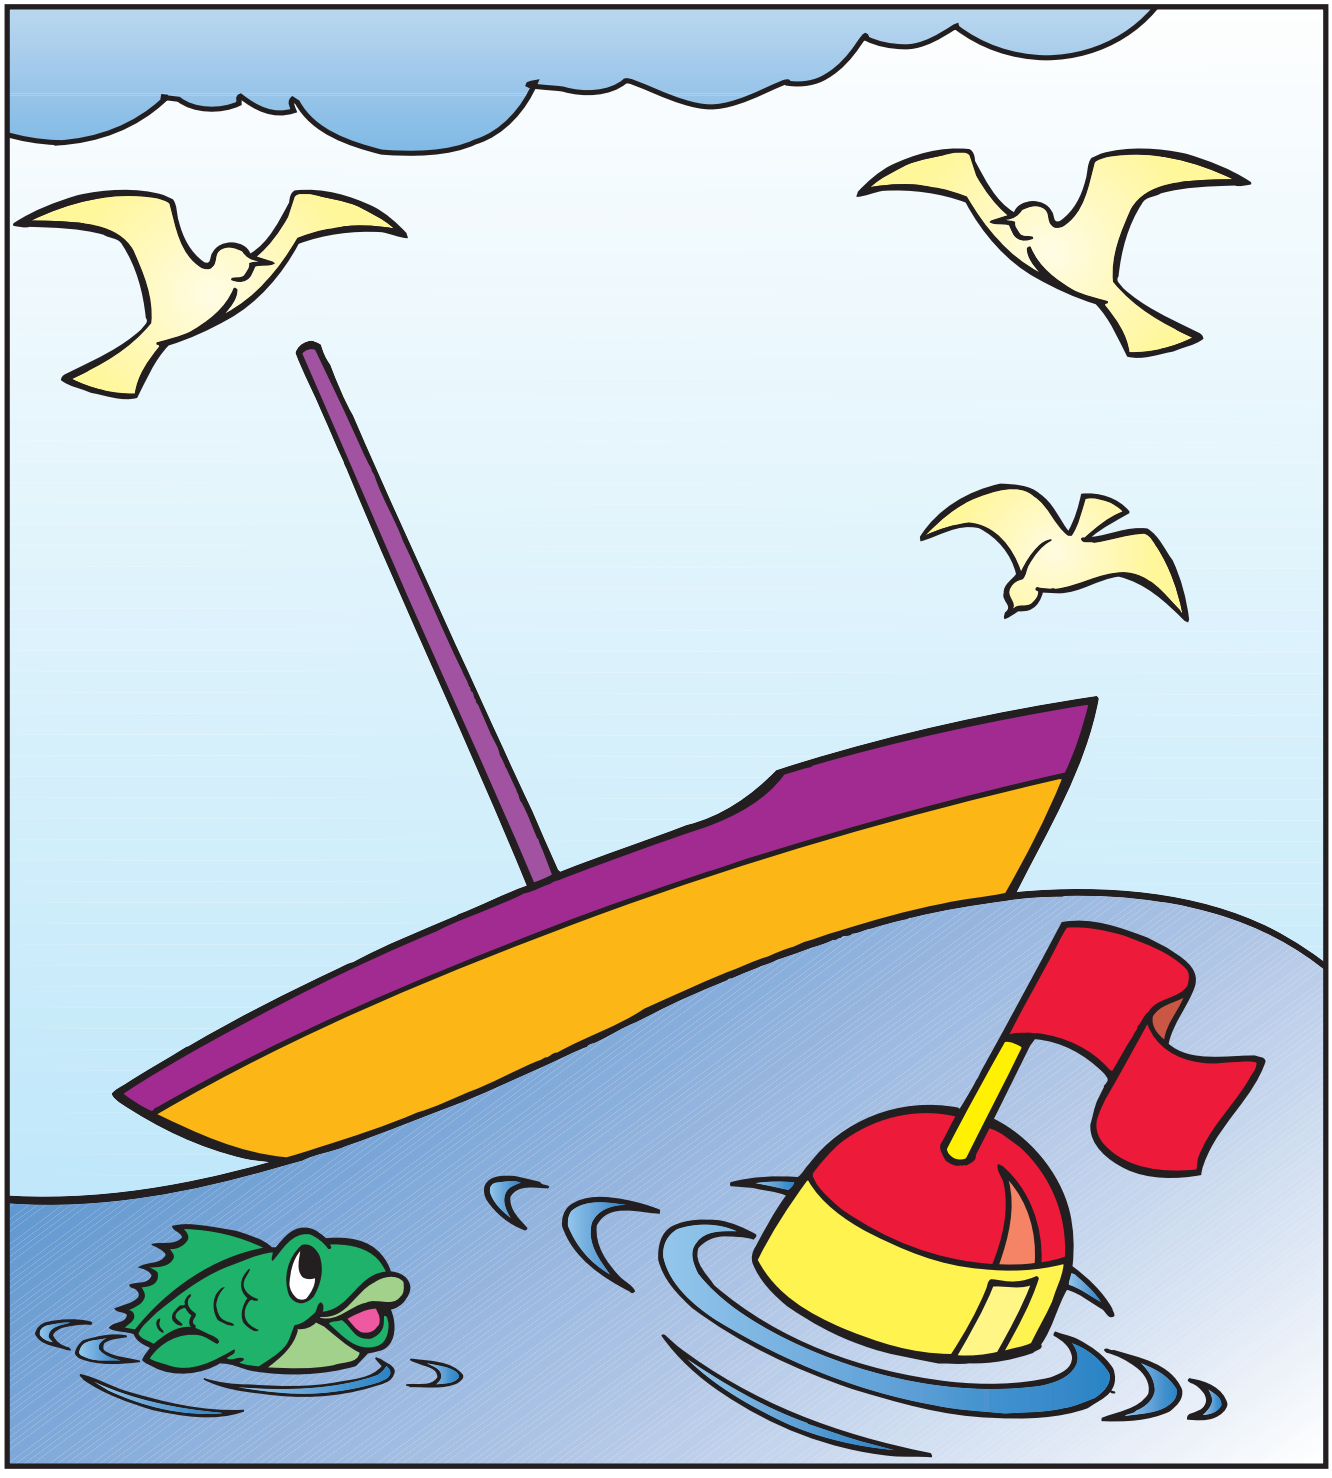

Trace the triangle to make a piece of pizza.
Color the pizza.

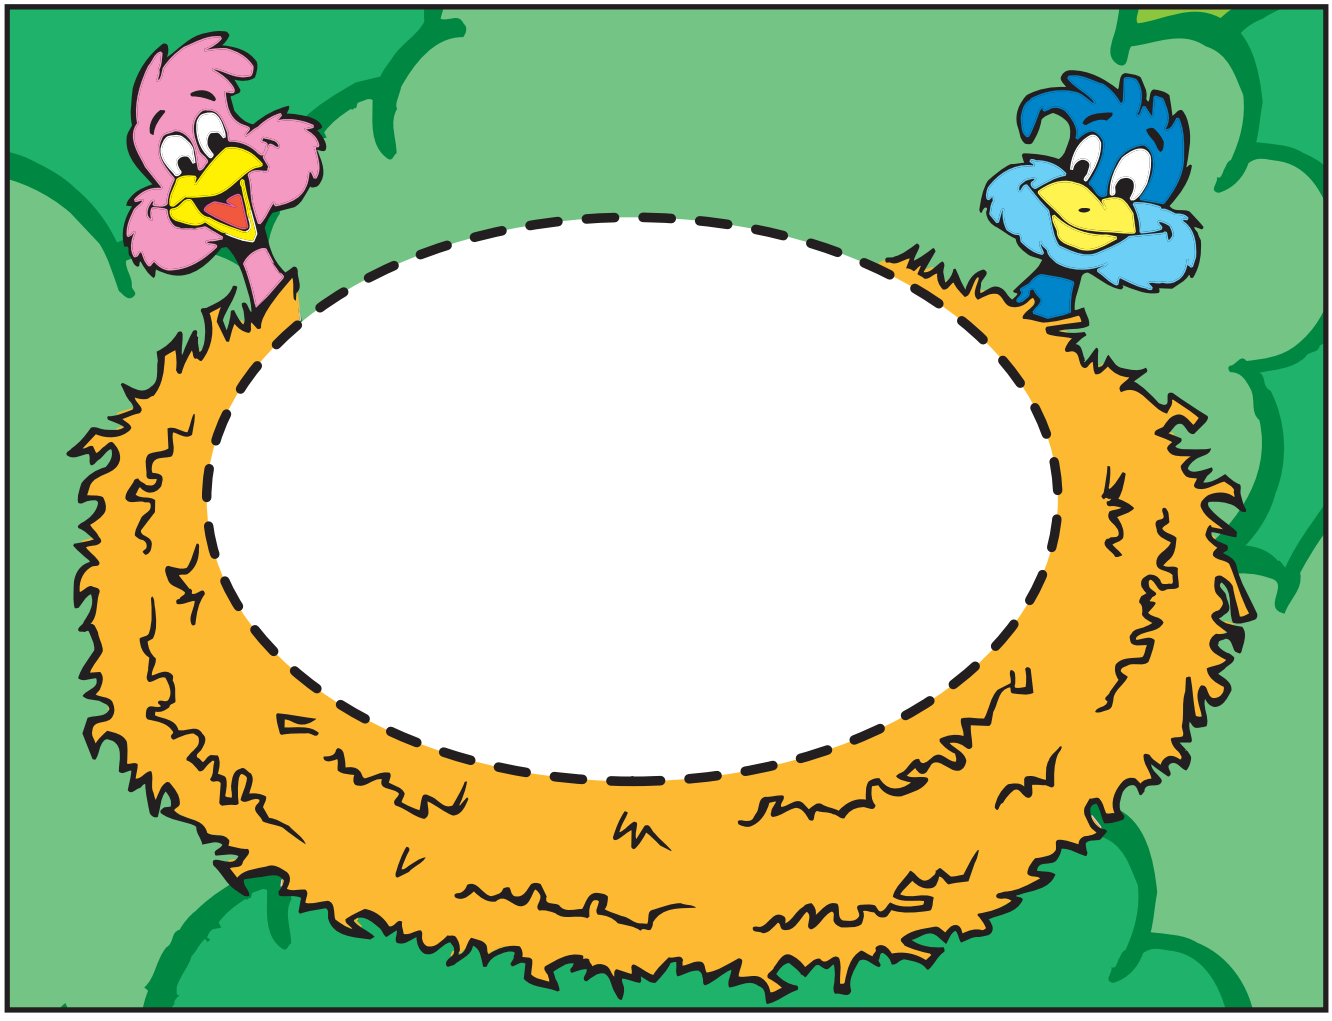

Trace the triangles.

Draw triangles to add sails to the boat. Color the sails orange.

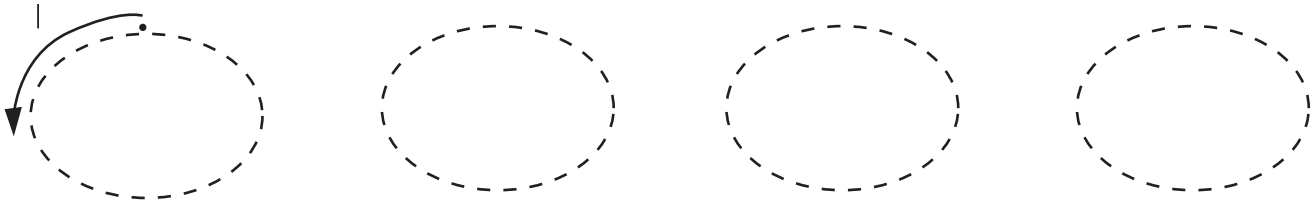

How many triangles did you draw? _____

Oval

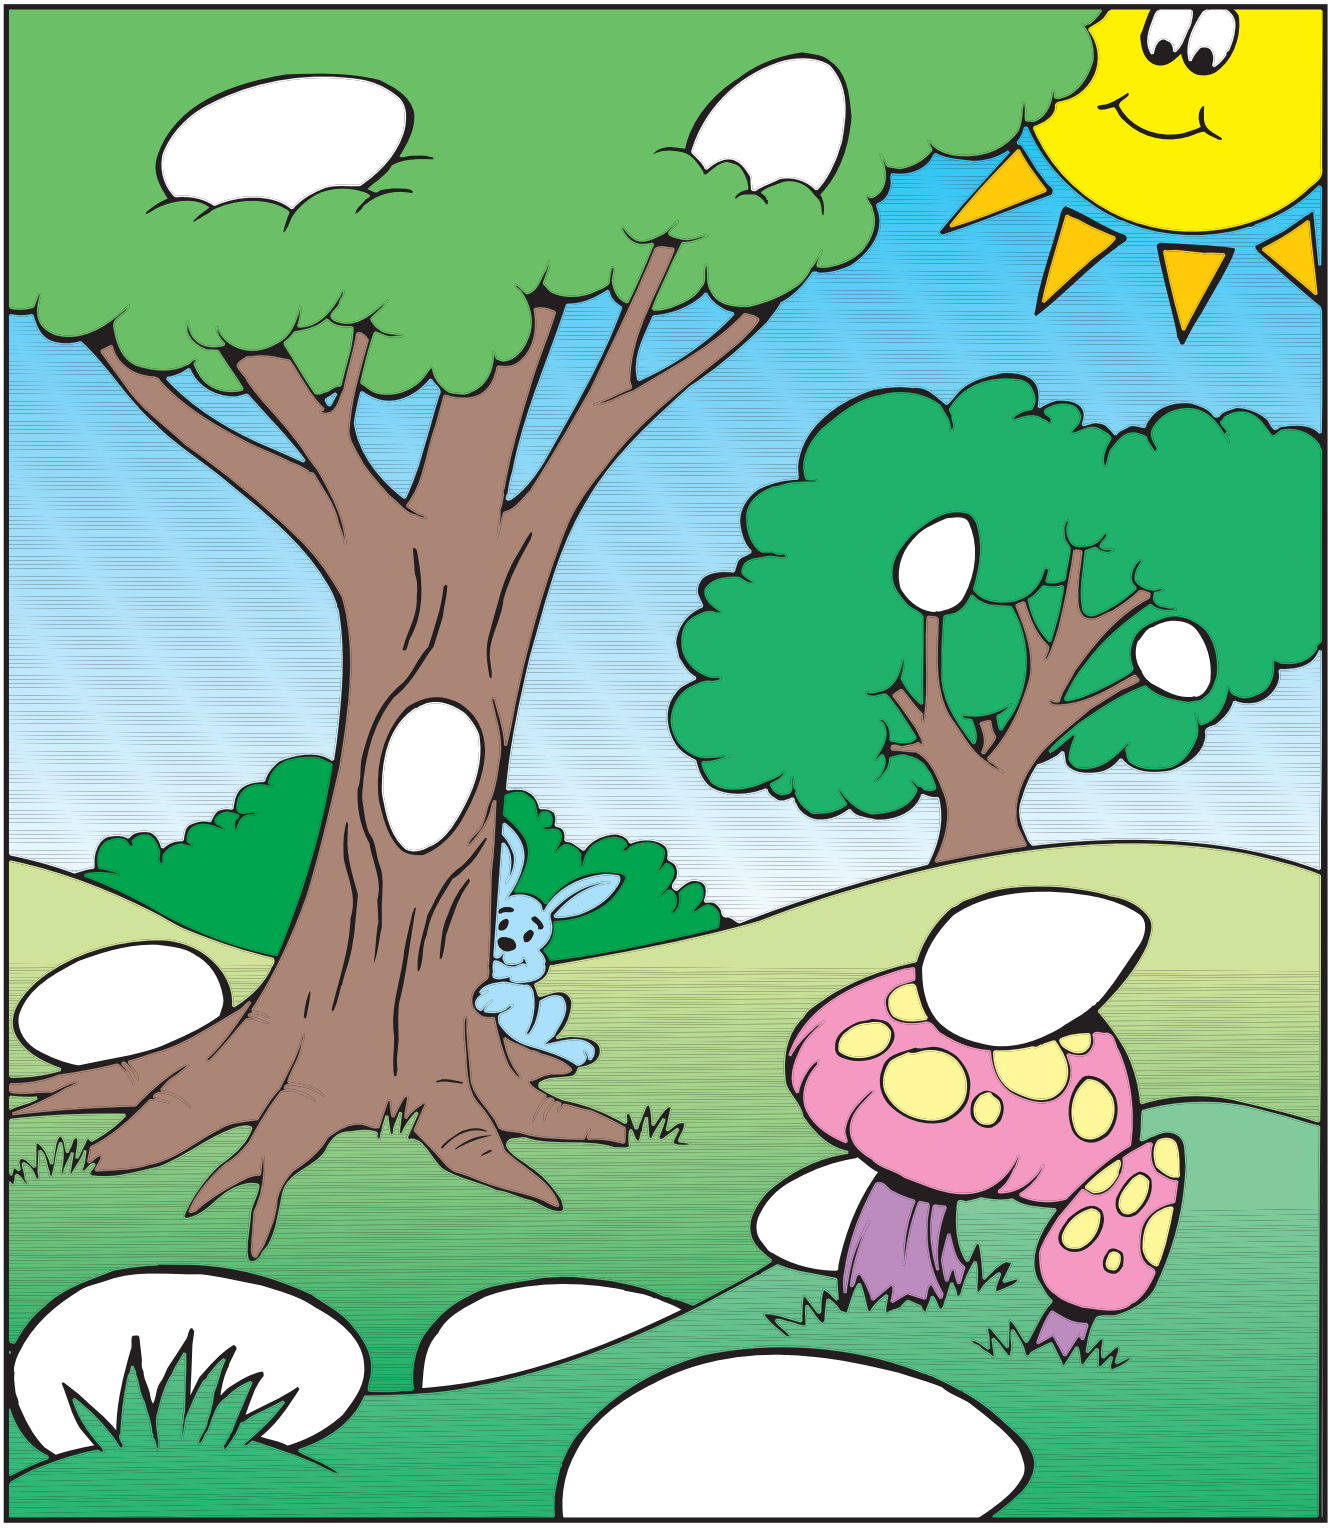

Trace the oval to make an egg.
Color the egg blue.

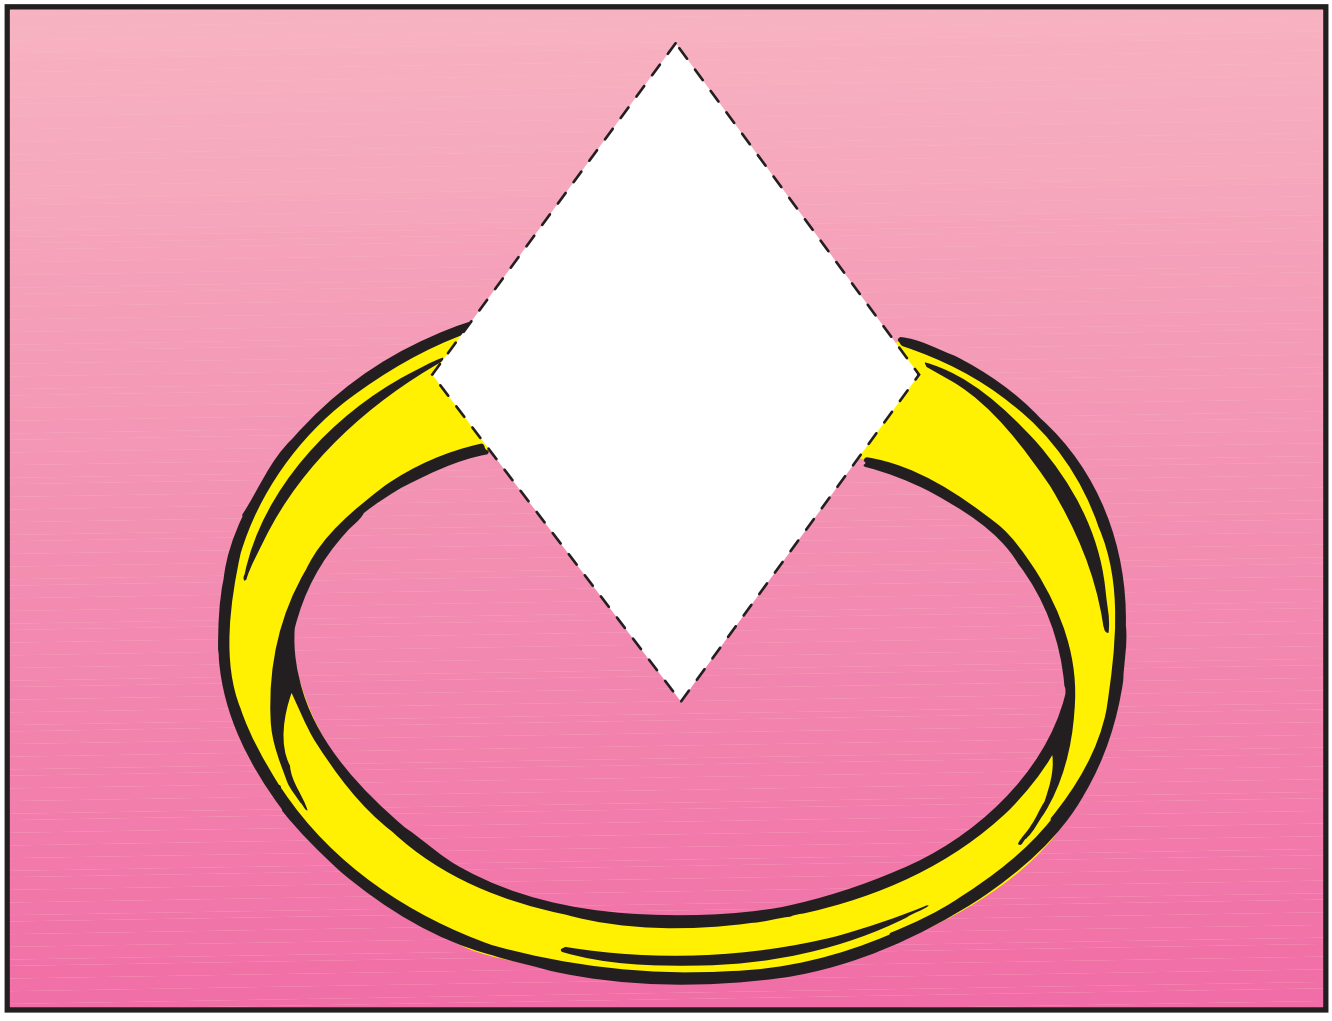

Trace the ovals.

Find and color the eggs.
Color some eggs purple. Color some eggs orange.

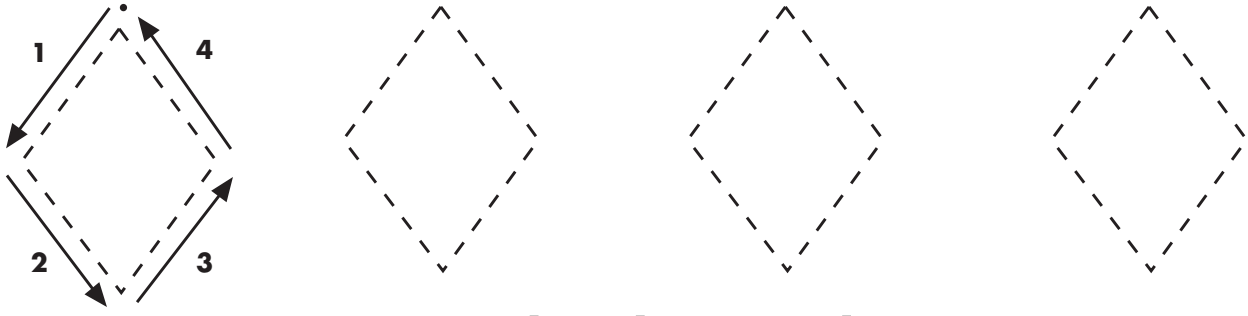

How many eggs did you find? 10 11 12

Diamond

Trace the diamond to make a ring.
Color the diamond purple.

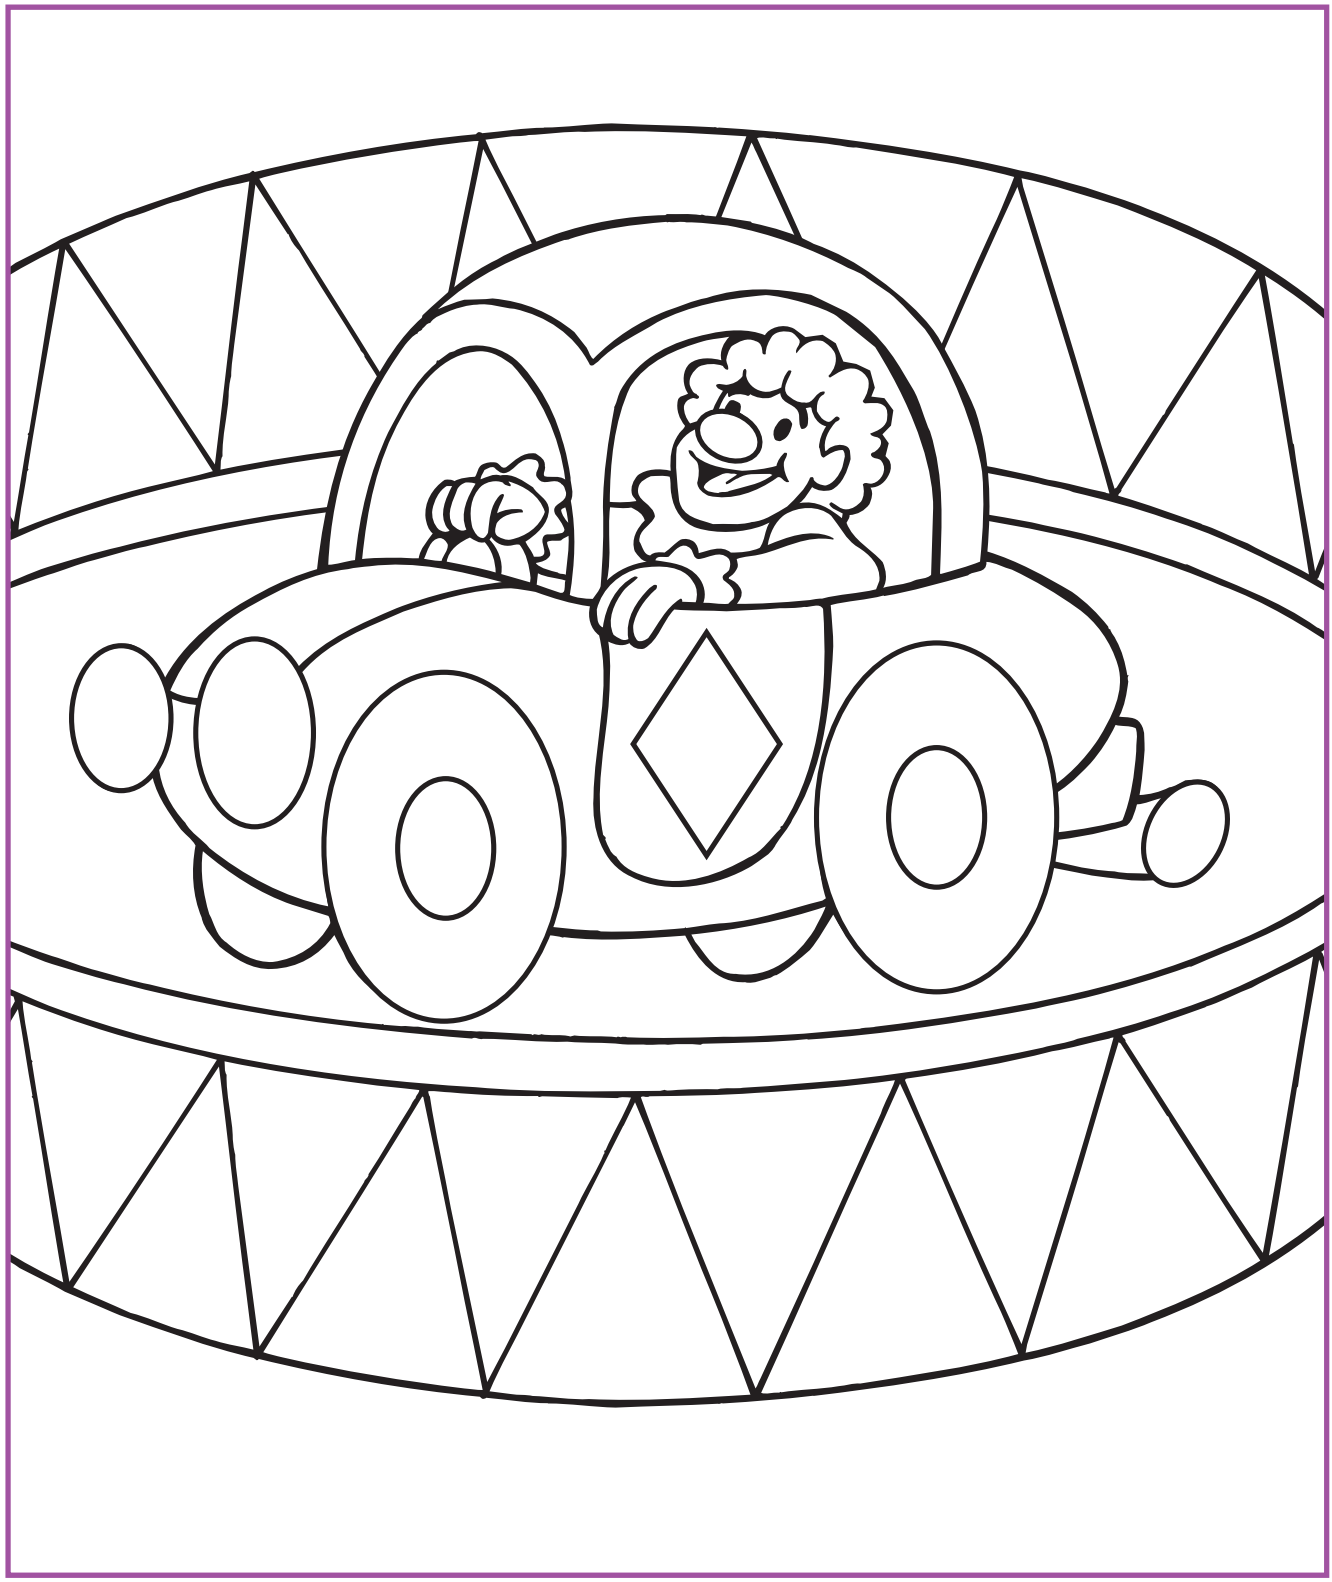

Trace the diamonds.

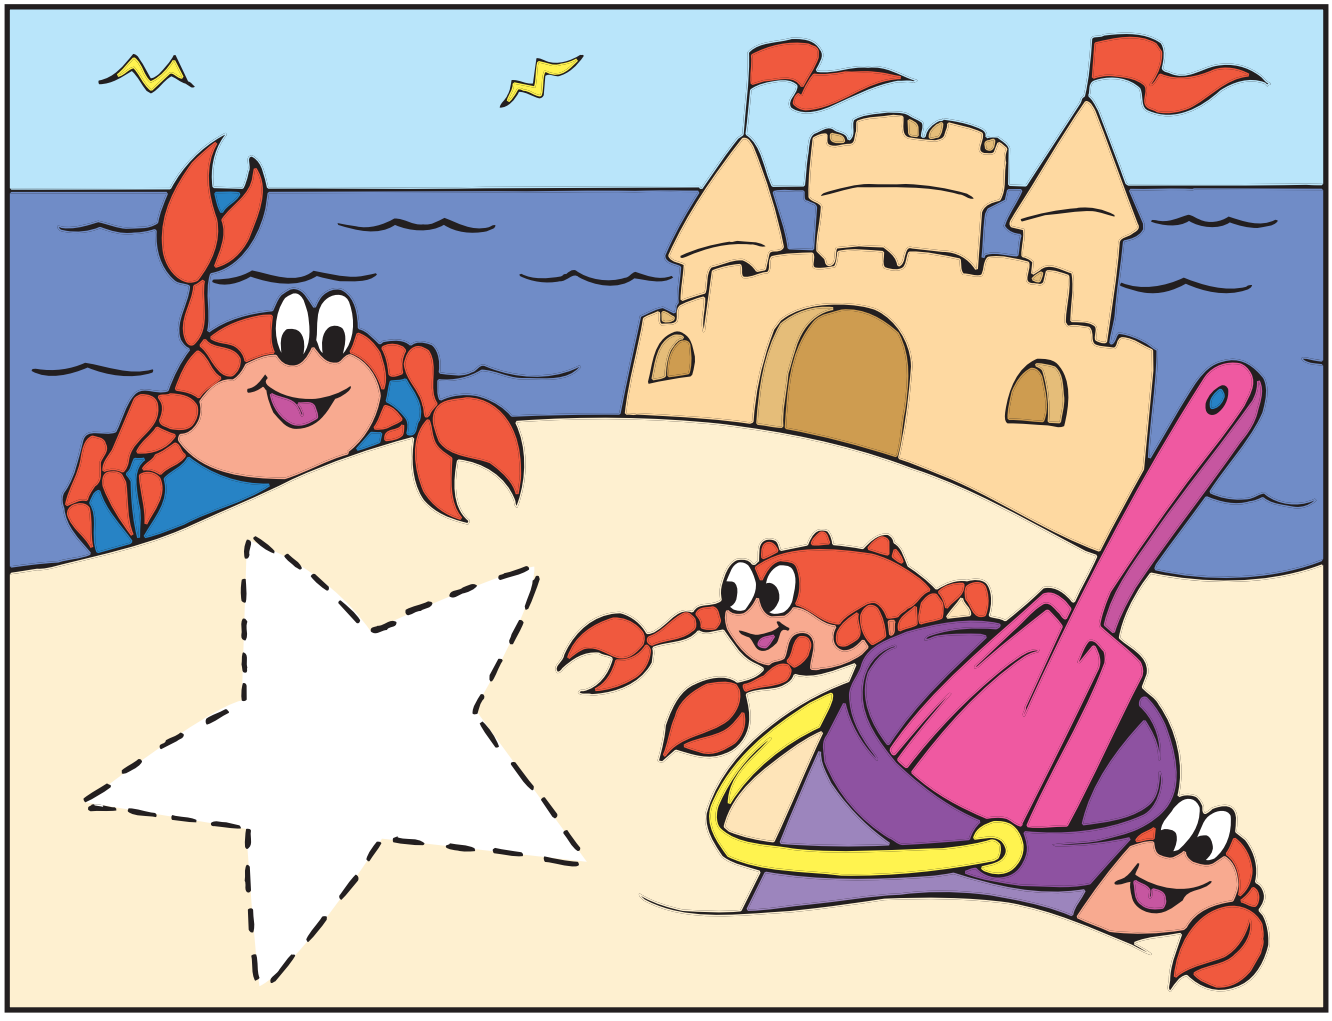

Color the ♦ red.

Color the ● s blue.

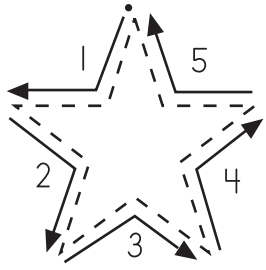

Color the ▲ s green.

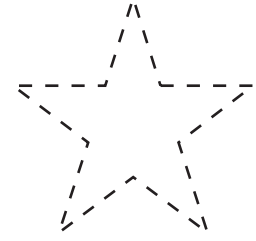

★ Star

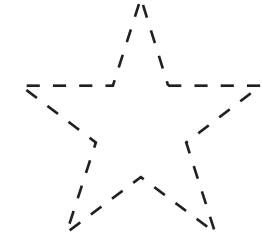

Trace the star to make a starfish.
Color the starfish yellow.

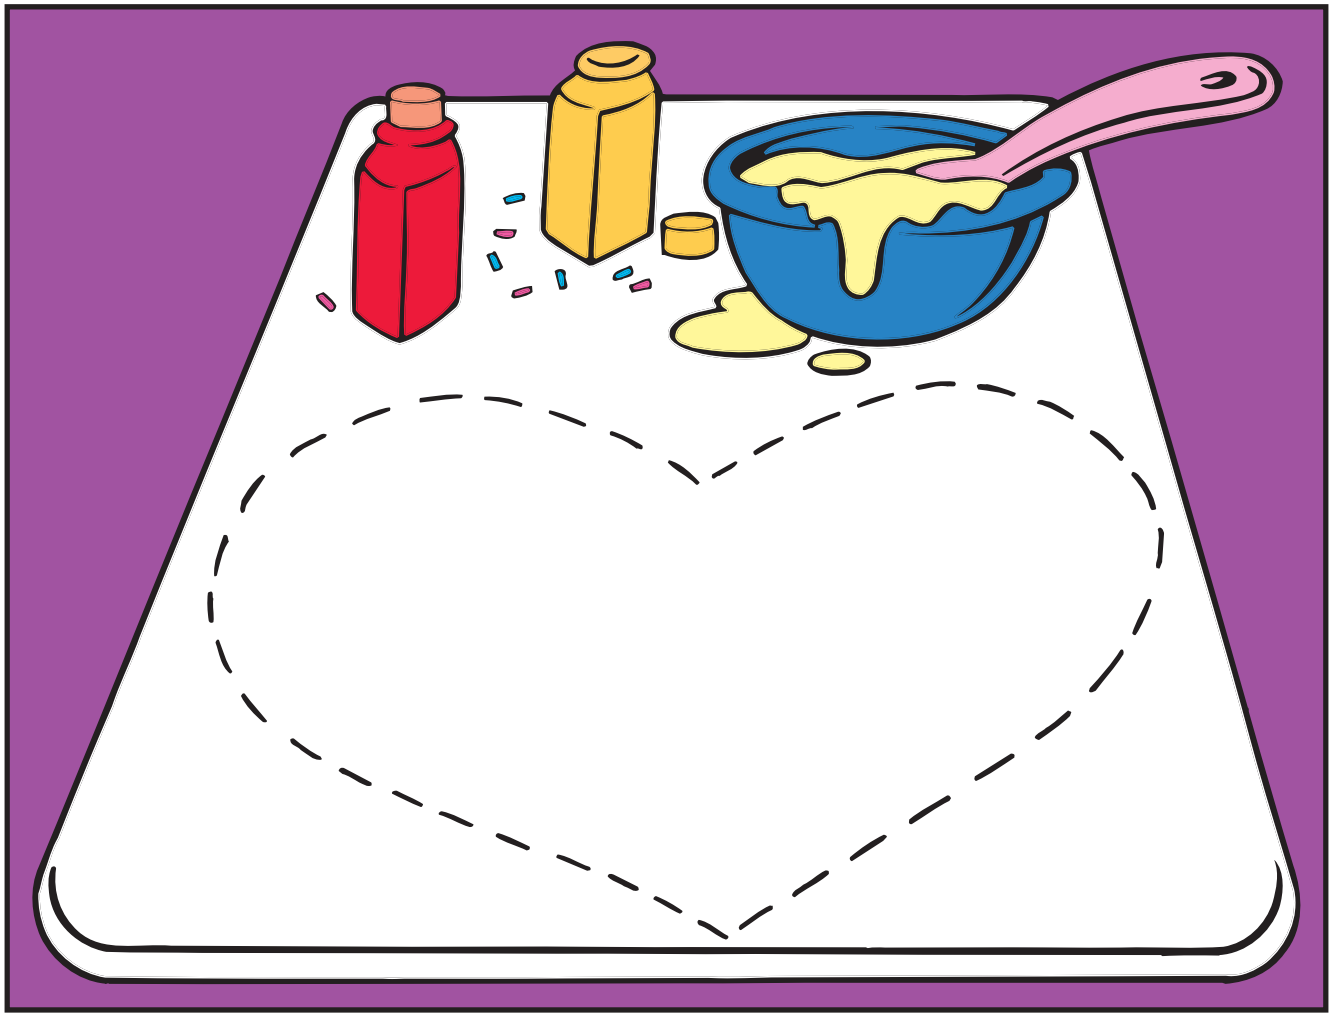

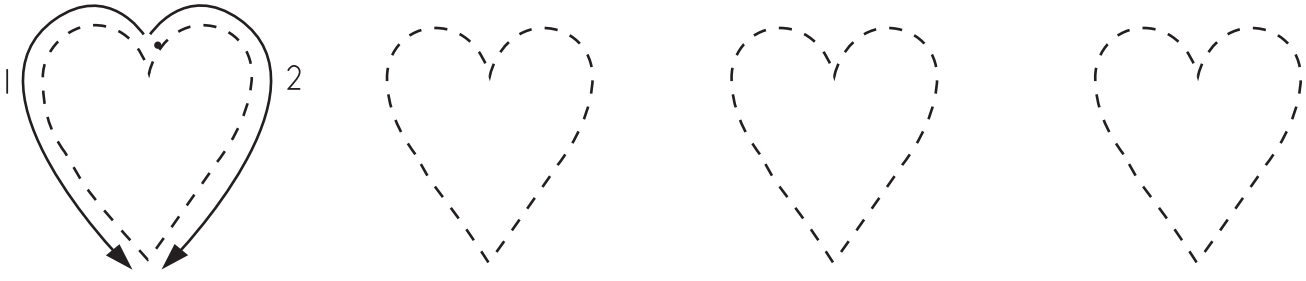

Trace the stars.

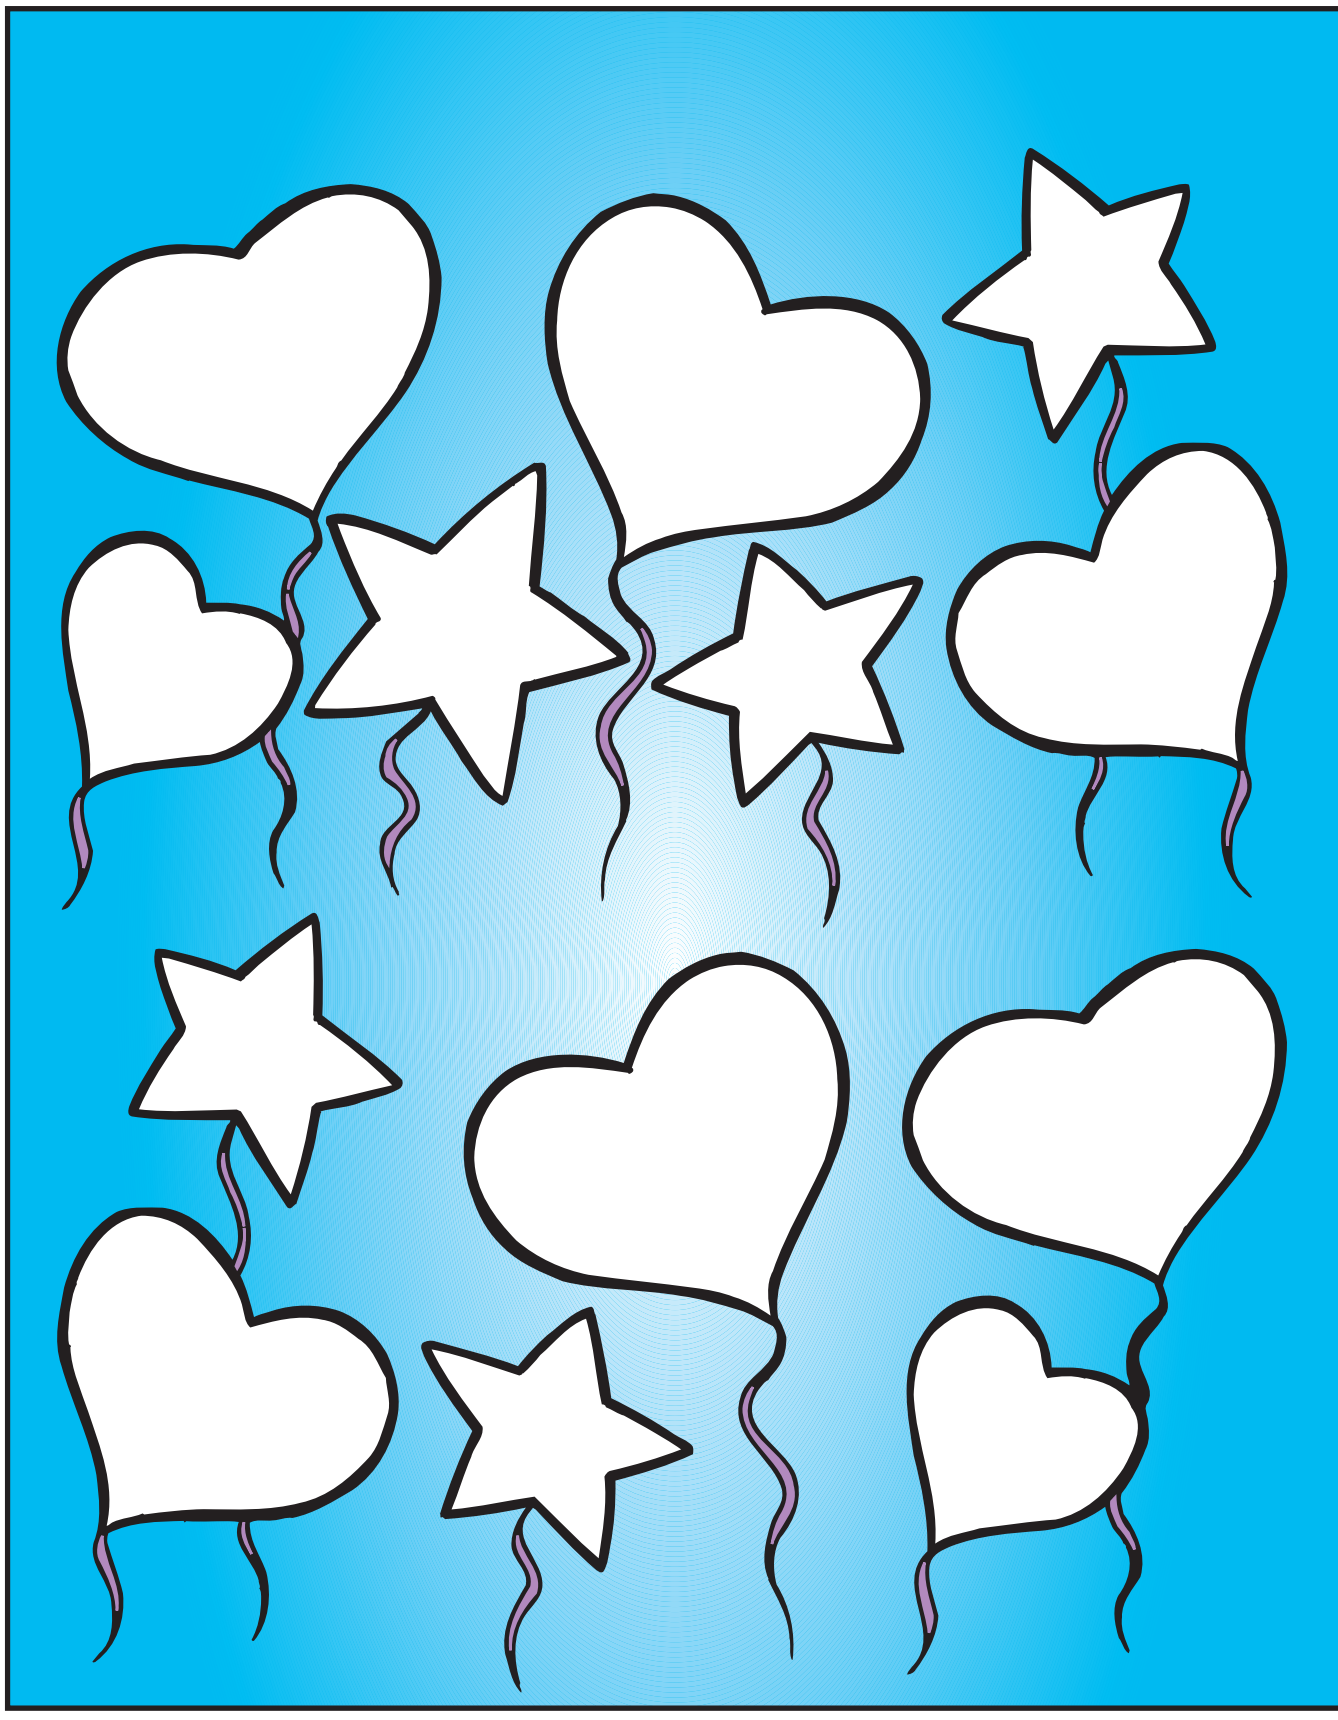

Heart

Trace the heart to make a cookie.
Color the cookie with decorations.

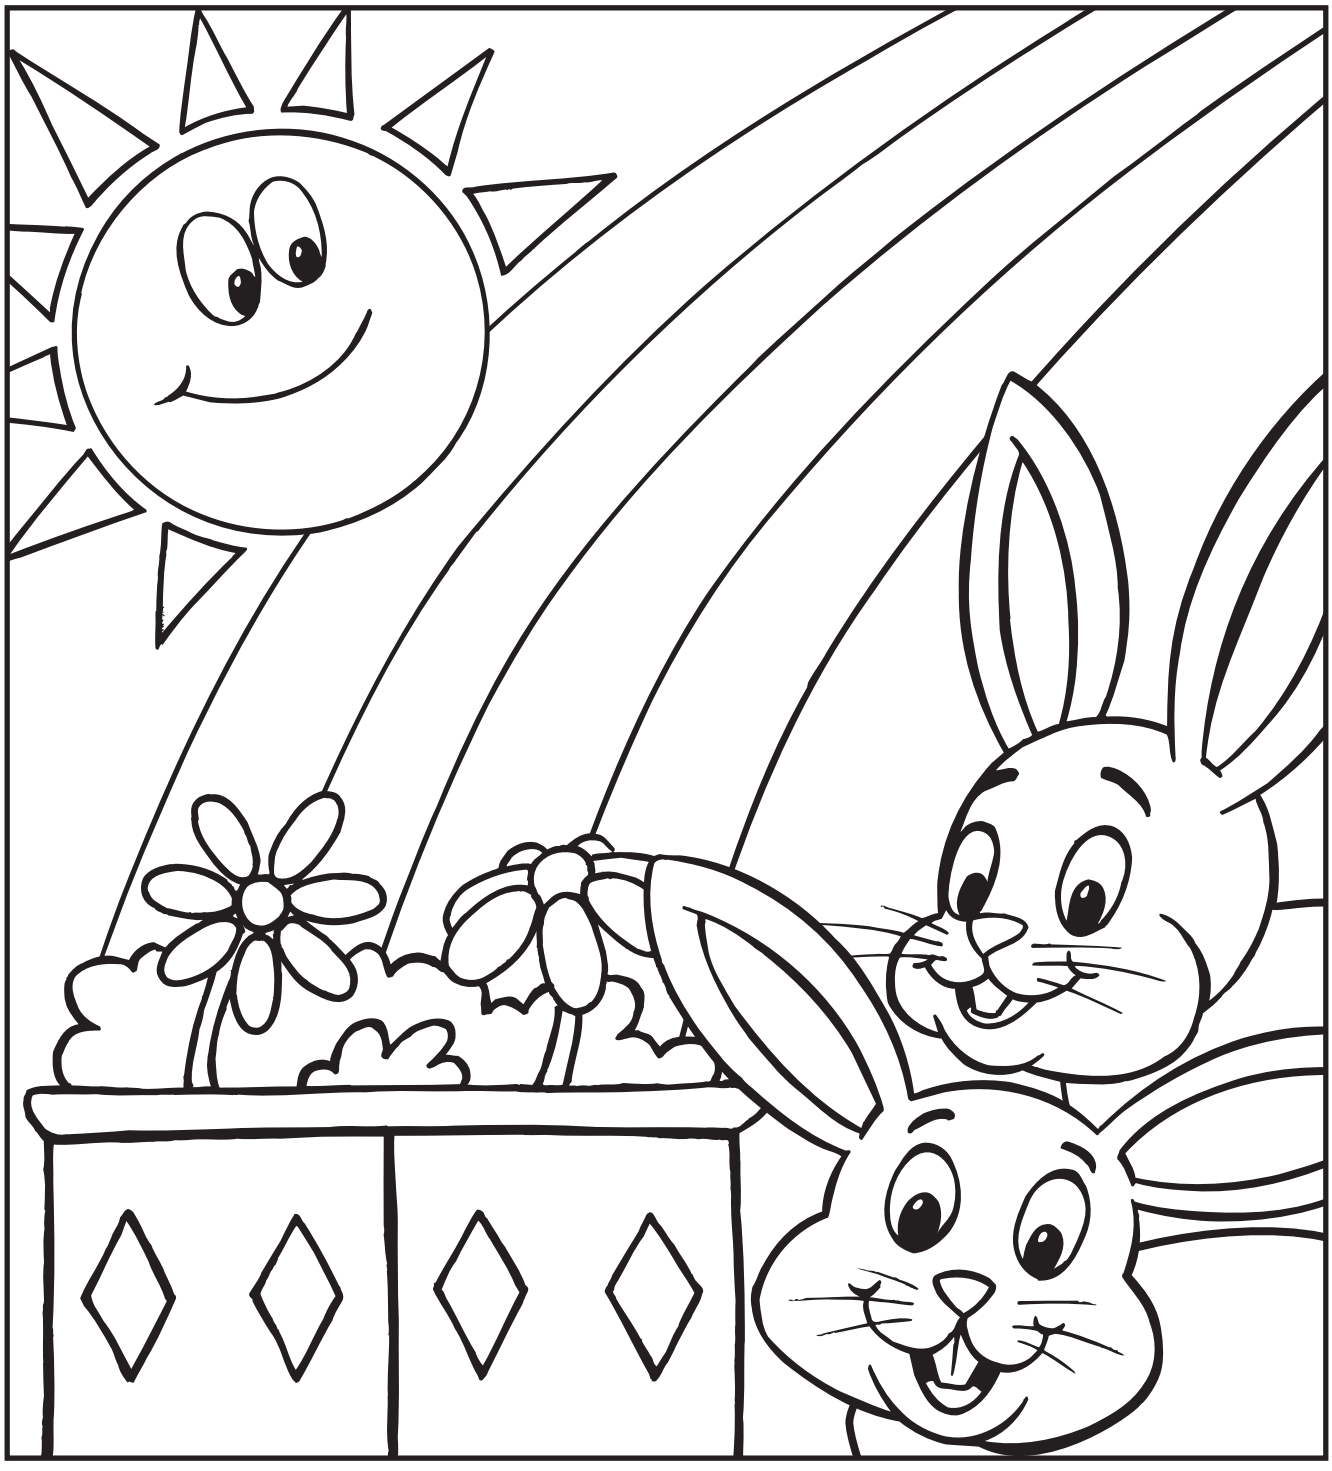

Trace the hearts.

Color the stars yellow.

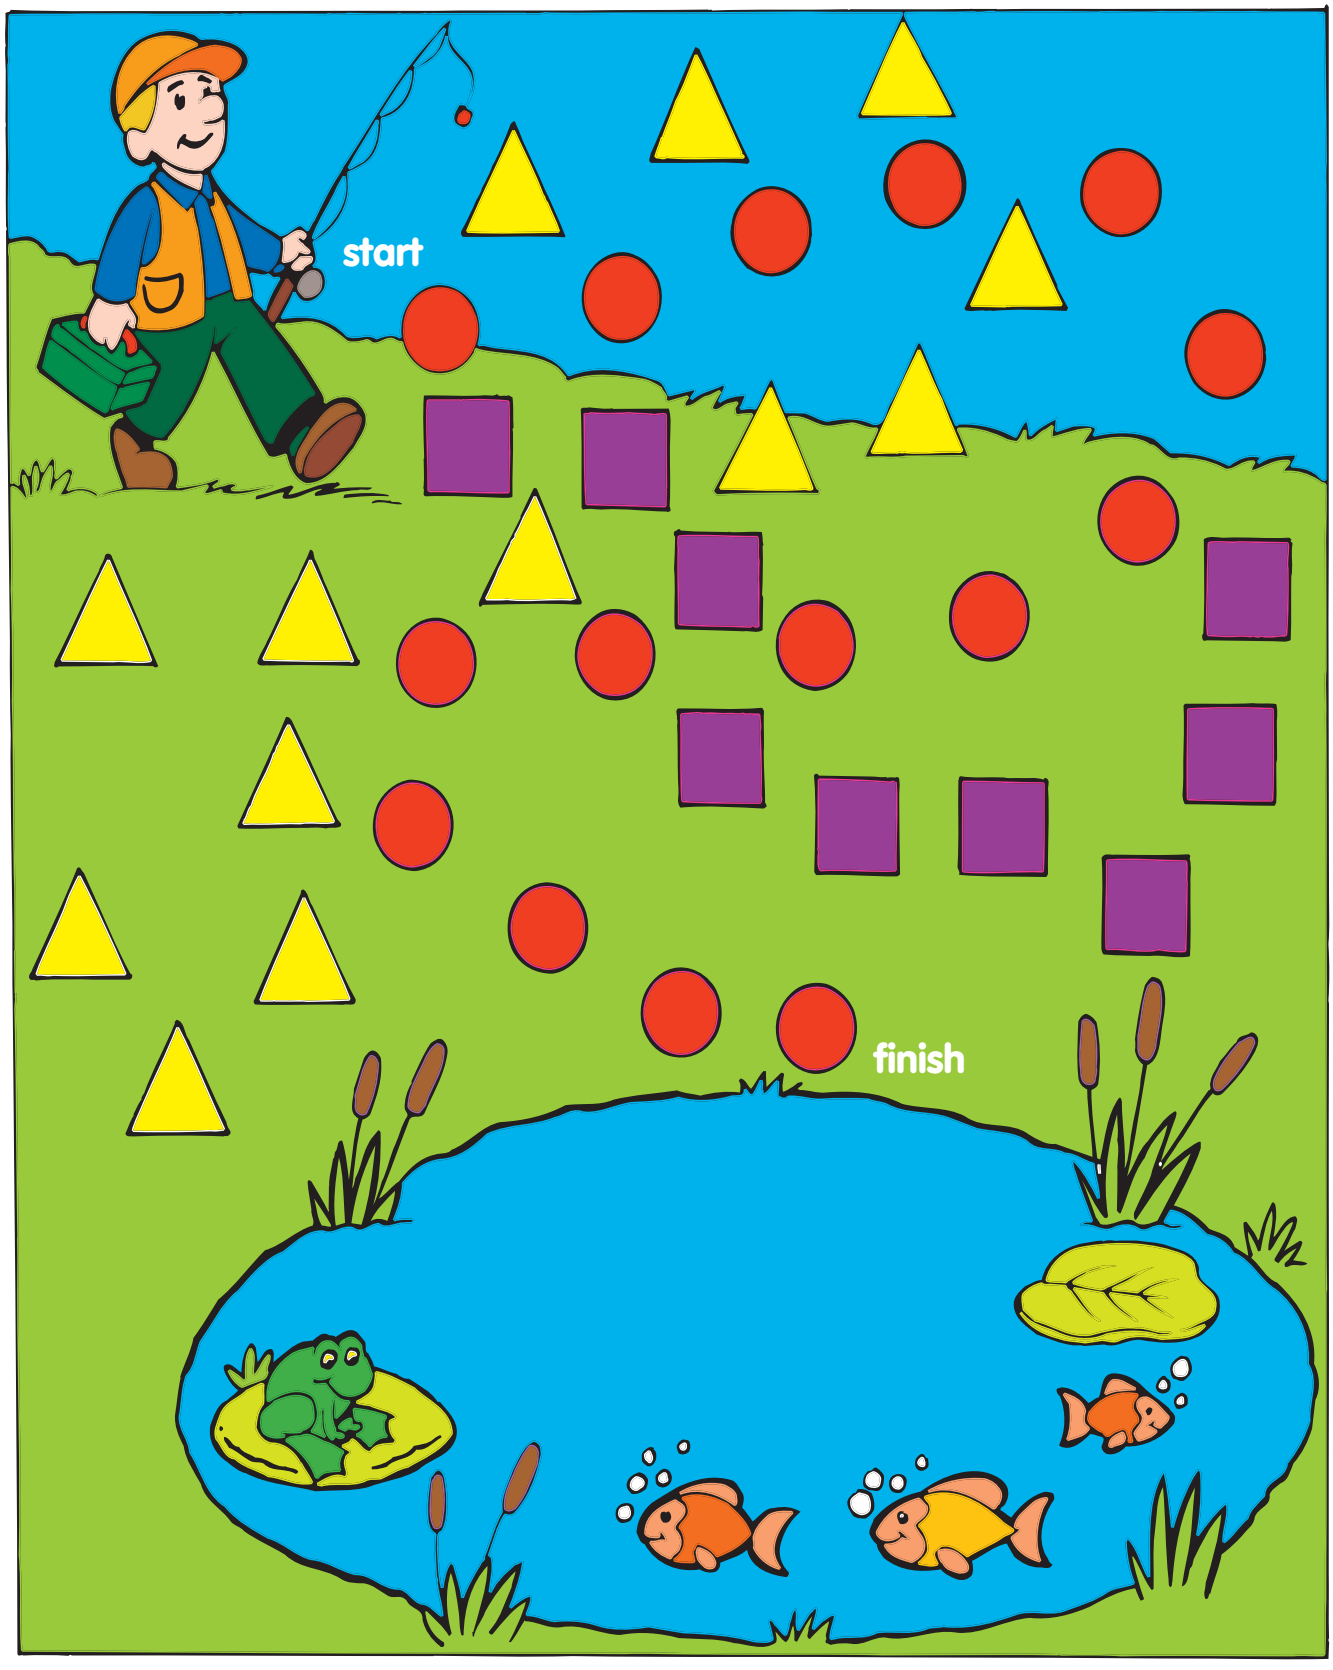

Color the hearts red.

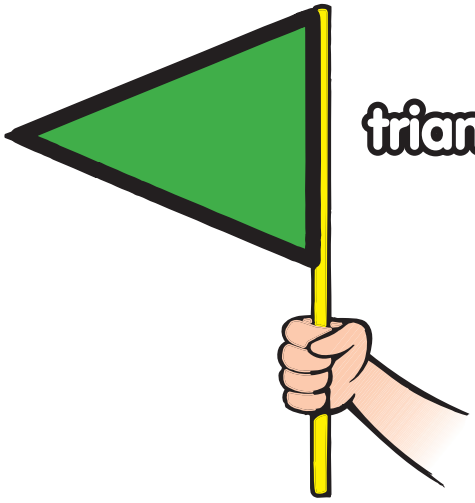

Color the picture. Can you name the colors? Can you find some shapes?

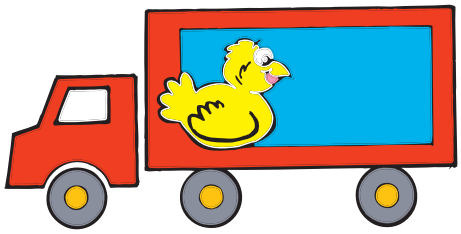

Follow the path of circles to get the fisherman to the pond. Draw a fish in the pond.

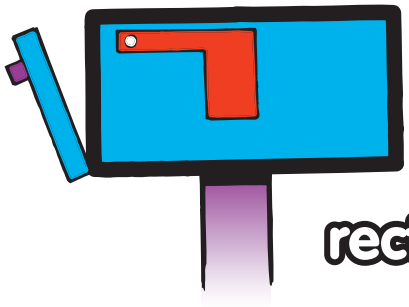

Draw lines to match the main shapes.

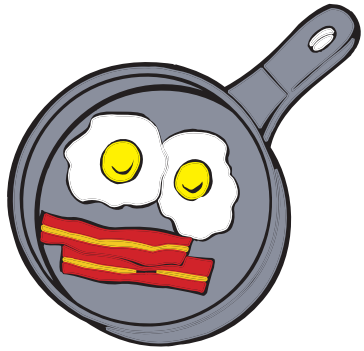

triangle

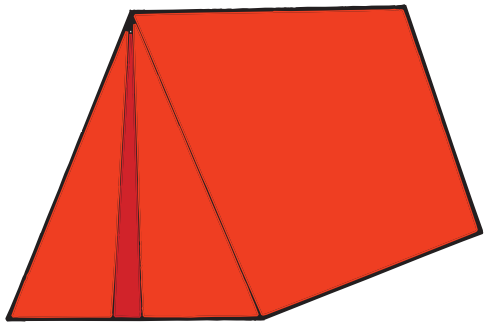

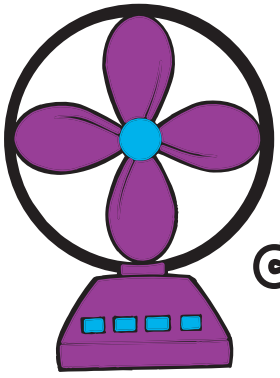

rectangle

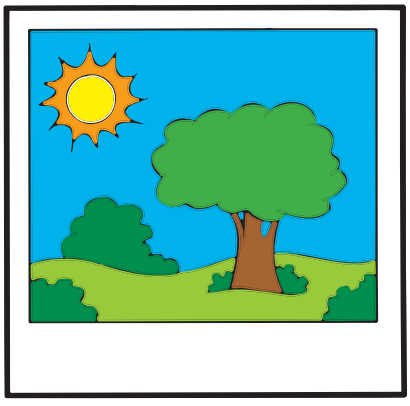

square

circle

Put a circle around each bird.
Put a square around each leaf.
Put a triangle around each flower.

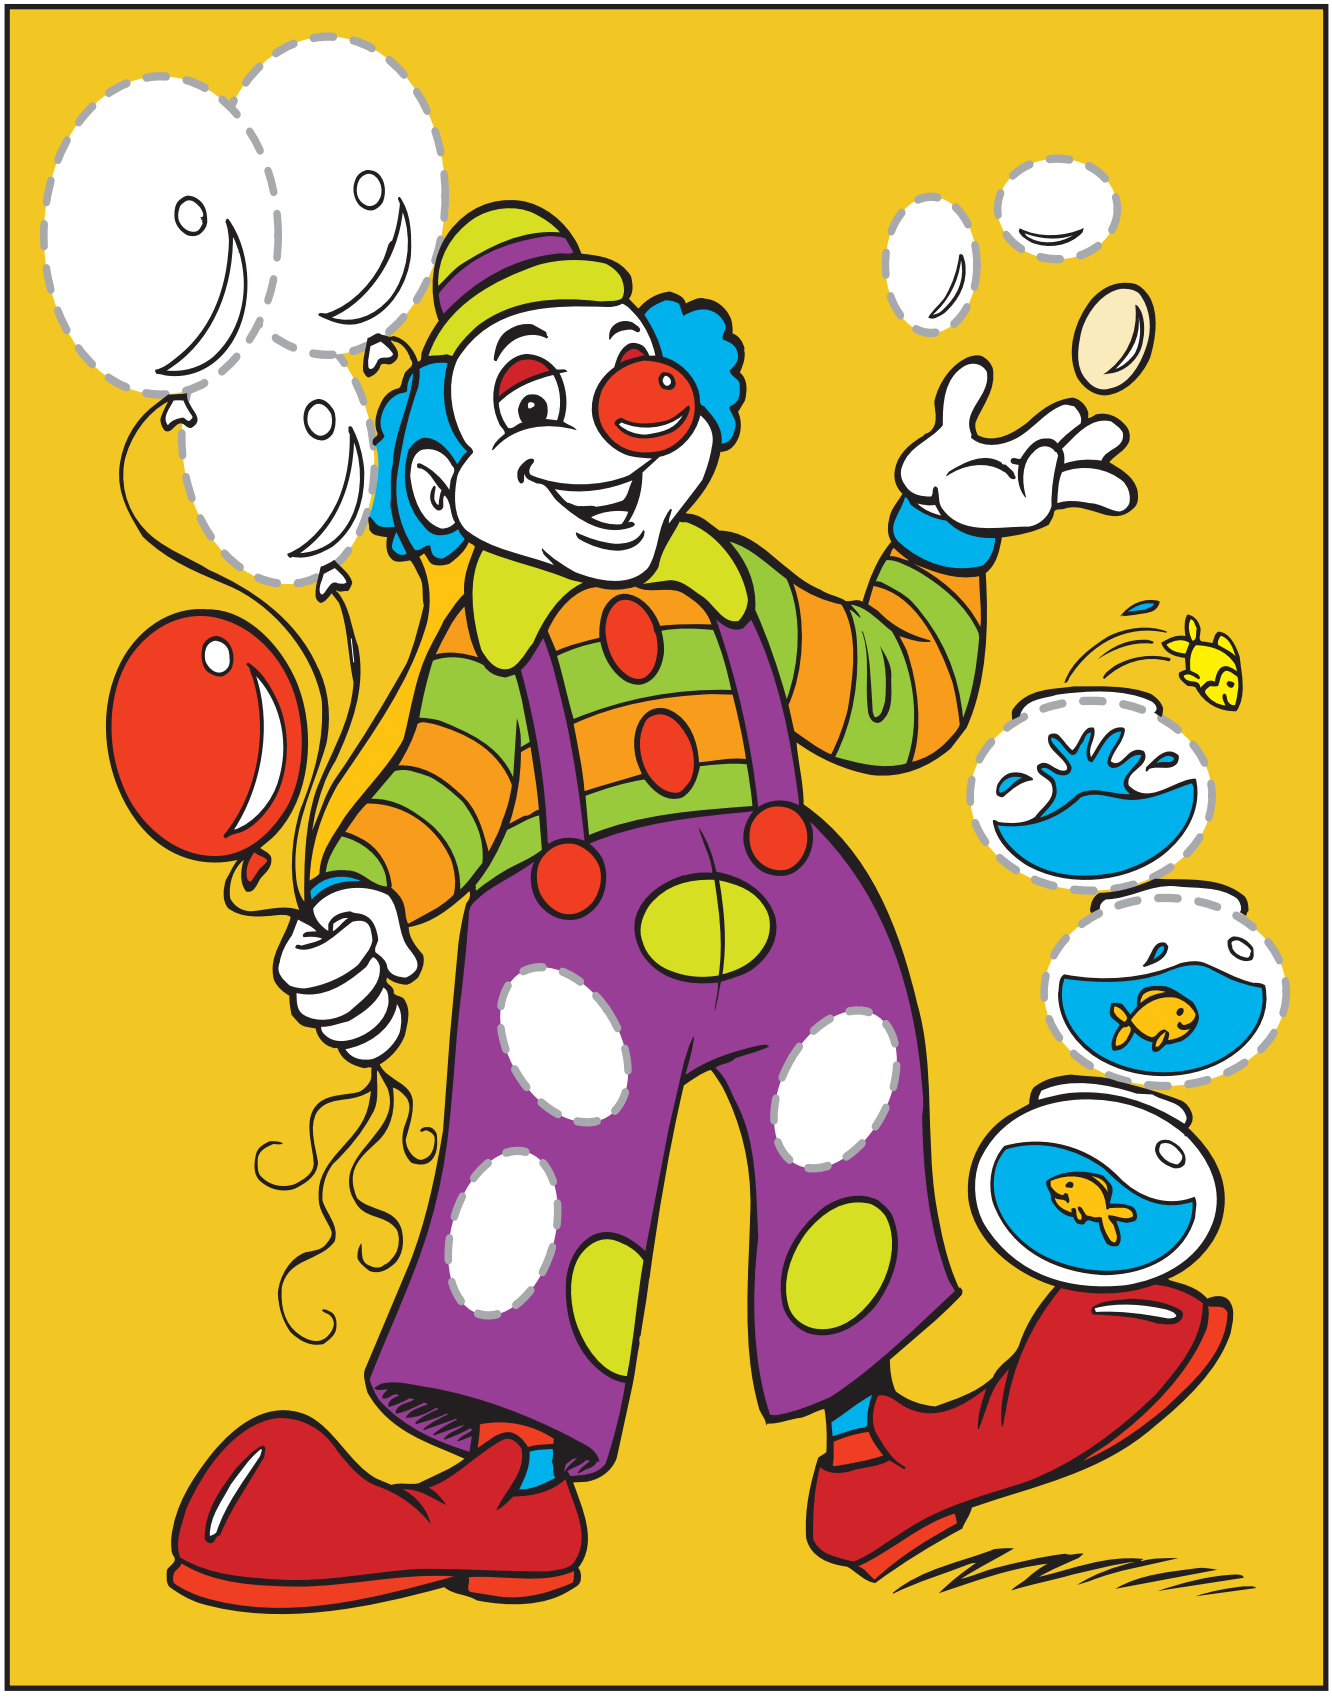

How many circles did you draw? _____

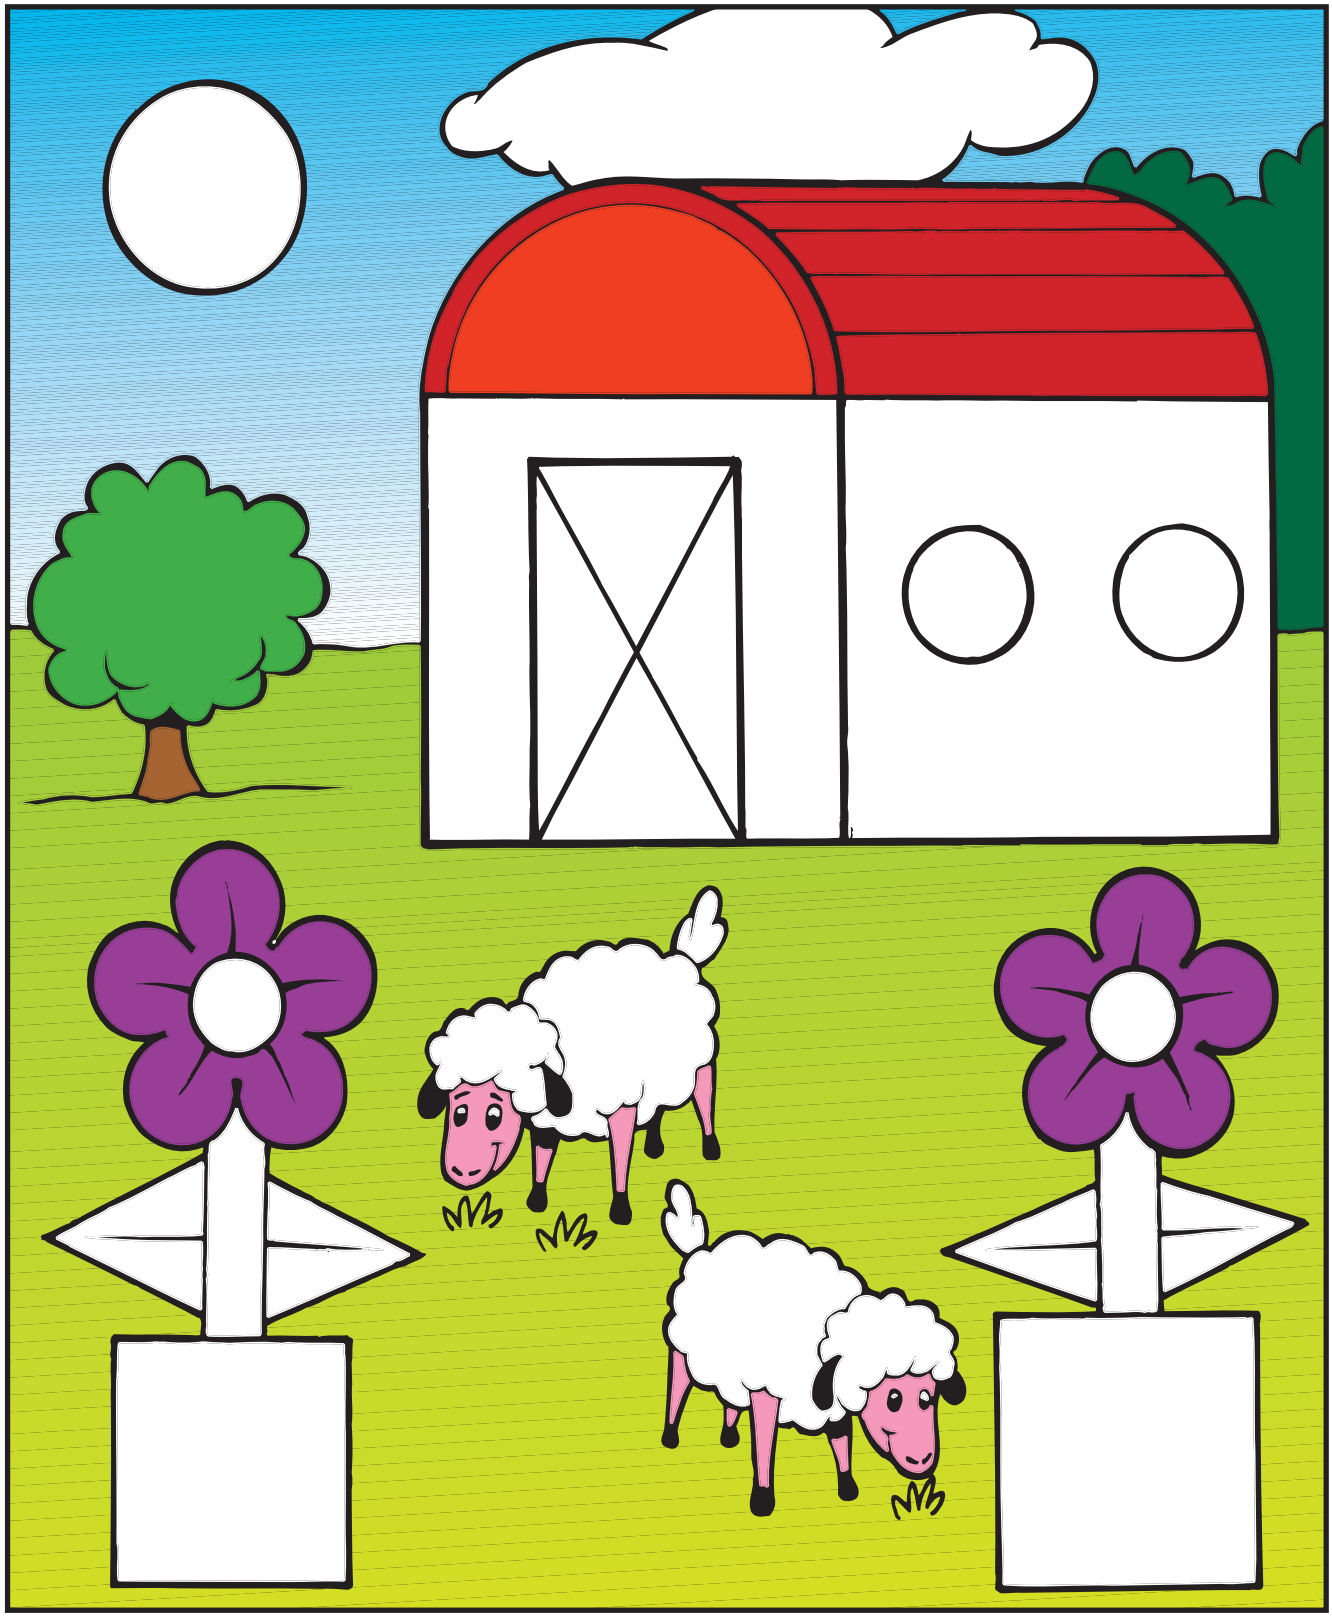

How many squares? _____

How many triangles? _____

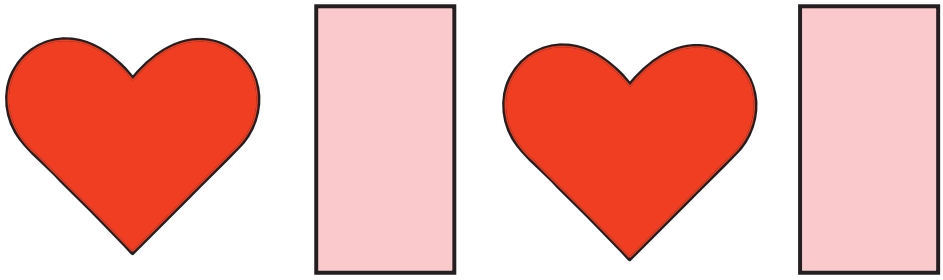

This picture is missing some of its ovals! Draw them in. Color them, too!

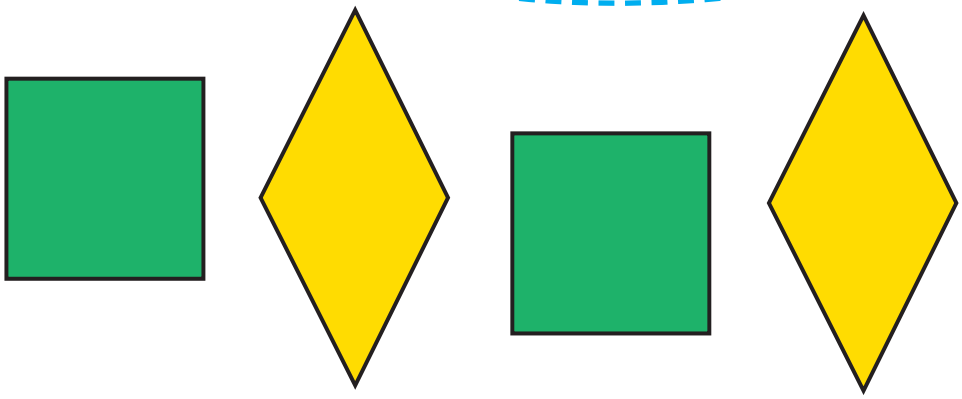

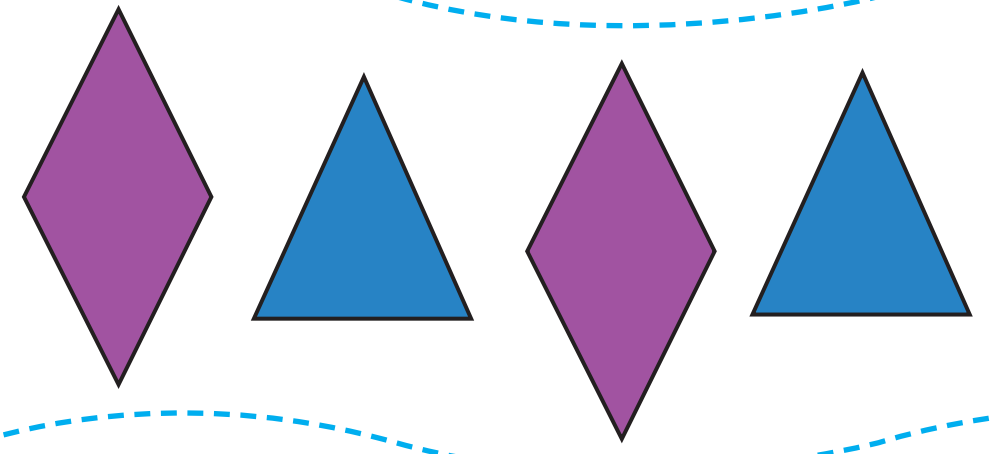

Color the circles yellow.
Color the triangles and rectangle green.
Color the squares red.

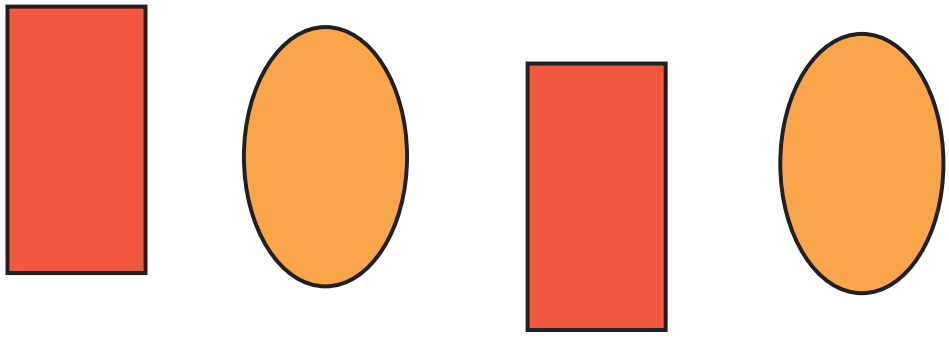

Draw and color the shape that comes next.

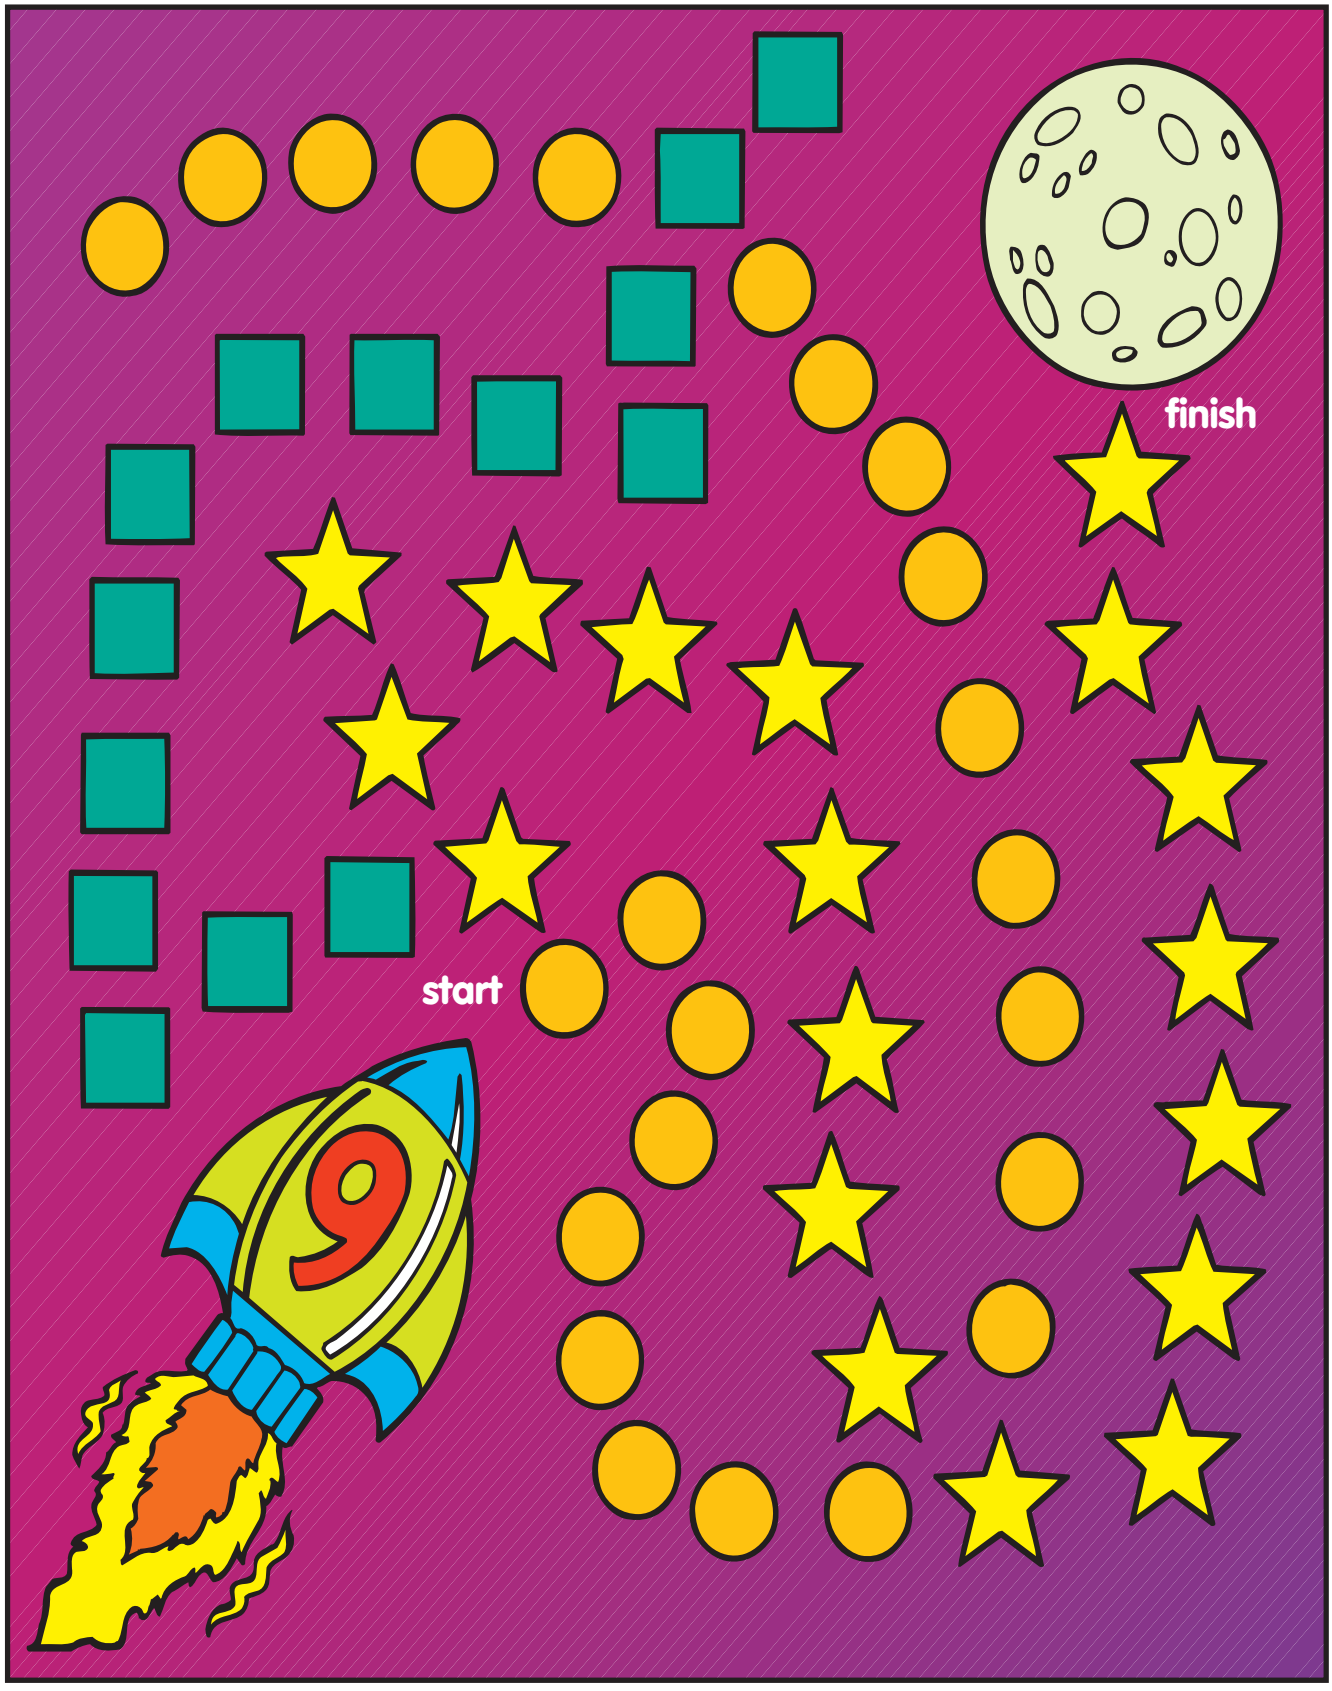

Follow the path of stars to get the rocket to the moon.

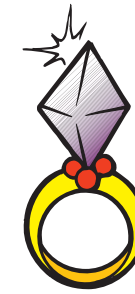

Color the stars green, the hearts blue, the diamonds yellow, and the circles red.

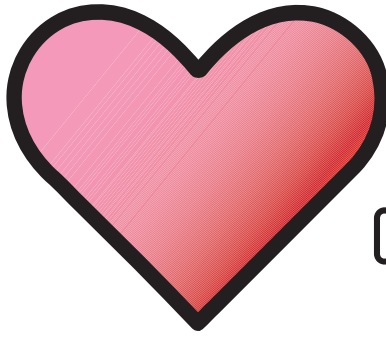

Draw lines to match the main shapes.

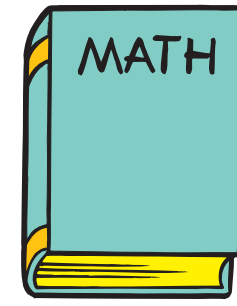

circle

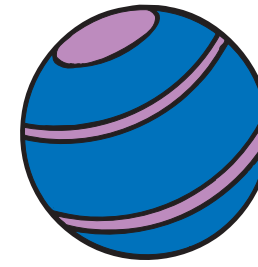

heart

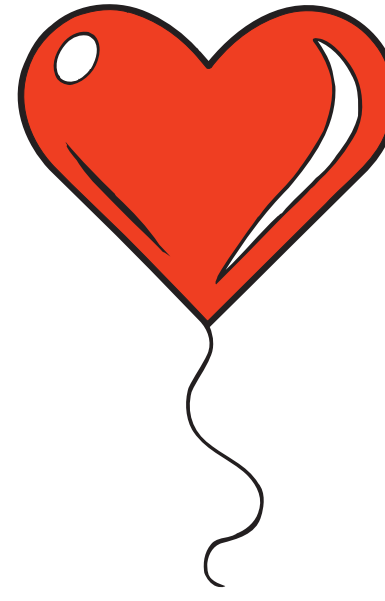

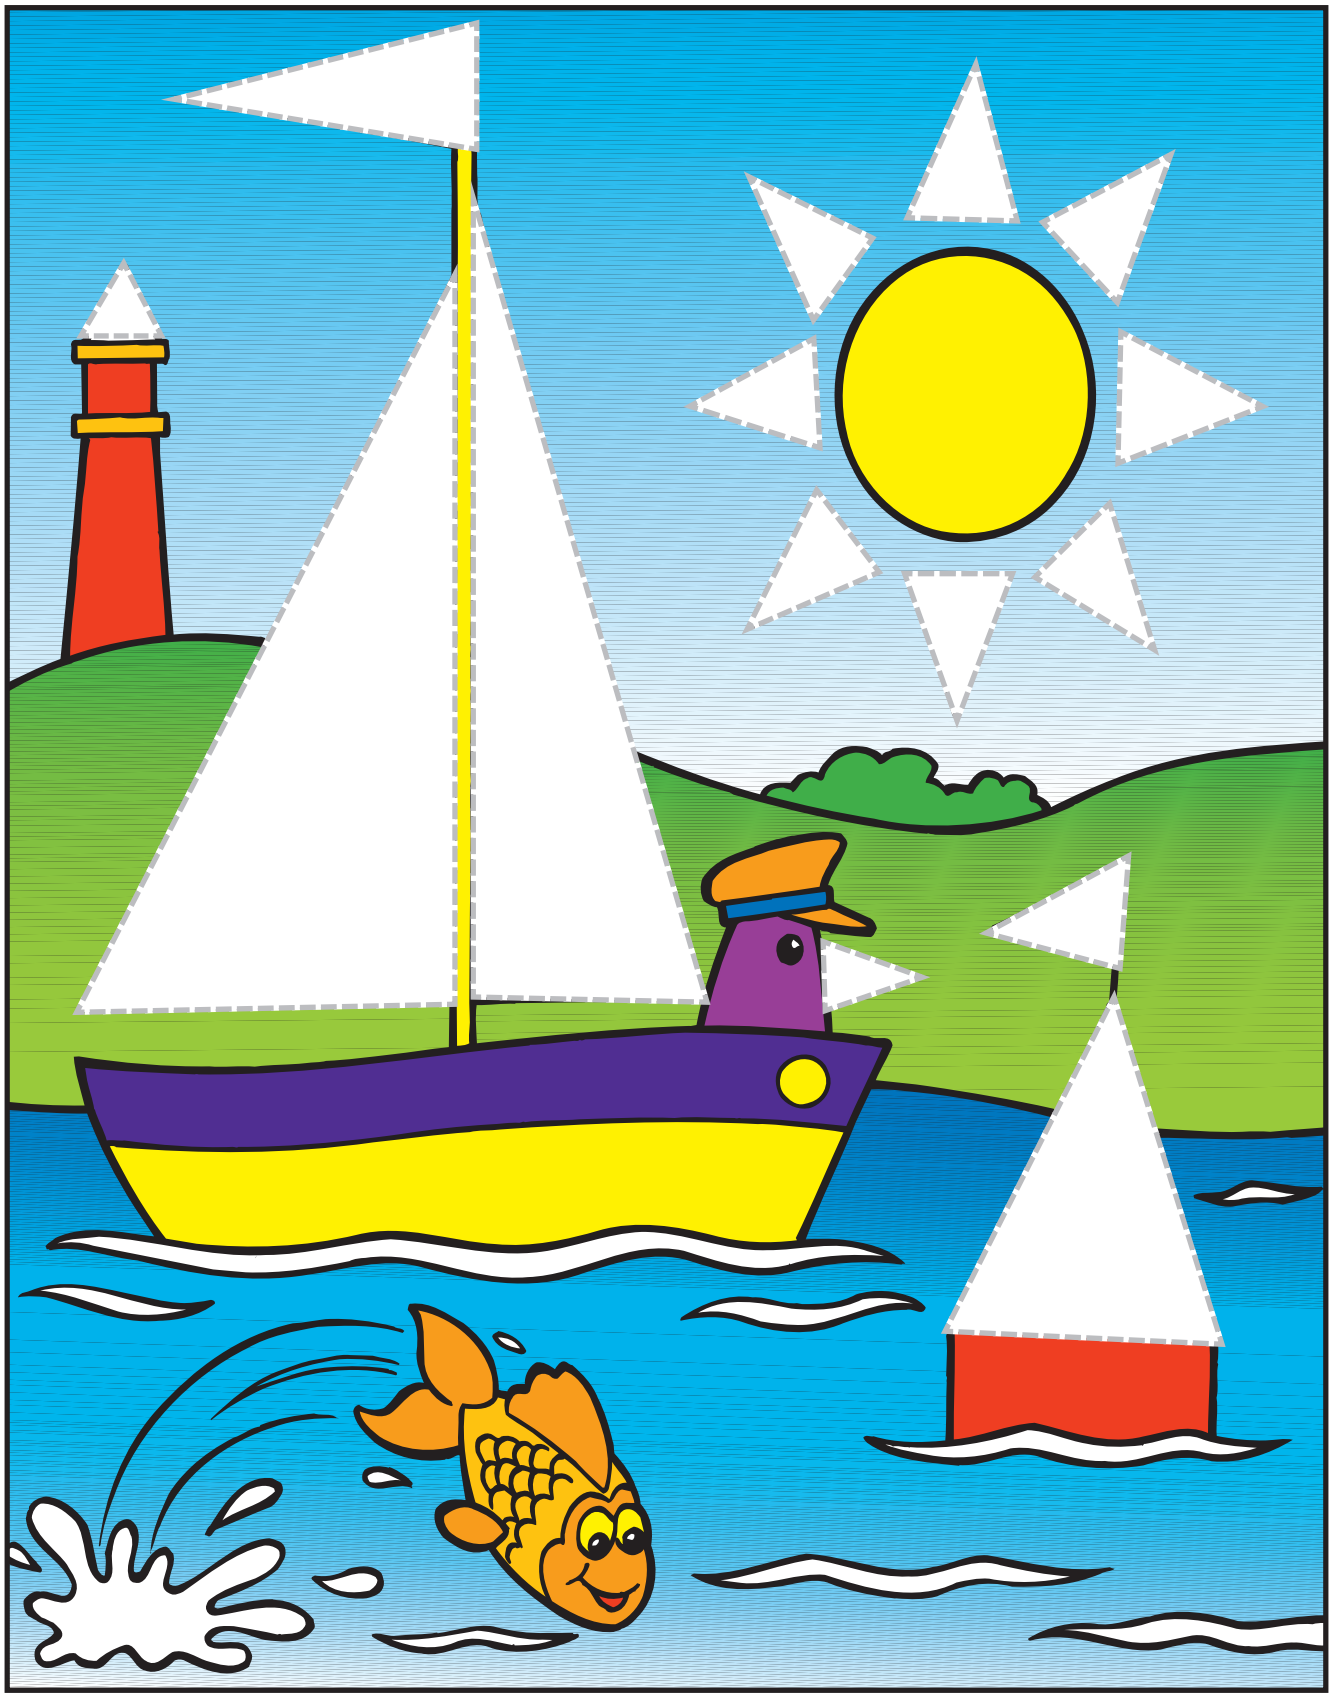

rectangle

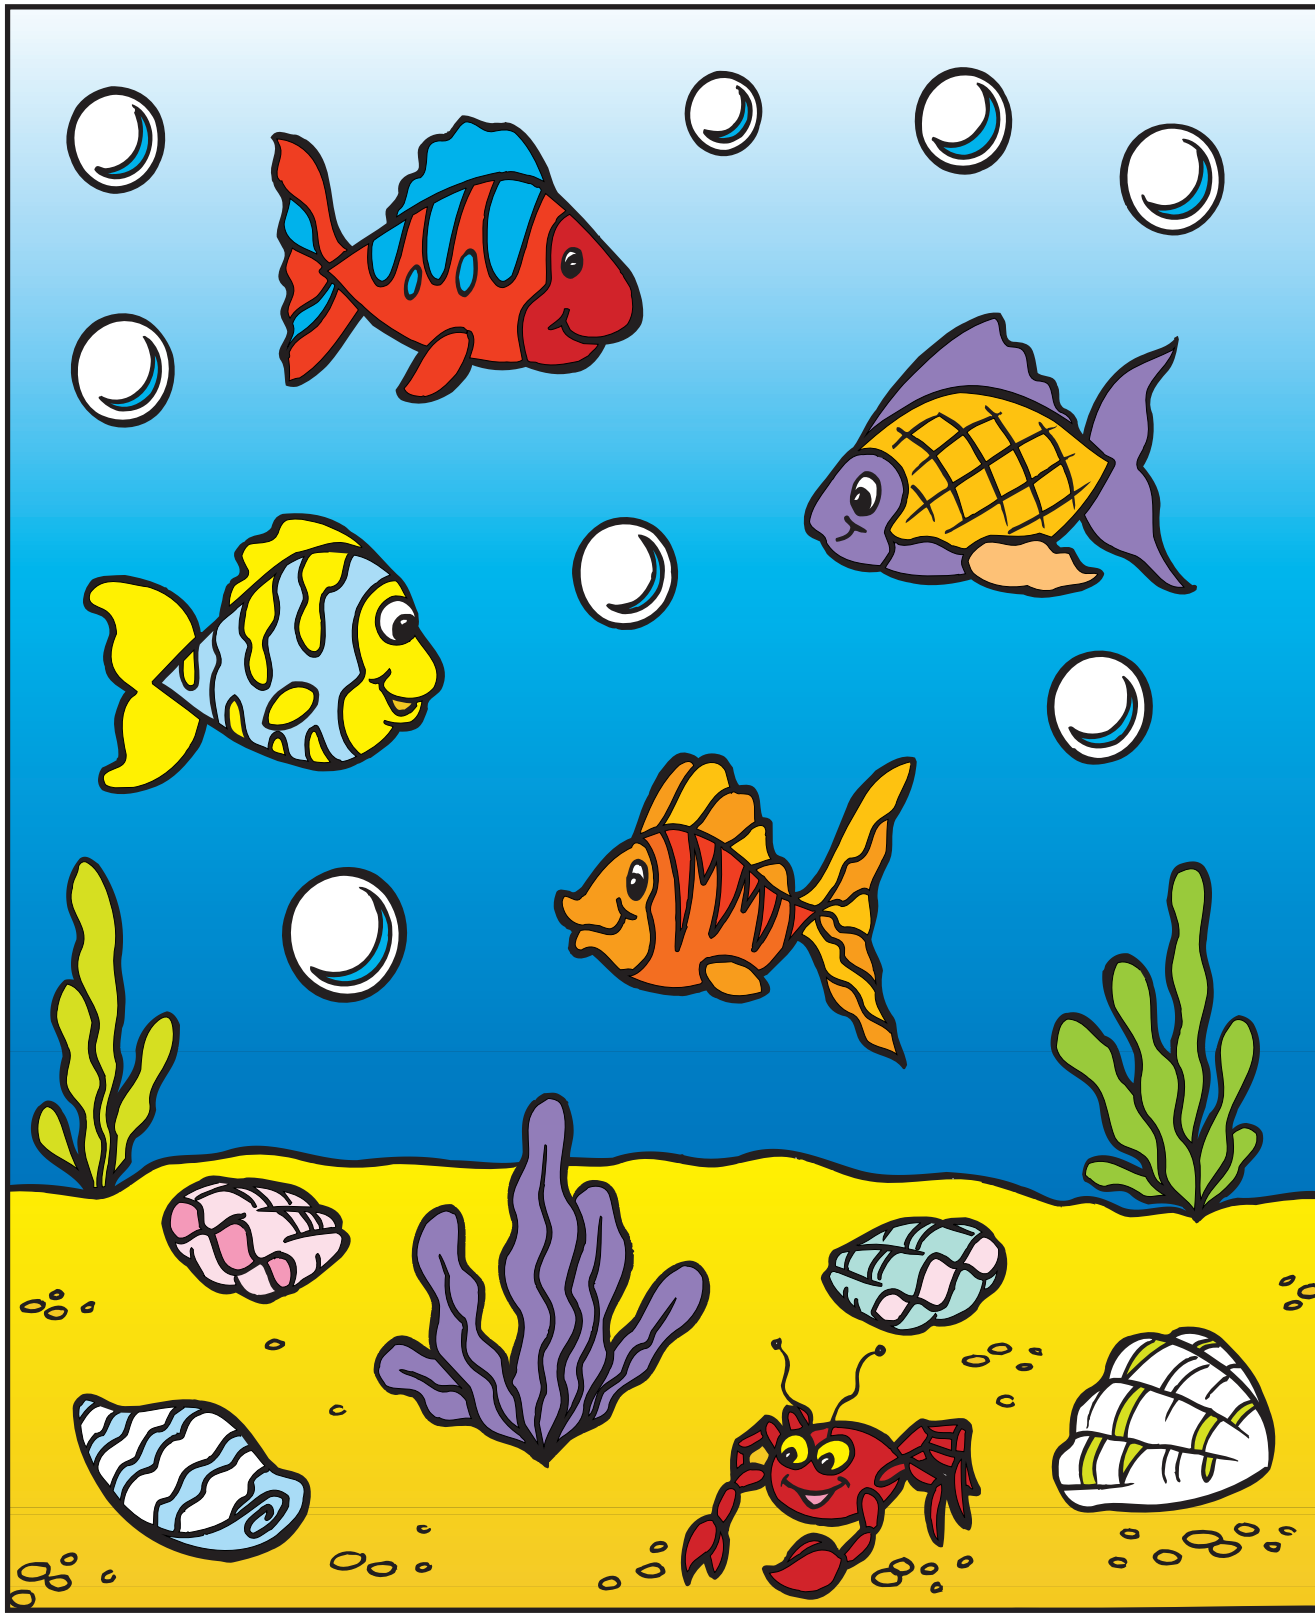

diamond

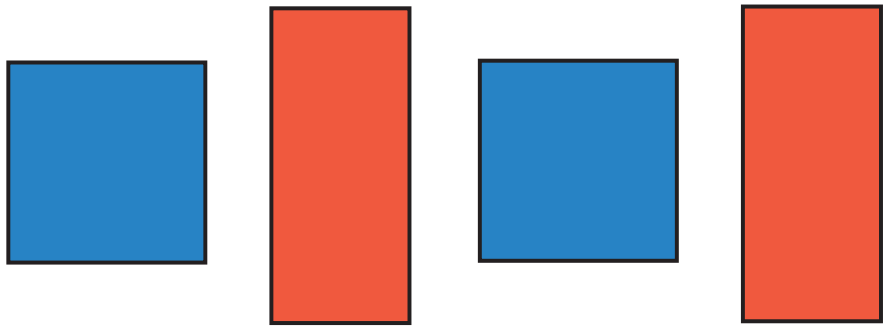

This picture is missing some of its triangles! Draw them in. Color them, too!

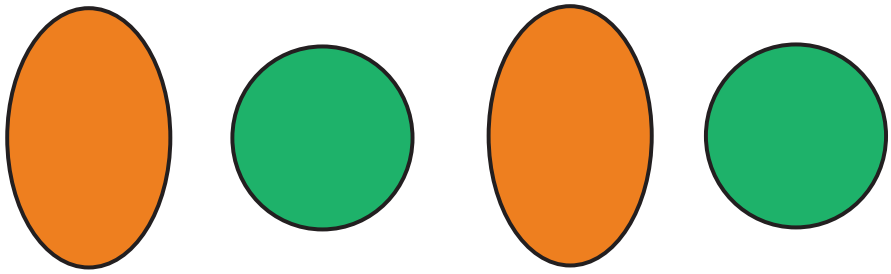

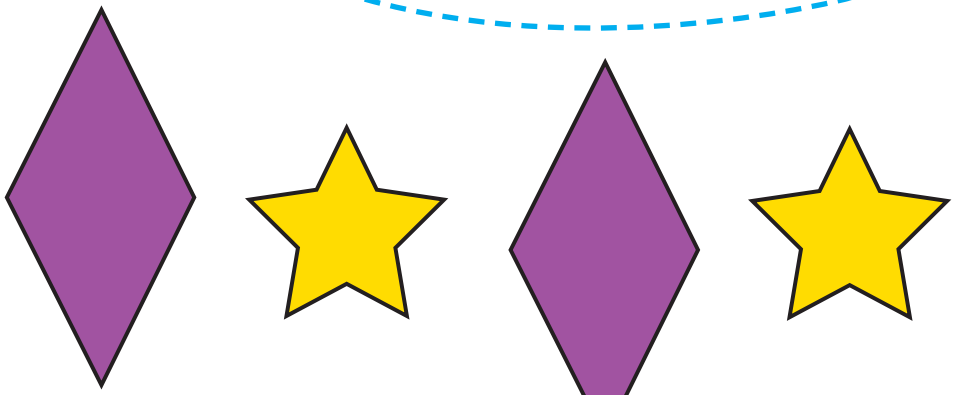

Put a heart around each fish.
Put a diamond around each bubble.
Put a rectangle around each plant.

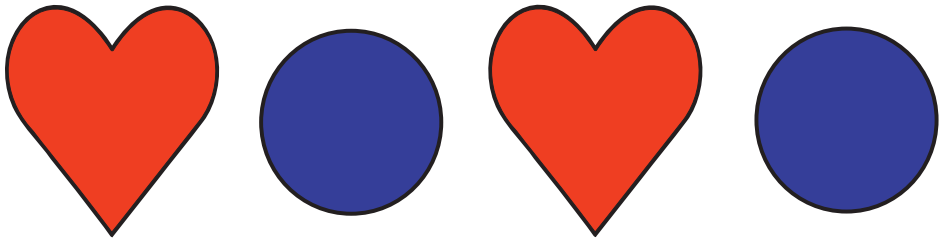

Draw and color the shape that comes next.

Ultimate Counting

- I can count to 10.

Name _____ Date _____

- I can count objects and match to a number.

Name _____ Date _____

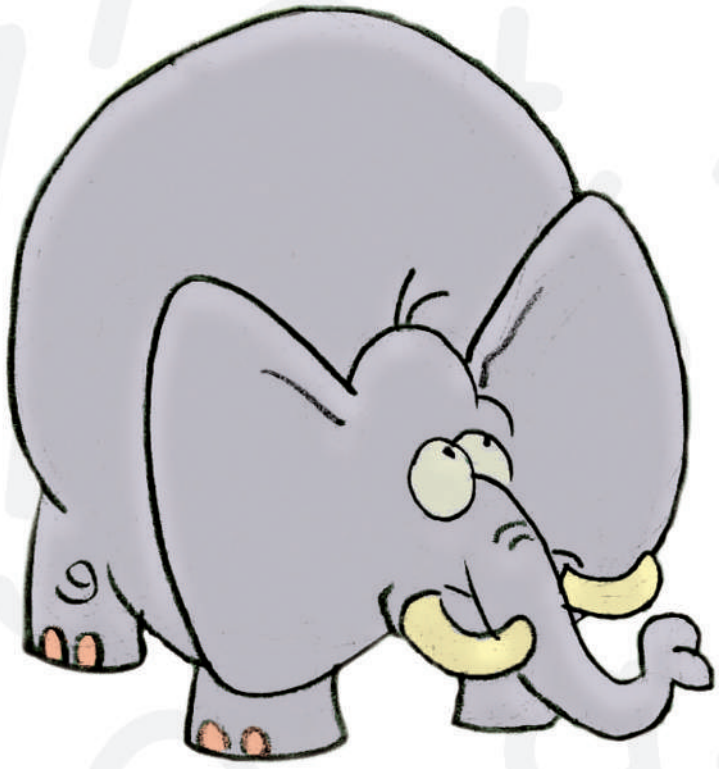

- I can finish dot-to-dots.

Name _____ Date _____

- I finished a number maze.

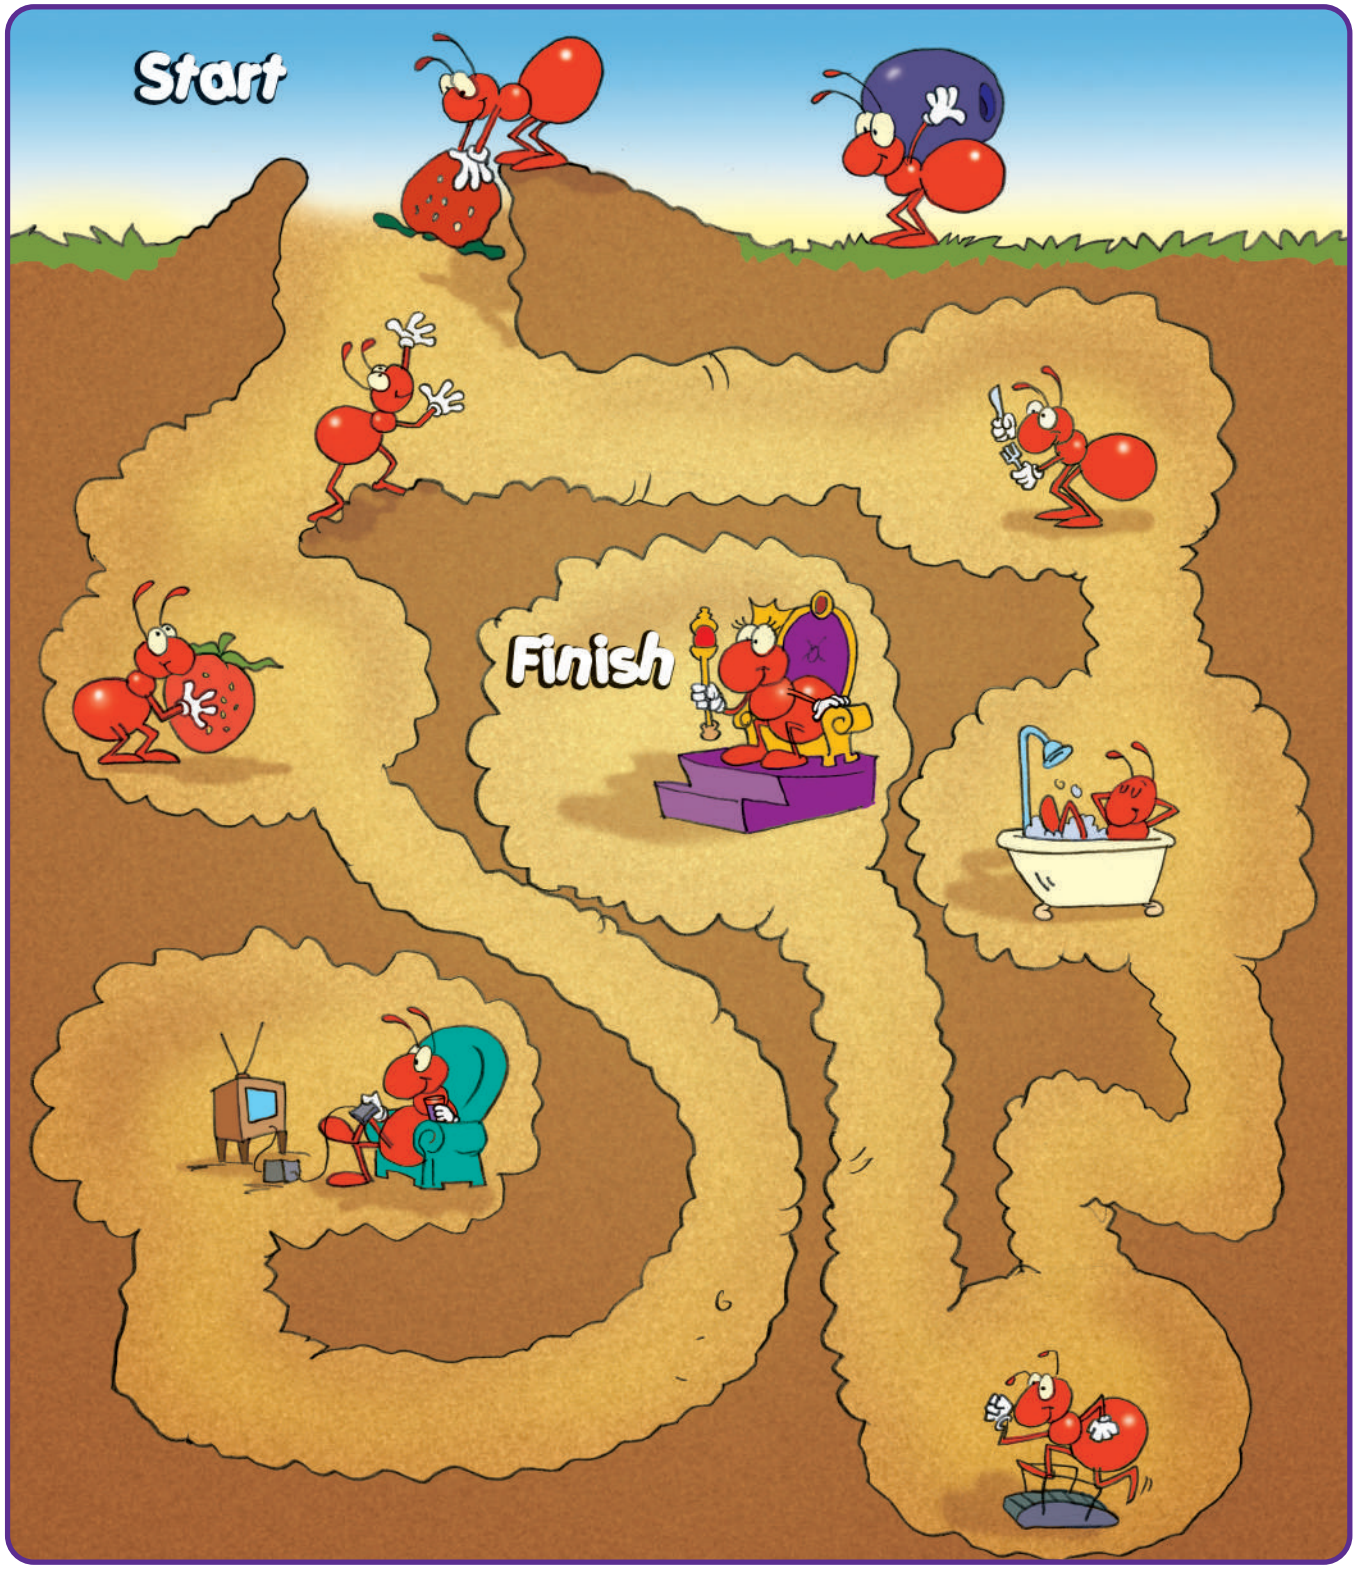

Name _____ Date _____

Amazing Mazes

Challenge yourself with these tricky mazes—and learn fun facts and new words!

A Day's Work

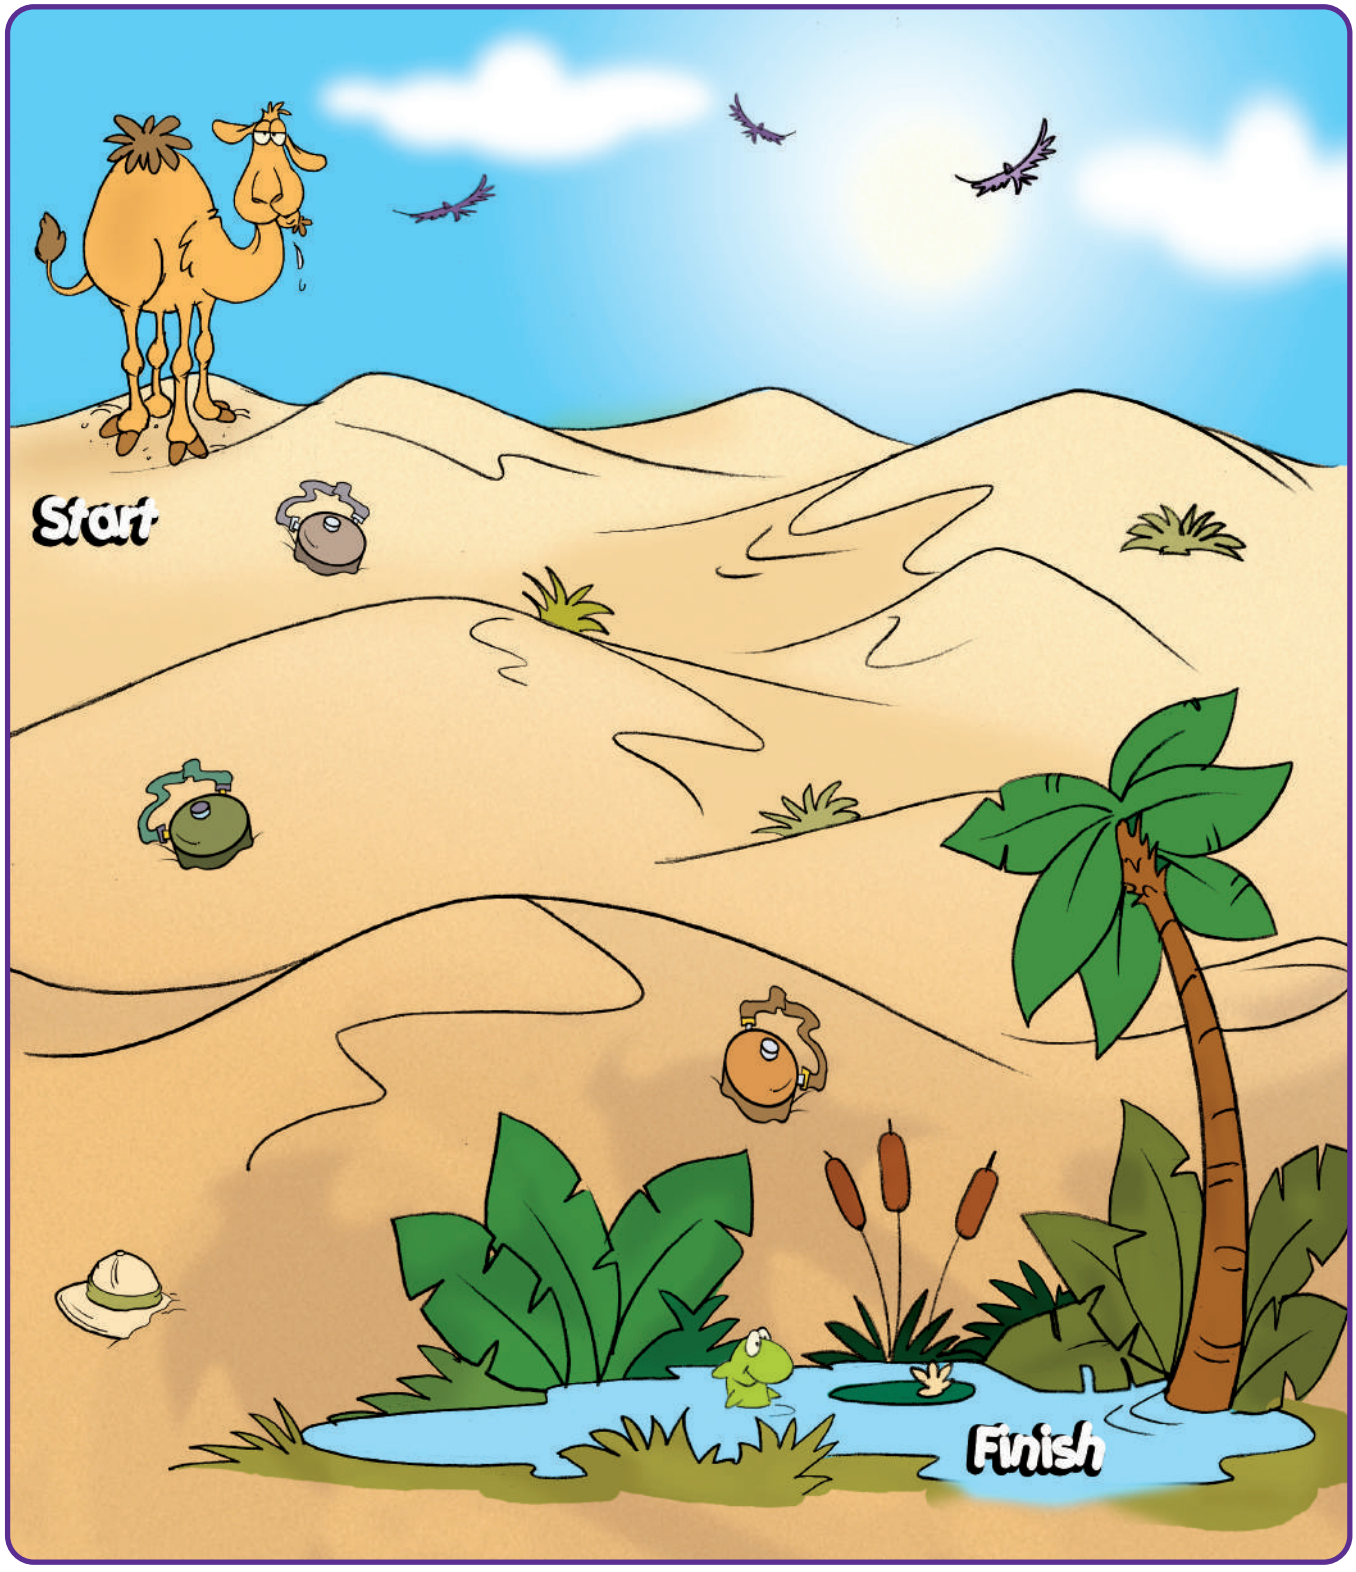

Help the busy worker-ant sisters roll a strawberry to their mom, the Queen.

Pond Paddle

Swim with Bucky the Beaver all around the logs and lily pads to reach his lodge.

Water... Water!

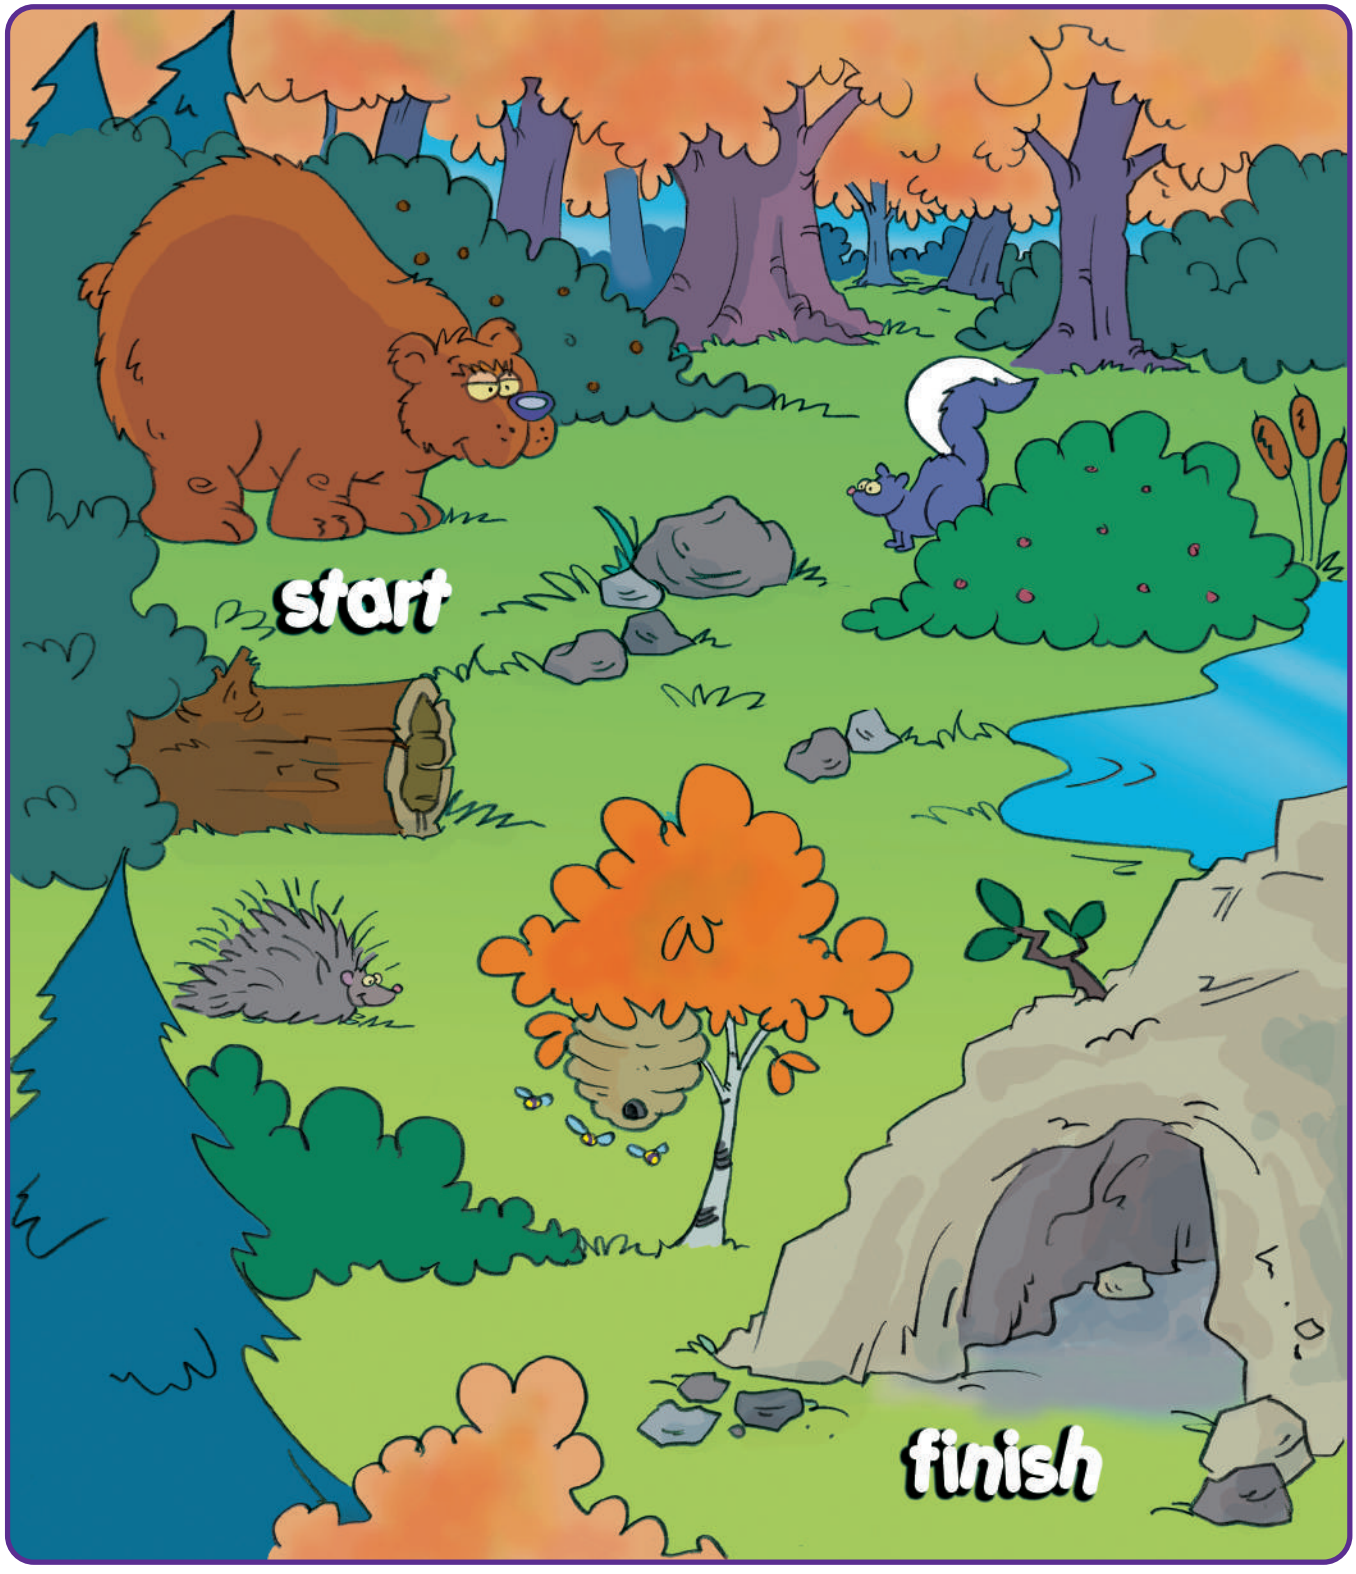

Guide the thirsty dromedary camel around the sandy dunes to the water at the desert oasis.

Mommy's Here!

Fly around the clouds with Mommy Eagle to her nest of hungry eaglets in the cliff-top aerie.

Nap Time!

Show the sleepy grizzly bear how to get through the woods to his den in the cave.

Horse Trail

Show the brown mare the way through the barnyard to her pals in the pasture.

Bamboo Boogie

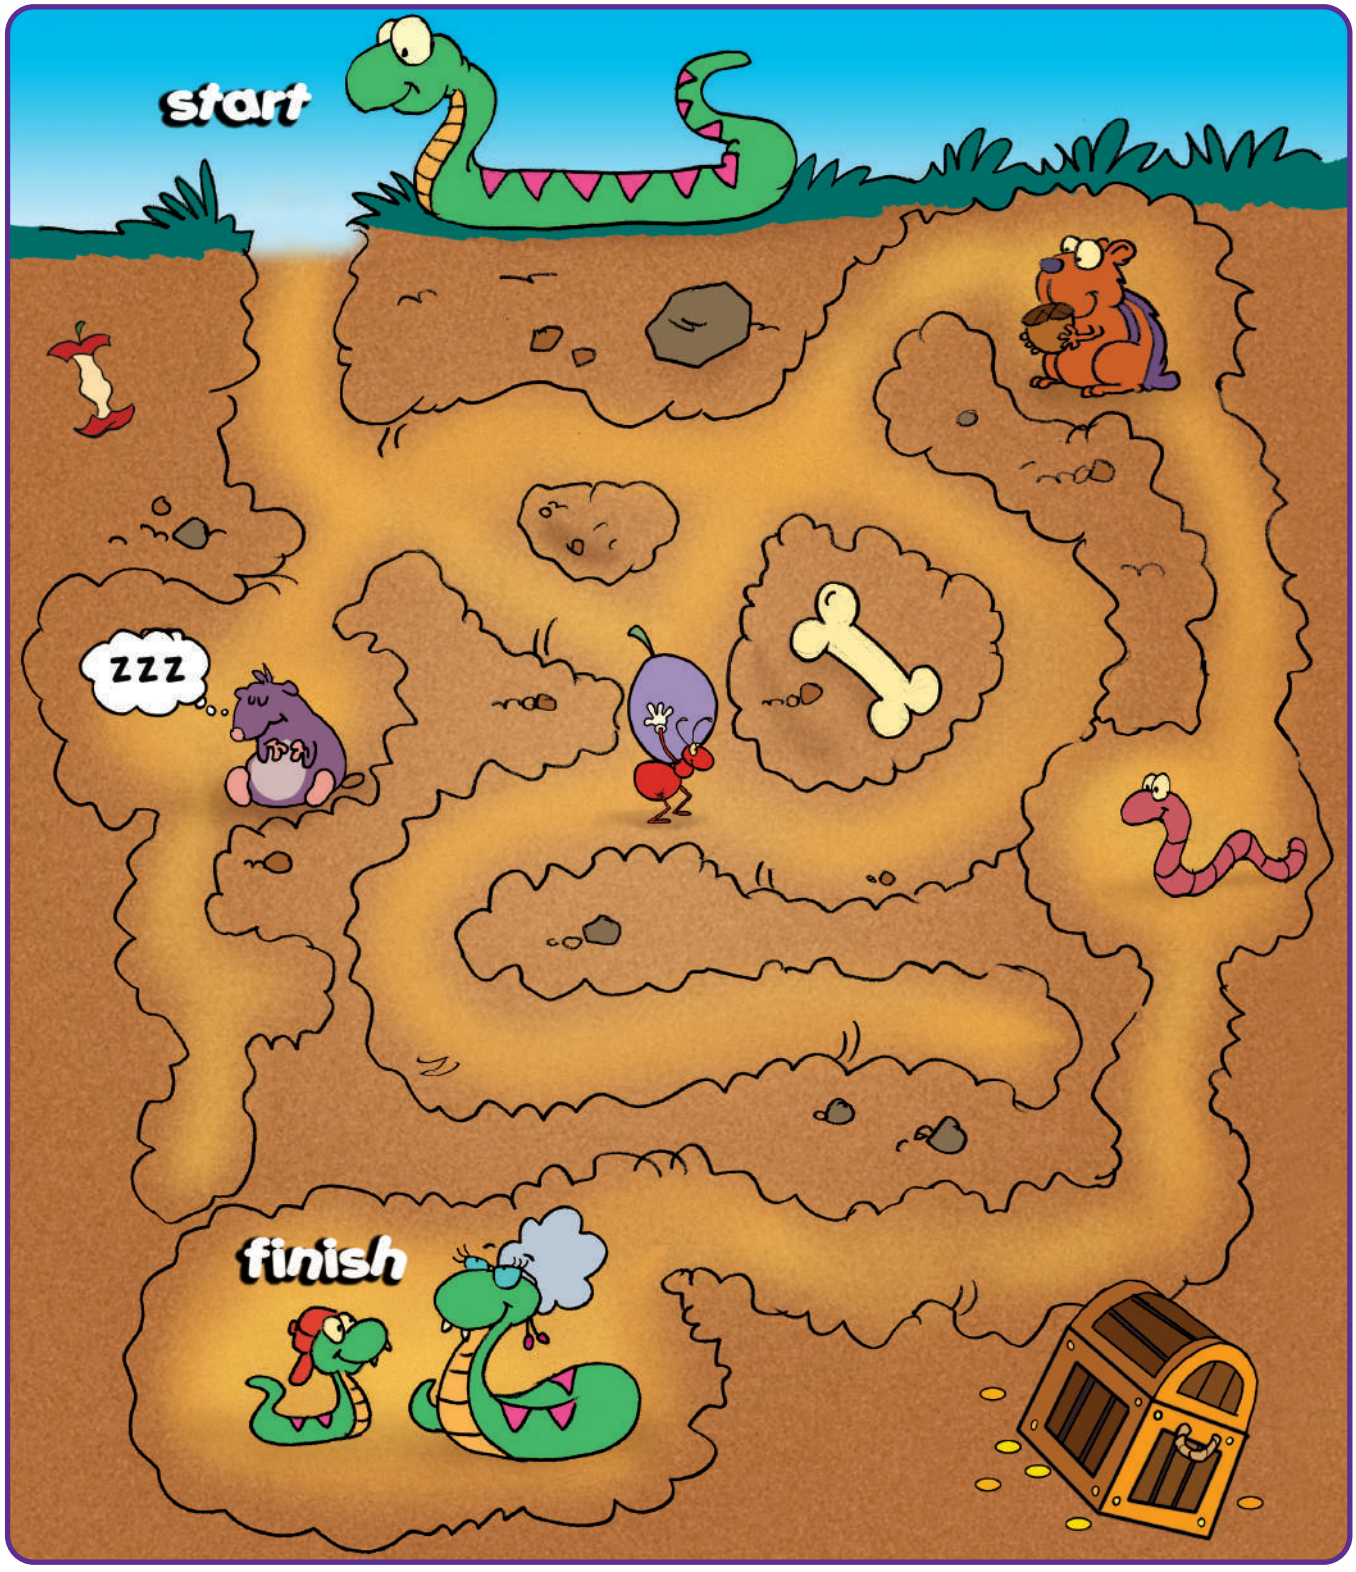

Paddy the Panda wants to join his buddies. Can you show him the way through the bamboo?

Back Stroke

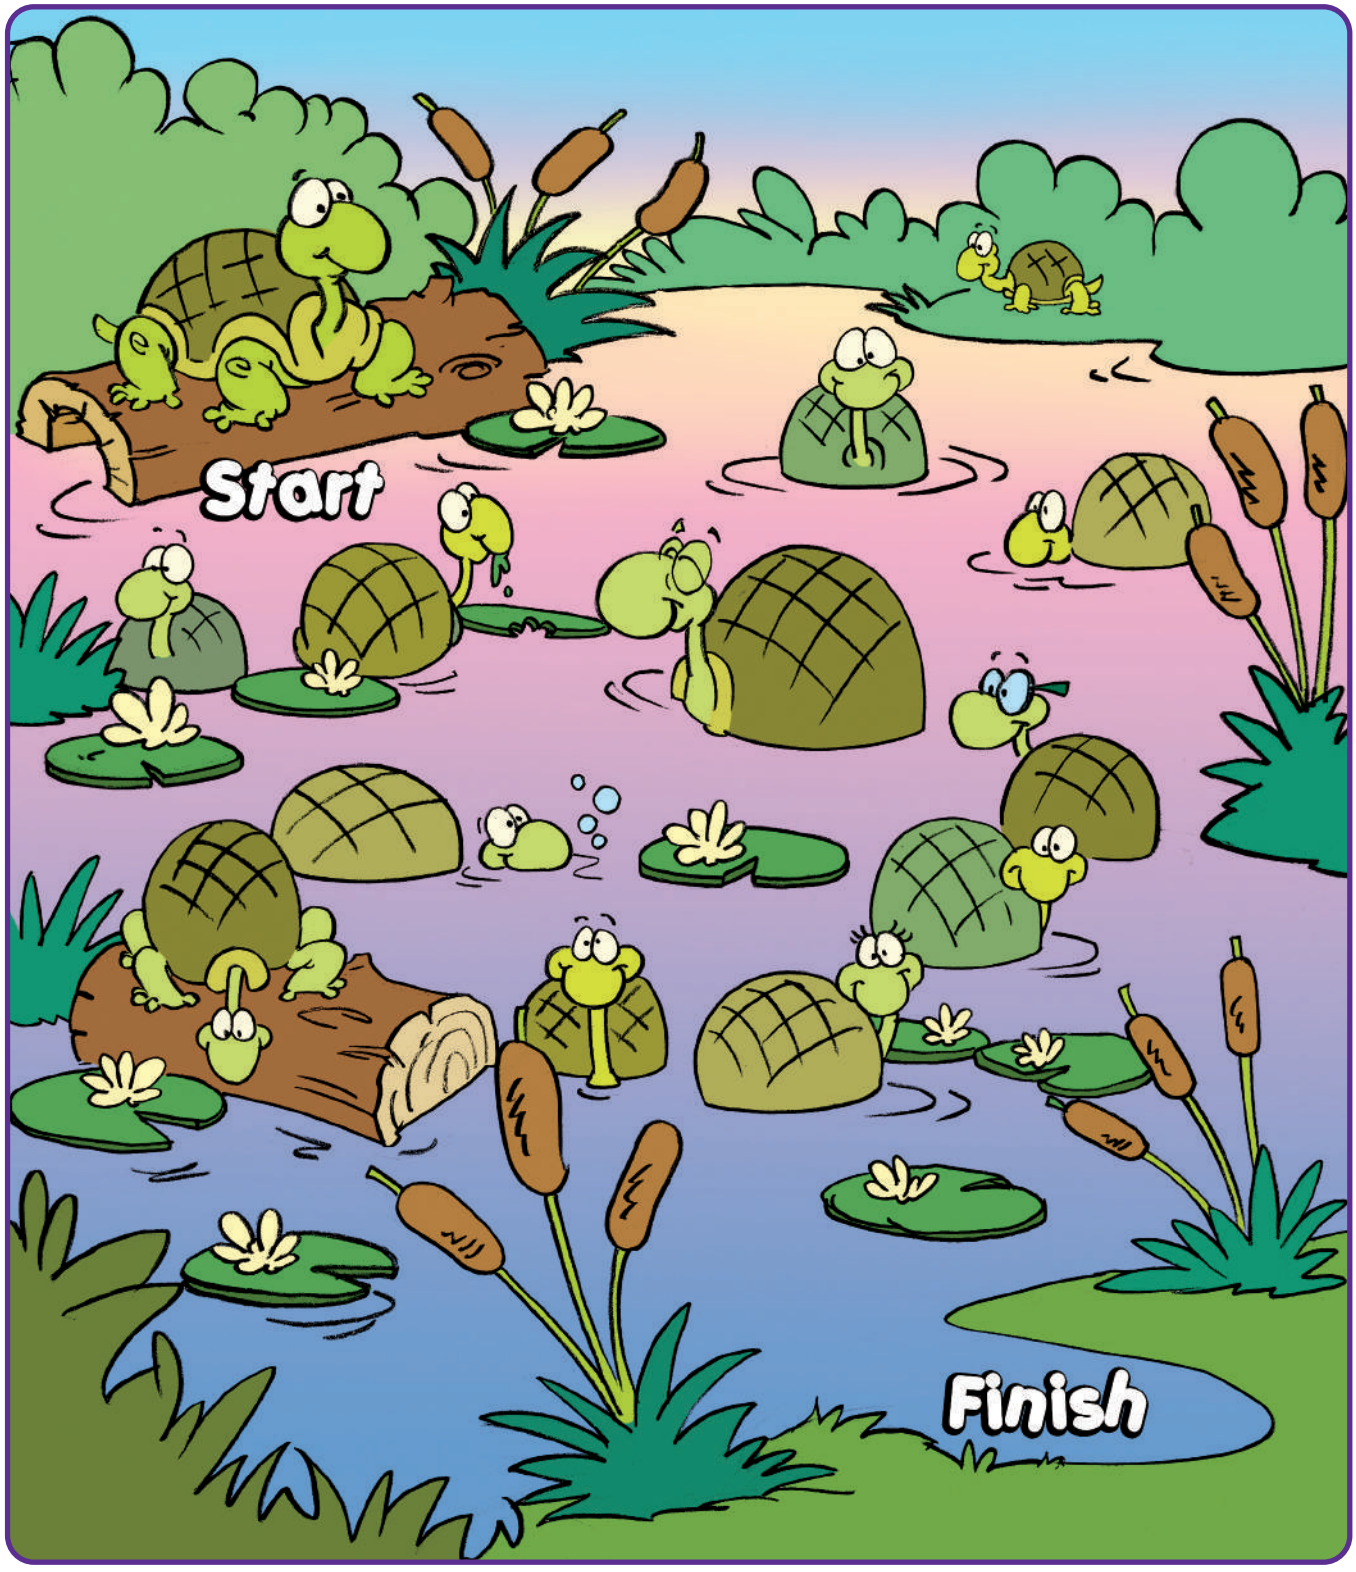

Help the seal weave his way around the waves to get back to his friend on the opposite beach.

Slither In!

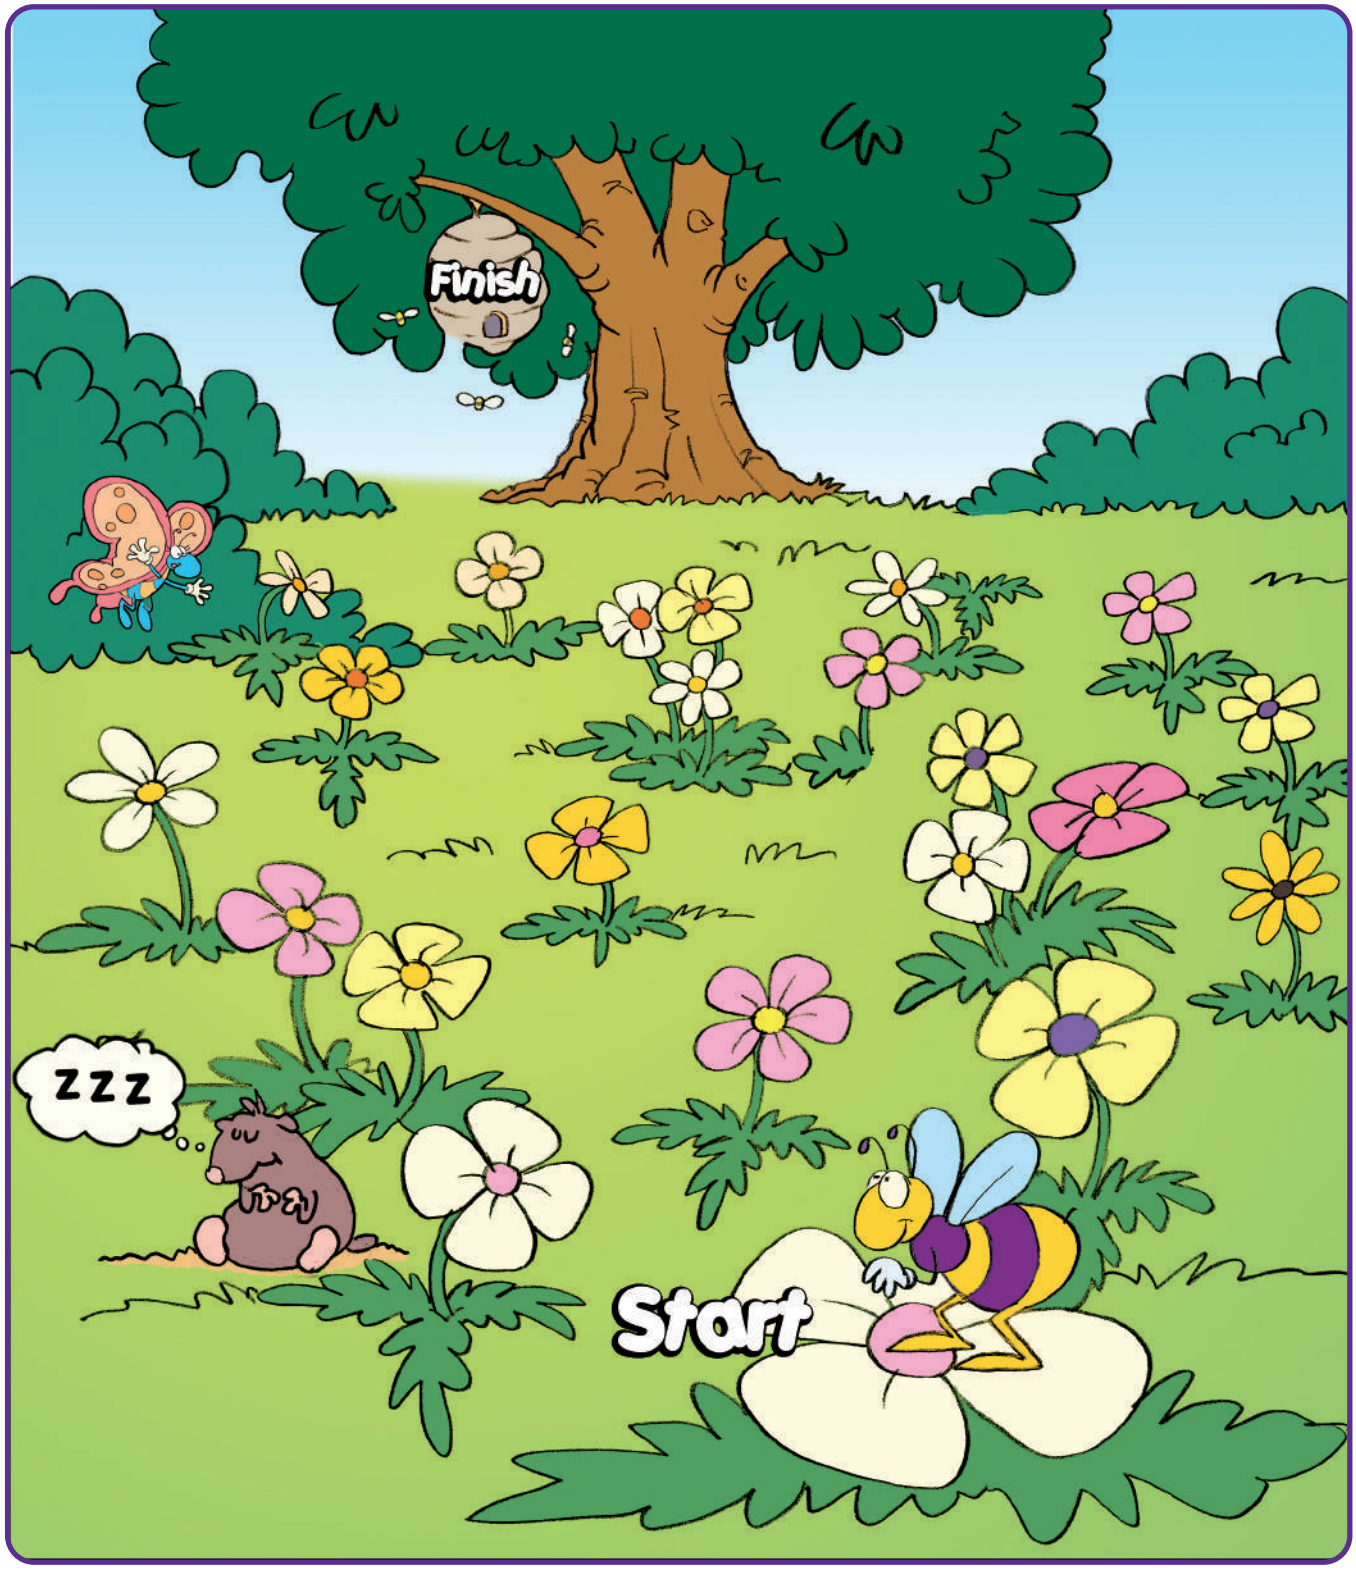

Slither into the burrow with Papa Snake and help him find his family.

Swamped!

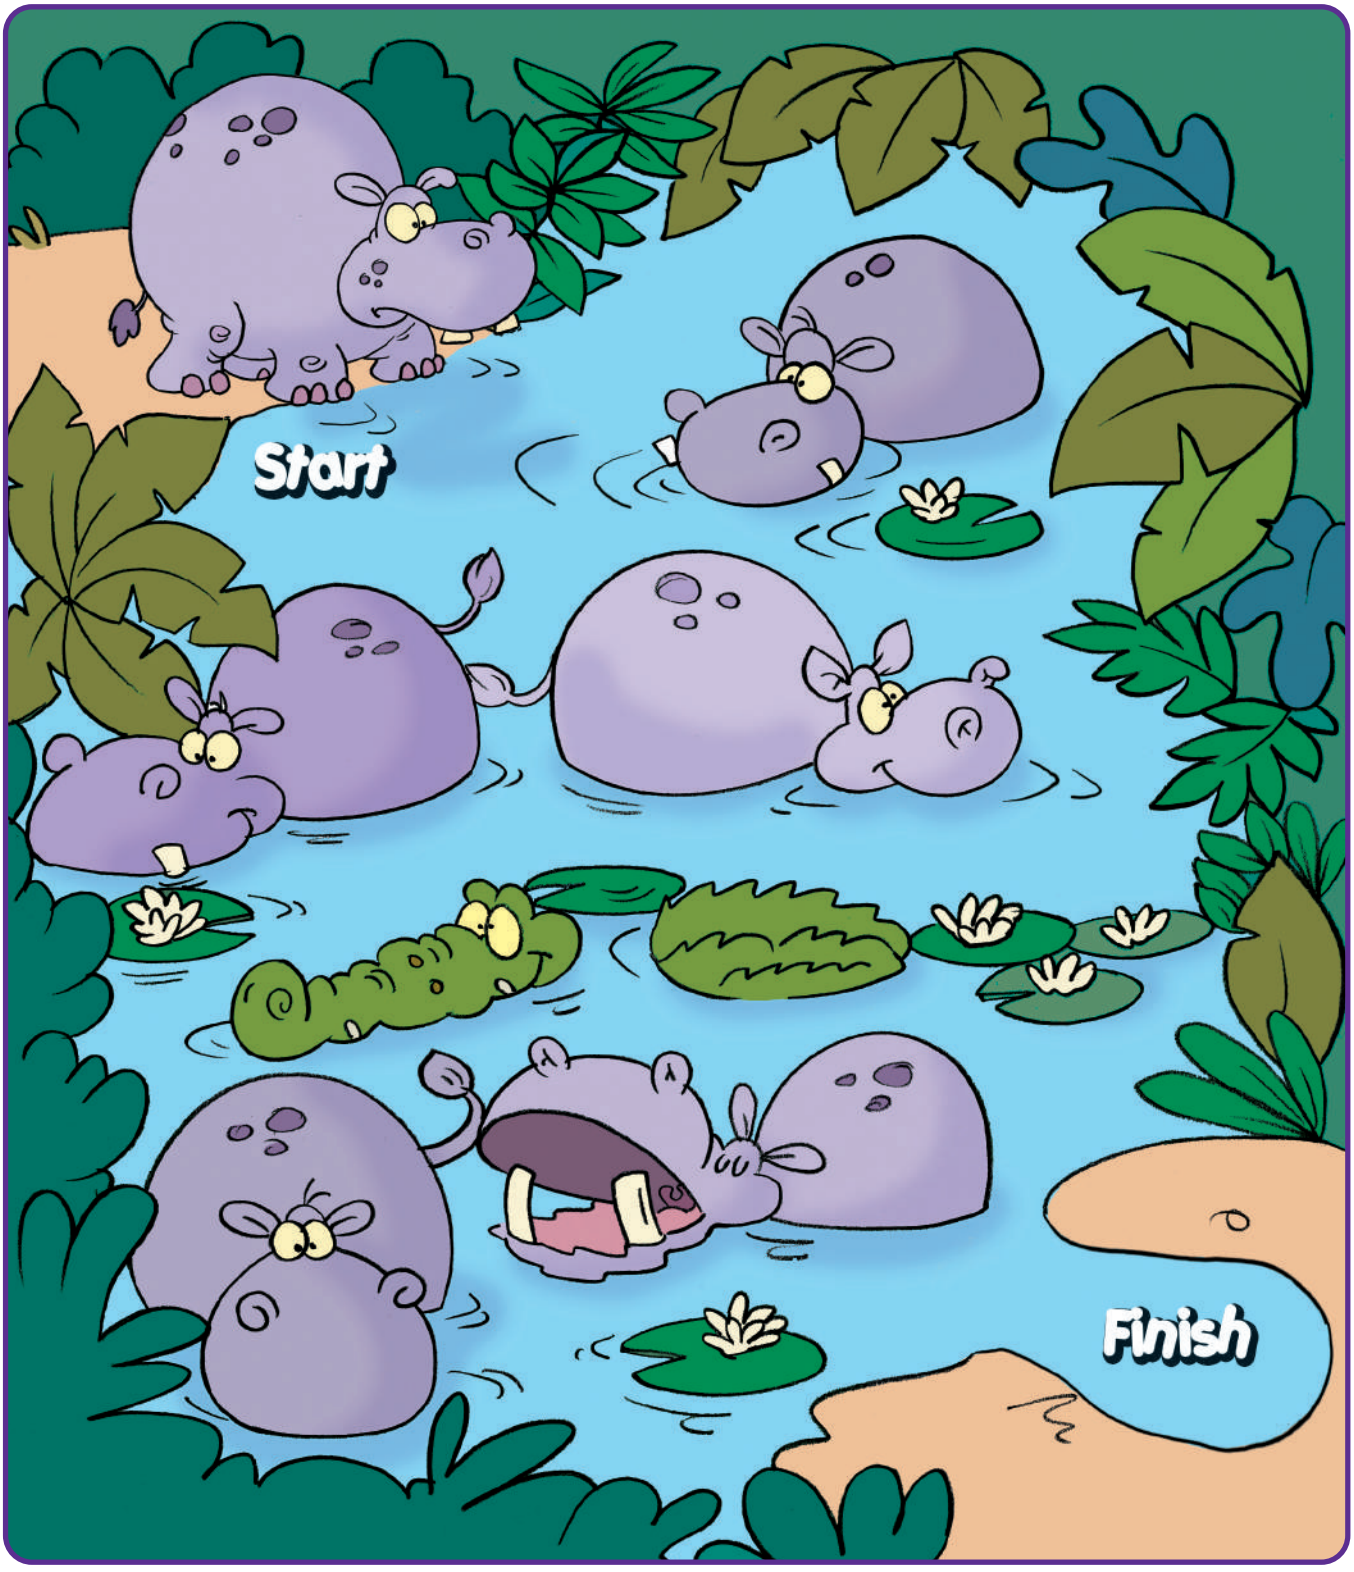

Myrtle the Turtle has finished basking in the sun.
Guide her to her favorite cool pool.

Buzz on in!

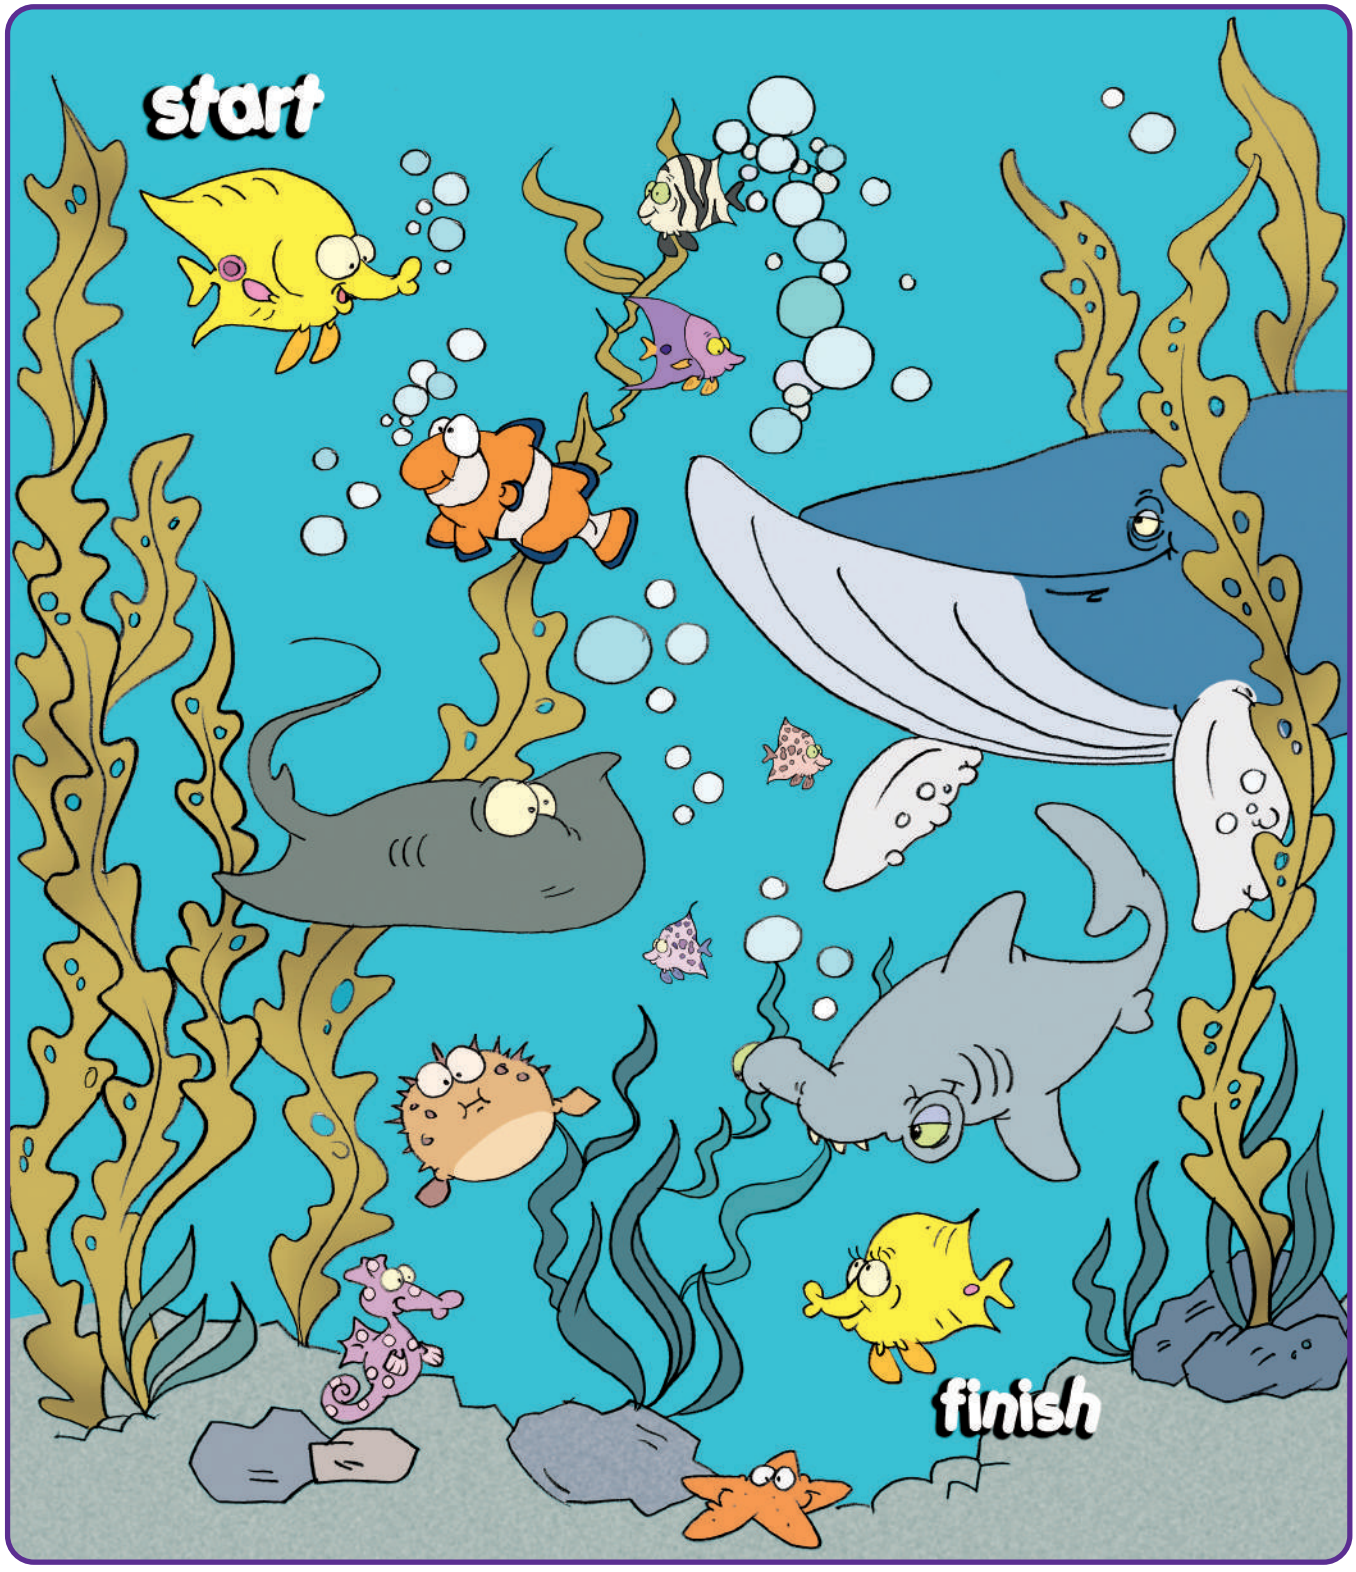

Betty Bee needs to tell the other bees where to find sweet nectar. Can you guide her to the hive?

Ahoy, Hippos!

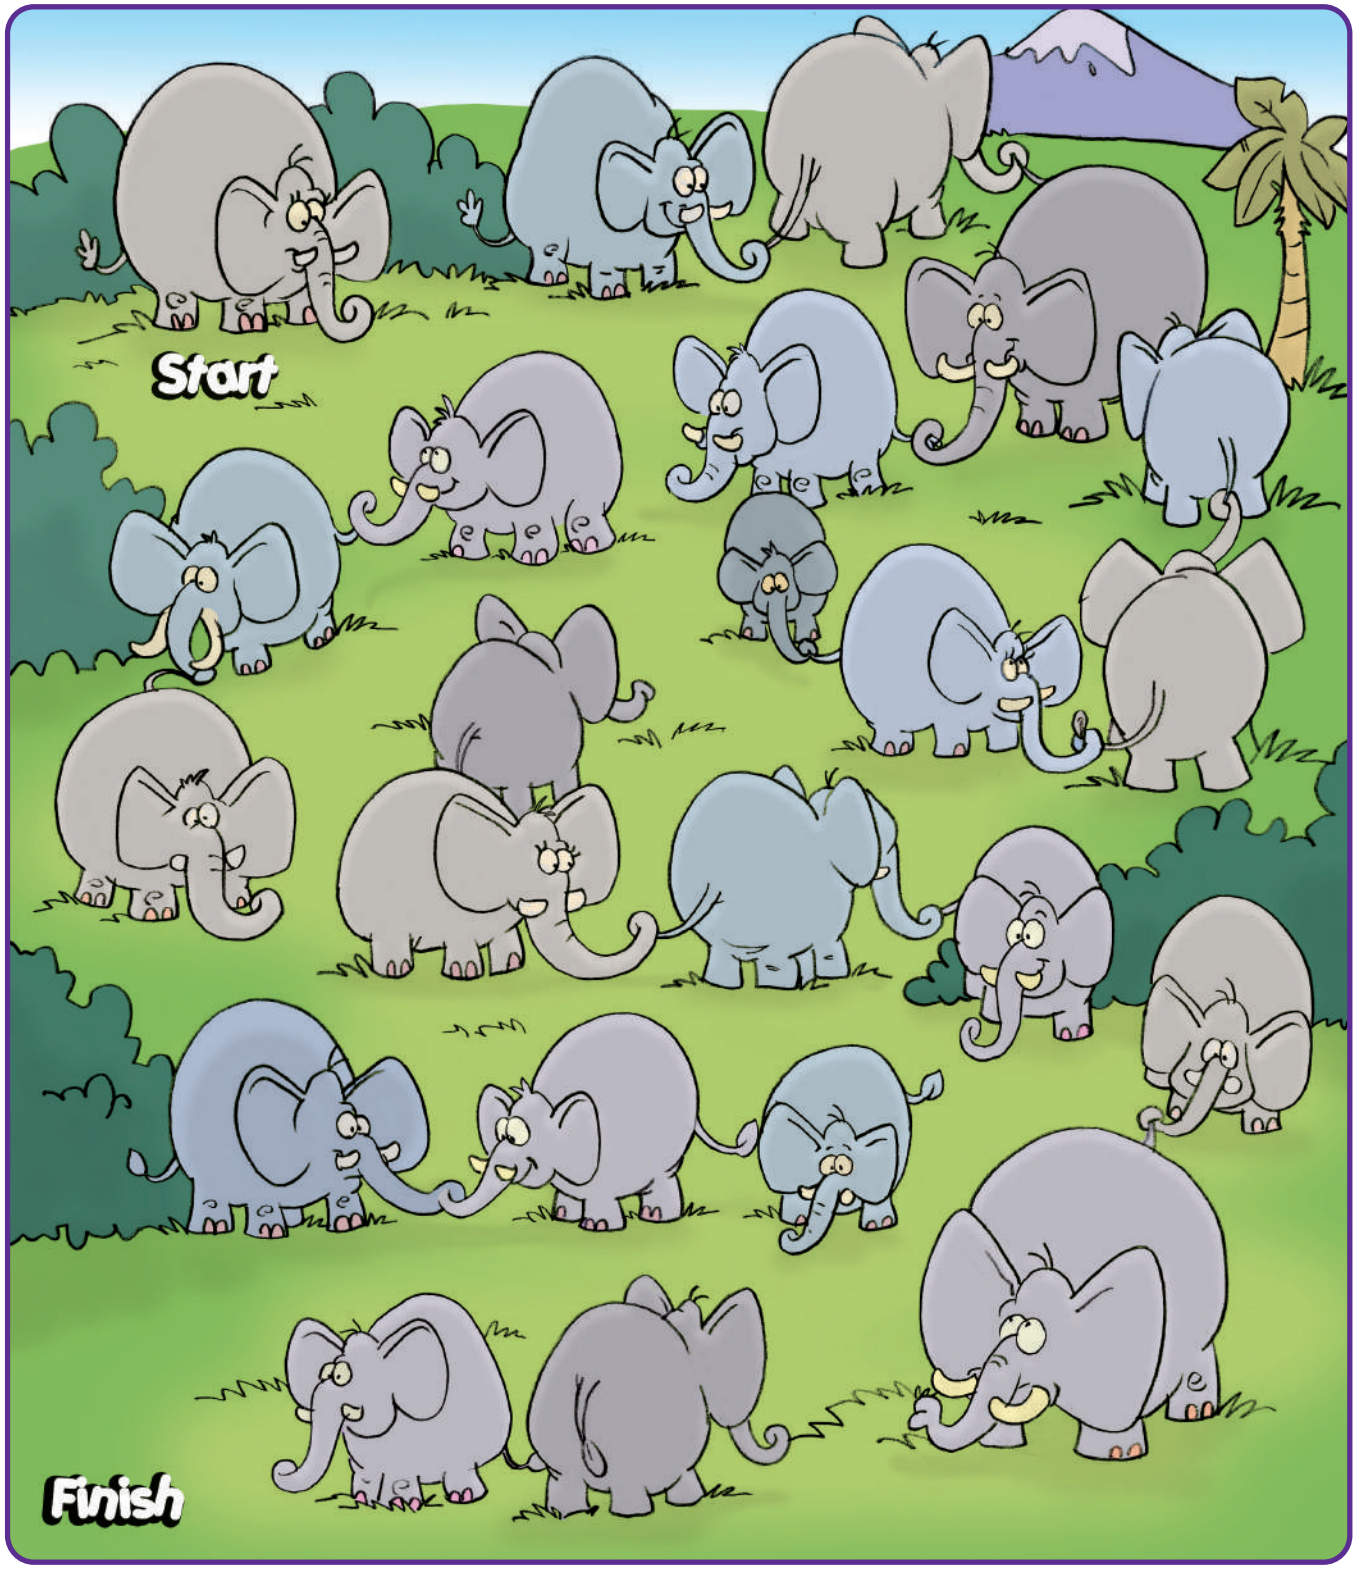

Help the hippo through the water and around his friends to get to the other side of the river.

Sea Search

Swim with the Yellow Tang fish around the bubbles and ocean buddies to find his waiting friend.

Elephant Walk

Momma Elephant wants to find her little calf. Can you walk her in and around the herd?

1. Sand Letters

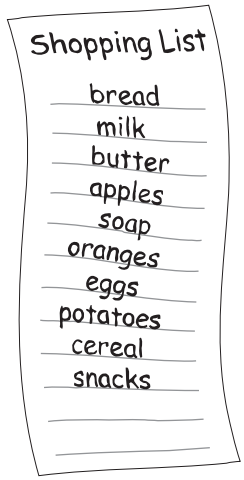

Take advantage of letter writing opportunities that come up during the day. When you and the child are at the beach, or in the backyard sandbox, practice writing letters in the sand. Show the child how to combine letters to write the names of familiar people.

2. Sequence Cards

Create uppercase letter cards using 26 3"x5" index cards. Write one letter of the alphabet on each card. Help the child sequence the letters in order from A to Z. After the child is comfortable sequencing the letters, play a letter game with the cards. Place any card on the table and ask the child to find the one that comes next, or the one that comes before your card.

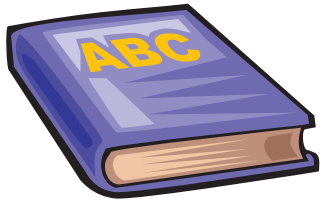

3. Print a Shopping List

Look for opportunities to have the child print letters to make words. When you are creating a shopping list, ask the child to print some items on the list. If the child asks you how to spell an item, spell out each letter slowly and wait until he or she has written it before reciting the next letter in the word. At the store, ask the child to "read" the items he or she has added to the list and then ask for help selecting the items that are to be purchased. By combining letters into words that help make a task simpler, the child will discover the importance of letters and the sounds associated with them. This will provide a successful introduction to early reading.

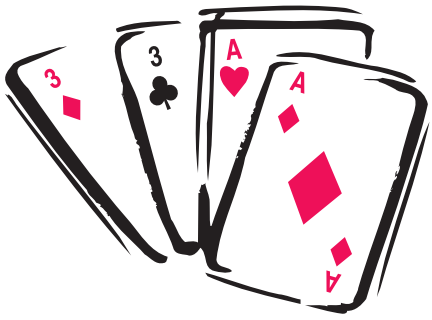

4. Make an Alphabet Book

Help the child make an alphabet book. Staple together 26 pages of blank paper. Encourage the child to write one alphabet letter on each page of the book. Supply the child with old magazines to look through. Cut out pictures that can be placed with each alphabet letter. Sit down with the child during the quiet times and read the alphabet book together. Take turns naming the items on the pages and identifying the letters.

5. Matching Game

Create upper and lowercase letters using 26 3"x5" index cards. Cut each index card in half and write the uppercase letter on one half and the lowercase version on the other half. Have the child match the uppercase letter with the lowercase letter. Once all the cards are matched, the child may put the cards in alphabetical order.

6. Memory Game

Using two identical decks of playing cards, select matching pairs of cards. For first-time players, begin with 10 pairs of cards. As the child becomes accustomed to playing and his or her attention span increases, add additional pairs of cards.

Game Directions: This game can be played by 1 or more players. The goal of the game is to collect pairs of cards that are the same. Mix up the cards and spread them face down on a table. Player #1 turns over two cards. If they match, the player keeps the cards and takes another turn. If the cards do not match they are turned back over. When Player #1 does not make a match the play passes to Player #2. The game continues with each player taking a turn until all the cards have been matched. The player with the most pairs wins.

7. Classification

Take a walk to hunt for fallen leaves. Help the child sort the leaves into categories. For example, some may look like mittens, some may have pointed edges, some may have rounded edges, etc.

8. Sorting Game

Look for sorting opportunities in your everyday life. Ask the child to sort silverware into like groups. How many groups are there? Ask the child to describe how the groups were made. Are the large spoons with the small spoons, or did your child choose to make a separate grouping also based on size?

9. Block Party

While playing with colored blocks, help the child sort the blocks by size, shape, and color. For example, select all the large blocks, the large red blocks, the small blue blocks, etc.

10. The Travel Game

As you and the child travel on errands, look for things that are the same or different. Depending on what criteria you use, two items could be considered either the same or different. For example, two red cars might be the same because they are both red, or they might be different because one is large and one is small. Each time you play, be sure to determine the characteristics that make things the same or different.

11. Shapes in the Sand

When at the beach or at the sandbox, draw different shapes in the sand and have the child tell you what each shape is. Then call out a shape and have the child draw that shape in the sand.

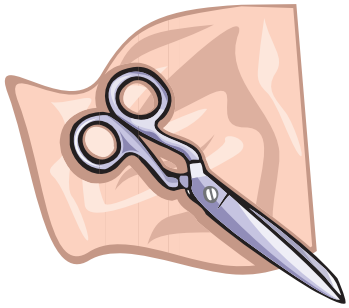

12. Crayons

Get a box of eight crayons and have the child tell you the name of each color crayon.

13. Roll Call

Make a list of different shapes. Ask the child to draw the outline of each shape you call out. When all the shapes are drawn, have the child color each shape in a color that you specify.

14. Cut and Paste

On paper, have the child draw five of each shape and color each one red, yellow, blue, green, and orange. Draw the outline of each shape on a separate piece of paper and ask the child to place the red triangle in its spot and so on. Be sure to mix it up a little!

15. Color of Everyday Items

Gather up different colored items you would see in everyday life. Have the child tell you what color each item is that you hold up.

16. Say It Aloud

Say a letter from the alphabet. Have the child give you a word that begins with the letter you called out. Then, call out a word and have the child tell you what letter it starts with.

17. Fill In the Blanks

Write simple words on paper from A to Z, but leave the first letter off. Say the word without the first letter and have the child tell you what's missing. After the child is comfortable doing this, try to leave a letter out of the middle of another set of words.

18. Go Shopping

Grocery or any other type shopping is a good way for a child to learn the importance of numbers. Have the child call out numbers he or she sees printed on the groceries you buy. Show the child how numbers are used for pricing, amounts, and quantity.
